Volume I

Section 1
Fundamental Concepts and Theories

This section serves as a foundation for this exhaustive reference tool by addressing underlying principles essential to the understanding of Digital Democracy. Chapters found within these pages provide an excellent framework in which to position Digital Democracy within the field of information science and technology. Insight regarding the critical incorporation of global measures into Digital Democracy is addressed, while crucial stumbling blocks of this field are explored. With 11 chapters comprising this foundational section, the reader can learn and choose from a compendium of expert research on the elemental theories underscoring the Digital Democracy discipline.

Chapter 1
The State Economical Regulation Practice Modernization in Terms of Business Digitalization .......... 1
Denis S. Ushakov, Russian Academy of Economy and Governance, Russia

Chapter 2
Review of Open Source Software (OSS): Advantages and Issues Related with its Adoption in E-Government........................................................................................................................................... 26
Bhasker Mukerji, St. Francis Xavier University, Canada
Ramaraj Palanisamy, St. Francis Xavier University, Canada

Chapter 3
Kelvin Joseph Bwalya, University of Botswana, Botswana & University of Johannesburg, South Africa
Tanya Du Plessis, University of Johannesburg, South Africa
Chris Rensleigh, University of Johannesburg, South Africa

Chapter 4
Communication and Documentation on Parliamentary Websites: The Topics of Parliamentary Business on the Website of the Italian Chamber of Deputies................................................................. 60
Enrico Seta, Chamber of Deputies, Italy
Chapter 5
Standards for Achieving Interoperability of eGovernment in Europe

Marc Wilhelm Küster, Worms University of Applied Sciences, Germany

Chapter 6
Municipal Government and the Interactive Web: Trends and Issues for Civic Engagement

Benedict S. Jimenez, Rutgers University, USA
Karen Mossberger, University of Illinois at Chicago, USA
Yonghong Wu, University of Illinois at Chicago, USA

Chapter 7
Adoption of E-Government Services in Developing Countries: An Empirical Evaluation

Suha AlAwadhi, Kuwait University, Kuwait
Anne Morris, Loughborough University, UK

Chapter 8
Competence Development of E-Government: A Study Circle Approach

Kerstin Grundén, University West, Sweden

Chapter 9
Survey of Citizens’ Perceptions in the Adoption of National Governmental Portals

Teta Stamati, National and Kapodistrian University of Athens, Greece
Athanasios Karantjias, University of Pireaus, Greece
Drakoulis Martakos National and Kapodistrian University of Athens, Greece

Chapter 10
Success and Failure of Local E-Government Projects: Lessons Learned from Egypt

Hisham M. Abdelsalam, Cairo University, Egypt
Christopher G. Reddick, University of Texas at San Antonio, USA
Hatem A. El Kadi, Cairo University, Egypt

Chapter 11
Analyzing e-Government Research in Emerging Economies: Contextualization and Opportunities

Antonio Manuel López Hernández, University of Granada, Spain
Manuel Pedro Rodríguez Bolívar, University of Granada, Spain
Laura Alcaide Muñoz, University of Granada, Spain
Section 2
Development and Design Methodologies

This section provides in-depth coverage of conceptual architecture frameworks to provide the reader with a comprehensive understanding of the emerging developments within the field of Digital Democracy. Research fundamentals imperative to the understanding of developmental processes within Digital Democracy are offered. From broad examinations to specific discussions on methodology, the research found within this section spans the discipline while offering detailed, specific discussions. From basic designs to abstract development, these chapters serve to expand the reaches of development and design technologies within the Digital Democracy community. This section includes 12 contributions from researchers throughout the world on the topic of Digital Democracy.

Chapter 12
A Methodology to Evaluate ICT Platforms in the Implementation of e-Government
Mauricio Solar, Universidad Técnica Federico Santa María, Chile
Gonzalo Valdés, Universidad Técnica Federico Santa María, Chile
Horst von Brand, Universidad Técnica Federico Santa María, Chile
Sergio Murúa, Universidad Técnica Federico Santa María, Chile

Chapter 13
Evaluating the Quality Attributes of E-Government Websites
Ourania I. Markaki, National Technical University of Athens, Greece
Dimitris E. Charilas, National Technical University of Athens, Greece
Dimitris Askounis, National Technical University of Athens, Greece

Chapter 14
The “Quicksilver Initiatives” as a Framework for e-Government Strategy Design in Developing Economies
Kelvin Joseph Bwalya, University of Botswana, Botswana & University of Johannesburg, South Africa
Tanya Du Plessis, University of Johannesburg, South Africa
Chris Rensleigh, University of Johannesburg, South Africa

Chapter 15
Design and Standardisation of Core Directories for e-Government
Christian Welzel, Fraunhofer Institute for Open Communication Systems, Germany
Heiko Hartenstein, Fraunhofer Institute for Open Communication Systems, Germany
Jörn von Lucke, Fraunhofer Institute for Open Communication Systems, Germany & Zeppelin University Friedrichshafen, Germany

Chapter 16
A Model for Building Trust in E-Government
Stephen M. Mutula, University of Botswana, Botswana

Section 3  
Tools and Technologies  

This section presents an extensive coverage of various tools and technologies available in the field of Digital Democracy that practitioners and academicians alike can utilize to develop different techniques. These chapters enlighten readers about fundamental research on the many tools facilitating the burgeoning field of Digital Democracy. It is through these rigorously researched chapters that the reader is provided with countless examples of the up-and-coming tools and technologies emerging from the field of Digital Democracy. With 12 chapters, this section offers a broad treatment of some of the many tools and technologies within the Digital Democracy field.

