Table of Contents

Preface .................................................................................................................................................. xiv

Section 1
Curricula and Graduate Attributes

Chapter 1
Using Innovations Effectively in a Distance Learning Programme: Case Study at Loughborough University.............................................................................................................................................. 1

Richard Blanchard, Loughborough University, UK
Sheryl Williams, Loughborough University, UK

Chapter 2
Problem-Based Learning Curricula in Engineering................................................................. 23

Siva Krishnan, The University of Newcastle, Australia

Chapter 3
Generic Engineering Competencies Required by Engineers Graduating in Australia: The Competencies of Engineering Graduates (CEG) Project........................................................................................................... 41

Sally A. Male, The University of Western Australia, Australia

Chapter 4
Developing Right Graduate Attributes through Project-Based Teaching.............................. 64

Neeta Baporikar, College of Applied Sciences – Salalah, Oman

Chapter 5
Assessment of Final Year Engineering Projects: A Pilot Investigation on Issues and Best Practice.............................................................................................................................................. 80

Mohammad Rasul, Central Queensland University, Australia
Fons Nouwens, Central Queensland University, Australia
Rhiannon Swift, Central Queensland University, Australia
Fae Martin, Central Queensland University, Australia
Colin V. Greensill, Central Queensland University, Australia
Chapter 6
Growing Pains in the Revitalisation of a 2nd Level Engineering and Spatial Science PBL Course

Steven Goh, University of Southern Queensland – Toowoomba, Australia
John Worden, University of Southern Queensland – Toowoomba, Australia
Hong Zhou, University of Southern Queensland – Toowoomba, Australia
John Clewett, University of Southern Queensland – Toowoomba, Australia

Chapter 7
The Use of Learning Objects as an Alternative for Providing Curriculum Flexibility in Engineering Courses

Lília Maria Marques Siqueira, Pontifícia Universidade Católica do Paraná, Brazil
Patricia Lupion Torres, Pontifícia Universidade Católica do Paraná, Brazil

Chapter 8
Engineering the Future: CDIO as a Tool for Combating Retention Difficulties

Robin Clark, Aston University, UK
Jane Andrews, Aston University, UK

Section 2
Learning and Teaching Technologies

Chapter 9
Technology-Enhanced Learning Standard through Integration of Modeling and Simulation into Engineering Study Programs

Dietmar P. F. Moeller, University of Hamburg, Germany
Hamid Vakilzadian, University of Nebraska – Lincoln, USA

Chapter 10
Assessing the use of Blackboard for Course Delivery in an Engineering Programme

Jacek Uziak, University of Botswana, Botswana
M. Tunde Oladiran, University of Botswana, Botswana
Richie Moalosi, University of Botswana, Botswana

Chapter 11
Online Computer Engineering: Combining Blended E-Learning in Engineering with Lifelong Learning

Dietmar P.F. Moeller, University of Hamburg, Germany
Daniel Sitzmann, University of Hamburg, Germany

Chapter 12
Web-Based Experimentation for Students with Learning Disabilities

Venkata Chivukula, Rensselaer Polytechnic Institute, USA
Michael Shur, Rensselaer Polytechnic Institute, USA
Chapter 13
An Innovative Offshore Delivery of an Undergraduate Mechanical Engineering Program......... 233
Firoz Alam, RMIT University, Australia
Aleksandar Subic, RMIT University, Australia
Gregory Plumb, RMIT University, Australia
Mark Shortis, RMIT University, Australia
Reddy P. Chandra, Stansfield College, Singapore

Section 3
Generic Courses and Community Involvement in Engineering Education

Chapter 14
Integrating General Education Courses into Engineering Curriculum: Students’ Perspective........ 247
Jacek Uziak, University of Botswana, Botswana
M. Tunde Oladiran, University of Botswana, Botswana
Venkata Parasuram Kommula, University of Botswana, Botswana

Chapter 15
Sustainability: The New 21st Century General Education Requirement for Engineers ............ 263
Ken D. Thomas, Auburn University, USA
Helen E. Muga, University of Mount Union, USA

Chapter 16
Humanities in Engineering Education ................................................................................. 285
Maria Teresa Russo, Campus Bio-Medico University, Italy

Chapter 17
Community Engagement in Engineering Education: Needs and Learning Outcomes .......... 301
Delwar Akbar, CQUniversity, Australia

Compilation of References .................................................................................................. 318

About the Contributors ........................................................................................................ 341

Index...................................................................................................................................... 349
