Table of Contents

Preface..................................................................................................................................................xii

Section 1
Education and Research in Cloud Computing Environment

Chapter 1
Overview of Cloud Computing and its Application in E-Learning...................................................... 1
Lee Chao, University of Houston-Victoria, USA

Chapter 2
A Semantic Framework for Cloud Learning Environments ..................................................................... 17
Alexander Mikroyannidis, Knowledge Media Institute, The Open University, UK

Chapter 3
Utilizing Open Source Cloud Computing Environments to Provide Cost Effective Support for University Education and Research .................................................................................. 32
Patrick Dreher, North Carolina State University, USA & Massachusetts Institute of Technology, USA
Mladen A. Vouk, North Carolina State University, USA

Chapter 4
Conducting Research in the Cloud ........................................................................................................ 50
Bay Arinze, Drexel University, USA
Cheickna Sylla, New Jersey Institute of Technology, USA

Chapter 5
Cloud Computing for Education and Research in Developing Countries .............................................. 64
Hong-Linh Truong, Vienna University of Technology, Austria
Tran-Vu Pham, Ho Chi Minh City University of Technology, Vietnam
Nam Thoai, Ho Chi Minh City University of Technology, Vietnam
Schahram Dustdar, Vienna University of Technology, Austria
Section 2
Teaching and Learning with Cloud

Chapter 6
Teaching Clouds: Lessons Taught and Lessons Learnt......................................................... 82
  Lee Gillam, University of Surrey, UK
  Bin Li, University of Surrey, UK
  John O’Loughlin, University of Surrey, UK

Chapter 7
Implement Virtual Programming Lab with Cloud Computing for
Web-Based Distance Education.......................................................................................... 95
  Harris Wang, Athabasca University, Canada
  Dusty Philips, Freelance Software Developer, Canada

Chapter 8
Cloud Computing for On-Demand Virtual Desktops and Labs........................................... 111
  Christoph Reich, Furtwangen University, Germany
  Sandra Hübner, Furtwangen University, Germany
  Hendrik Kuijs, Furtwangen University, Germany

Chapter 9
Developing a Private Cloud Based IP Telephony Laboratory and Curriculum.................. 126
  Dongqing Yuan, University of Wisconsin-Stout, USA
  Cody Lewandowski, University of Wisconsin – Stout, USA
  Jiling Zhong, Troy University, USA

Section 3
Policies and Legal Issues in Education Cloud

Chapter 10
Harnessing the Potential of Cloud Computing to Transform Higher Education................ 147
  P. Y. Thomas, University of Botswana, Botswana

Chapter 11
Mobile Cloud Services as Catalysts for Pedagogical Change............................................ 159
  Thomas Cochrane, Te Puna Ako (Centre for Teaching and Learning Innovation),
  Unitec, New Zealand

Chapter 12
Cloud Computing: Next Generation Education..................................................................... 180
  Paul Jeffery Marshall, University of Houston-Victoria, USA
Chapter 13
Legal and Contractual Issues of Cloud Computing for Educational Institutions ......................... 186
   Niall Sclater, The Open University, UK

Chapter 14
Security Issues in Cloud Computing................................................................................................... 200
   Kevin Curran, University of Ulster, Northern Ireland
   Sean Carlin, University of Ulster, Northern Ireland
   Mervyn Adams, University of Ulster, Northern Ireland

Section 4
Cloud Computing and its Technical Foundation

Chapter 15
Cloud Computing Solution for Internet Based Teaching and Learning.............................................. 210
   Lee Chao, University of Houston – Victoria, USA

Chapter 16
Data Partitioning for Highly Scalable Cloud Applications....................................................................... 236
   Robert Neumann, Otto-von-Guericke-Universität Magdeburg, Germany
   Matthias Baumann, Otto-von-Guericke-Universität Magdeburg, Germany
   Reiner Dumke, Otto-von-Guericke-Universität Magdeburg, Germany
   Andreas Schmietendorf, Berlin School of Economics and Law, Germany

Chapter 17
Intelligent Clouds: By Means of Using Multi-Agent Systems Environments........................................ 254
   Mauricio Paletta, Universidad Nacional Experimental de Guayana, Venezuela

Chapter 18
Large-Scale Systems and Society ........................................................................................................ 280
   Lambert Spaanenburg, Lund University, Sweden

Compilation of References ................................................................................................................. 306

About the Contributors ....................................................................................................................... 327

Index.................................................................................................................................................. 334
