</tbody>
</table>
Chapter 5
Neonatal Infrared Thermography Monitoring ................................................................. 84
Abbas K. Abbas, RWTH Aachen University, Germany
Konrad Heiman, University Children’s Hospital and RWTH Aachen University, Germany
Katrin Jergus, University Children’s Hospital and RWTH Aachen University, Germany
Thorsten Orlikowsky, University Children’s Hospital and RWTH Aachen University, Germany
Steffen Leonhardt, RWTH Aachen University, Germany

Chapter 6
On-body UWB Communications for Health Monitoring .............................................. 125
Qiong Wang, Dresden University of Technology, Germany
Jianqing Wang, Nagoya Institute of Technology, Japan

Chapter 7
Overview of the ISO/IEEE11073 Family of Standards and their Applications to Health Monitoring ............................................................................................................................... 148
J. Escayola, University of Zaragoza, Spain
J.D. Trigo, University of Zaragoza, Spain
I. Martinez, University of Zaragoza, Spain
M. Martinez-Esponceda, Public University of Navarre, Spain
A. Aragüés, University of Zaragoza, Spain
D. Sancho, University of Zaragoza, Spain
S. Led, Public University of Navarre, Spain
L. Serrano, Public University of Navarre, Spain
J. García, University of Zaragoza, Spain

Section 2
Clinical Signal Processing and Interpretation

Chapter 8
Heart Rate Characteristics Monitoring in the NICU: A New Tool for Clinical Care and Research ................................................................. 175
Karen D. Fairchild, University of Virginia Hospital, USA
J. Randall Moorman, University of Virginia Hospital, USA

Chapter 9
Autonomic Cardiovascular Regulation in the Newborn .............................................. 201
Peter Andriessen, Máxima Medical Center, The Netherlands

Chapter 10
Introduction to the CFM and the Clinical Applications ............................................. 222
Denis Azzopardi, Imperial College London, UK
Chapter 11
Automated Neonatal Brain Monitoring ................................................................. 244
    M. De Vos, University of Oldenburg, Germany & KU Leuven, Belgium
    P. J. Cherian, Erasmus MC, The Netherlands
    W. Deburchgraeve, KU Leuven, Belgium
    R. M. Swarte, Erasmus MC-Sophia, The Netherlands
    P. Govaert, Erasmus MC-Sophia, The Netherlands
    S. Van Huffel, KU Leuven, Belgium
    G. H. Visser, Erasmus MC, The Netherlands

Chapter 12
Monitoring Brain Development in Preterm Infants: The Value of Automated
Analysis of the Electroencephalogram (EEG) ....................................................... 262
    H.J. Niemarkt, Maastricht University Medical Centre, The Netherlands
    P. Andriessen, Máxima Medical Centre, The Netherlands

Chapter 13
Pain Assessment in Neonates ............................................................................... 278
    Hanne Storm, University of Oslo, Norway

Chapter 14
Neonatal Monitoring Based on Facial Expression Analysis ..................................... 303
    Jungong Han, Centrum Wiskunde & Informatica (CWI), The Netherlands
    Lykele Hazelhoff, Eindhoven University of Technology and CycloMedia Technology B.V., The Netherlands
    Peter H.N. de With, Eindhoven University of Technology, The Netherlands

Chapter 15
Clinical Decision Support Systems for ‘Making It Easy to Do It Right’ ..................... 324
    Anne-Marie Scheepers-Hoeks, Catharina Hospital, The Netherlands
    Floor Klijn, Catharina Hospital, The Netherlands
    Carolien van der Linden, Catharina Hospital, The Netherlands
    Rene Grouls, Catharina Hospital, The Netherlands
    Eric Ackerman, Catharina Hospital, The Netherlands
    Niels Minderman, Catharina Hospital, The Netherlands
    Jan Bergmans, Eindhoven University of Technology, The Netherlands
    Erik Korsten, Catharina Hospital and Eindhoven University of Technology, The Netherlands

Section 3
Design Challenges and Applications

Chapter 16
Experiencing the Unexpected: Human-Centred Design in Neonatal Intensive Care ........ 337
    Patrizia Marti, University of Siena, Italy

Chapter 17
Smart Jacket Design for Improving Comfort of Neonatal Monitoring.............................. 361
   Wei Chen, Eindhoven University of Technology, The Netherlands
   Sibrecht Bouwstra, Eindhoven University of Technology, The Netherlands

Chapter 18
Designing Remote Connectedness between Parents and their Premature Newly Born:
A Design Proposal............................................................................................................... 386
   Misha Croes, Eindhoven University of Technology, The Netherlands
   Sidarto Bambang Oetomo, Maxima Medical Centre Veldhoven, The Netherlands
   Loe Feijs, Eindhoven University of Technology, The Netherlands

Chapter 19
Silent Alarms for the Neonatal Intensive Care Unit (NICU)................................................. 414
   Ivo Stuyfzand, MSc Industrial Design, The Netherlands

Chapter 20
Conclusion and Outlook ...................................................................................................... 432
   Loe Feijs, Eindhoven University of Technology, The Netherlands
   Wei Chen, Eindhoven University of Technology, The Netherlands
   Sidarto Bambang Oetomo, Máxima Medical Center and Eindhoven University of Technology,
   The Netherlands

Compilation of References ............................................................................................. 441

About the Contributors ..................................................................................................... 496
