# Table of Contents

Preface...........................................................................................................................................xviii

**Section 1**  
**Intellectual Structure**

**Chapter 1**  
The Intellectual Structure of Health and Medical Informatics  ......................................................... 1  
*Wullianallur Raghupathi, Fordham University, USA*  
*Sridhar Nerur, University of Texas at Arlington, USA*

**Section 2**  
**EHR/PHR**

**Chapter 2**  
Electronic Health Records: Improving Patient Safety and Quality of Care in Texas Acute Care Hospitals .................................................................................................................. 18  
*Stacy Bourgeois, University of North Carolina, Wilmington, USA*  
*Ulku Yaylacicegi, University of North Carolina, Wilmington, USA*

**Chapter 3**  
The Introduction of an Electronic Patient Care Information System and Health Care Providers’ Job Stress: A Mixed-Methods Case Study........................................................................ 33  
*Jean E. Wallace, University of Calgary, Canada*  
*Steven P. Friesen, University of Calgary, Canada*  
*Deborah E. White, University of Calgary, Canada*  
*Janet G. Gilmour, University of Calgary, Canada*  
*Jane B. Lemaire, University of Calgary, Canada*
Section 3
IT-IS Evaluation/Decision Making/CDSS

Chapter 4
Factors Affecting the Sustainability of Computer Information Systems: Embedding New Information Technology into a Hospital Environment ................................................................. 48
Donald C McDermid, Edith Cowan University, Australia
Linda J Kristjanson, Curtin University of Technology, Australia
Nigel Spry, Sir Charles Gairdner Hospital, Australia

Chapter 5
Measuring the Effects of Information Systems on the Performance of Operating Rooms (OR) .... 63
Elad Harison, Shamoon College of Engineering, Israel
Egon Berghout, University of Groningen, The Netherlands

Chapter 6
A Framework for Data and Mined Knowledge Interoperability in Clinical Decision Support Systems ........................................................................................................................................... 84
Reza S. Kazemzadeh, McMaster University, Canada
Kamran Sartipi, McMaster University, Canada
Priya Jayaratna, McMaster University, Canada

Section 4
ES, AI, NNs

Chapter 7
On Sharp Boundary Problem in Rule Based Expert Systems in the Medical Domain ............... 112
Oladipupo O. Olufunke, Covenant University, Nigeria
Uwadia O. Charles, University of Lagos, Nigeria
Ayo K. Charles, Covenant University, Nigeria

Chapter 8
Neural Network-Based Evaluation of the Effect of the Motivation of Hospital Employees on Patients’ Satisfaction.......................................................................................................................... 125
Payam Hanafizadeh, Allameh Tabataba’i University, Iran
Neda Rastkhiz Paydar, Allameh Tabataba’i University, Iran
Neda Aliabadi, Allameh Tabataba’i University, Iran

Chapter 9
Changes in Brain White Matter Assessed Via Textural Features Using a Neural Network ............ 144
R. Kalpana, Anna University Chennai, India
S. Muttan, Anna University Chennai, India
B. Agrawala, Bharat Scans, India
Chapter 10  
Application of Adaptive Resonance Theory Neural Network for MR Brain Tumor Image  
Classification ................................................................. 154  
  D. Jude Hemanth, Karunya University, India  
  D. Selvathi, Mepco Schlenk Engineering College, India  
  J. Anitha, Karunya University, India  

Chapter 11  
Assessment of Liver Function Using Hybrid Neuro-Fuzzy Model of Blood Albumin ................. 168  
  Mashhour Bani Amer, Jordan University of Science and Technology, Jordan  

Chapter 12  
SEMG for Human Computer Interface Using ANN to Navigate Wheel Chair ...................... 180  
  V. Rajesh, Sir C.R.R.C.O.E, Eluru, A.P, India  
  P. Rajesh Kumar, Andhra University, India  

Section 5  
Biomedical Instrumentation-Healthcare Engineering  

Chapter 13  
Random Forest Classifier Based ECG Arrhythmia Classification ........................................ 189  
  V. Mahesh, PSG College of Technology, India  
  A. Kandaswamy, PSG College of Technology, India  
  C. Vimal, PSG College of Technology, India  
  B. Sathish, PSG College of Technology, India  

Chapter 14  
ECG Signal De-Noising with Asynchronous Averaging and Filtering Algorithm ................... 199  
  Alka Gautam, Dongseo University, Korea  
  Hoon-Jae Lee, Dongseo University, Korea  
  Wan-Young Chung, Pukyong National University, Korea  

Chapter 15  
Characterization of HRV by Poincare Plot Analysis among the Female Tea Garden Workers of  
Northern Hilly Regions of West Bengal .................................................................................... 206  
  Somsirsa Chatterjee, Siliguri Institute of Technology, India  
  Ankur Ganguly, Siliguri Institute of Technology, India  
  Saugat Bhattacharya, Siliguri Institute of Technology, India  

Chapter 16  
Classification of Thyroid Carcinoma in FNAB Cytological Microscopic Images .................. 216  
  B. Gopinath, Anna University Coimbatore, India  
  B. R. Gupta, Anna University Coimbatore, India
Chapter 17
The SURE-LET Approach for MR Brain Image Denoising Using Different Shrinkage Rules .......... 227
  D. Selvathi, Mepco Schlenk Engineering College, India
  S. Thamarai Selvi, Anna University, India
  C. Loorthu Sahaya Malar, Mepco Schlenk Engineering College, India

Chapter 18
Assessment of Anti-Angiogenic Drug in Cancer Therapy .......................................................... 236
  Indrajit Pan, RCC Institute of Information Technology, India

Section 6
Other Emerging Areas

Chapter 19
Load Balancing Algorithms in Distributed Service Architectures for Medical Applications .......... 248
  Rajasvaran Logeswaran, Multimedia University, Malaysia
  Li-Choo Chen, Multimedia University, Malaysia

Chapter 20
Adaptive Multi-Services System for Maternal and Child Health Care on Mobile Application (AM-Care) ........................................................................................................................................... 263
  Walisa Romsaiyud, Siam University, Thailand
  Wichian Premchaiswadi, Siam University, Thailand

Chapter 21
Measuring Patients’ Perceptions and Social Influence on Home Telecare Management System Acceptance ........................................................................................................................................... 281
  Charles Chen, National Kaohsiung First University of Science and Technology, Taiwan
  Shih-Wei Chou, National Kaohsiung First University of Science and Technology, Taiwan

Chapter 22
Virtualized Disaster Recovery Model for Large Scale Hospital and Healthcare Systems ............ 307
  Olivia F. Lee, St. Cloud State University, USA
  Dennis C. Guster, St. Cloud State University, USA

Compilation of References ............................................................................................................... 320

About the Contributors .................................................................................................................. 346

Index ............................................................................................................................................. 352