Chapter 24  
Value Assessment in E-Government ................................................................. 484  
Lai Pek Hia, Nanyang Technological University, Singapore  
Lee Shu Wen, Nanyang Technological University, Singapore

Chapter 25  
Municipal E-Government Services in Emerging Economies: The Latin-American and Caribbean Experiences ................................................................. 498  
Manuel Pedro Rodríguez Bolívar, University of Granada, Spain  
Maria del Carmen Caba Pérez, University of Almeria, Spain  
Antonio Manuel López Hernández, University of Granada, Spain

Chapter 26  
Extension of E-Government: M-Government Development Capabilities ................................................................. 527  
Mahmud Akhter Shareef, McMaster University, Canada  
Norm Archer, McMaster University, Canada

Chapter 27  
Data Mining Applications in the Service of e-Government ................................................................. 544  
George Stylios, Patras University, Greece  
Dimitris Christodoulakis, Patras University, Greece  
Jeries Besharat, Patras University, Greece  
Maria-Alexandra Vouitisanou, Patras University, Greece  
Ioannis Kotrotsos, Patras University, Greece  
Athanasia Koumpouri, Patras University, Greece  
Sofia Stamou, Patras University, Greece

Chapter 28  
A Statistical Analysis of Priority Factors for Local e-Government in a Developing Country: Case Study of Yogyakarta Local Government, Indonesia ................................................................. 559  
St.Wisnu Wijaya, Sanata Dharma University, Indonesia  
Aris Dwiatmoko, Sanata Dharma University, Indonesia  
Kridanto Surendro, Institute of Technology Bandung, Indonesia  
Husni S Sastramihardja, Institute of Technology Bandung, Indonesia
Chapter 29
Egyptian Local Government Website Portals: Examining Maturity Levels and Human Development Indicators

Hisham M. Abdelsalam, Cairo University, Egypt
Christopher G. Reddick, University of Texas at San Antonio, USA
Hatem A. ElKadi, Cairo University, Egypt

Chapter 30
Public Information Services for People with Disabilities: An Accessible Multimedia Platform for the Diffusion of the Digital Signature

Ángel García-Crespo, Universidad Carlos III de Madrid, Spain
Fernando Paniagua-Martín, Universidad Carlos III de Madrid, Spain
José Luis López-Cuadrado, Universidad Carlos III de Madrid, Spain
Israel González Carrasco, Universidad Carlos III de Madrid, Spain
Ricardo Colomo-Palacios, Universidad Carlos III de Madrid, Spain
Juan Miguel Gómez-Berbís, Universidad Carlos III de Madrid, Spain

Chapter 31
E-Documents and E-Signatures in Tanzania: Their Role, Status, and the Future

Ubena John, Stockholm University, Sweden

Volume II

Chapter 32
SOA Designed Health Care System for Taiwan Government

Jun-Bin Shi, Industrial Technology Research Institute, Taiwan
Shu-Fen Yang, Industrial Technology Research Institute, Taiwan
Tsung-Jen Huang, Industrial Technology Research Institute, Taiwan

Chapter 33
Using Internet Survey to Evaluate the Effects of E-Government: The Case of Taiwan’s Tax Return Filing System

Tong-Yi Huang, National Chengchi University, Taiwan
Chung-Pin Lee, Tamkang University, Taiwan
Naiyi Hsiao, National Chengchi University, Taiwan

Chapter 34
Using a Fuzzy-Based Cluster Algorithm for Recommending Candidates in E-Elections

Luis Terán, University of Fribourg, Switzerland
Andreas Ladner, Institut de Hautes Études en Administration Publique, Switzerland
Jan Fivaz, University of Bern, Switzerland
Stefani Gerber, University of Bern, Switzerland
Chapter 35
Educational and Democratic Potential of Digital Games in e-Government

Erkki Patokorpi, IAMSR, Åbo Akademi University, Finland
Sami Leppimäki, IAMSR, Åbo Akademi University, Finland
Franck Tétard, IAMSR, Åbo Akademi University, Finland

Section 4
Utilization and Application

This section discusses a variety of applications and opportunities available that can be considered by practitioners in developing viable and effective Digital Democracy programs and processes. This section includes 13 chapters that review topics from case studies in Africa to best practices in Asia and ongoing research in the United States. Further chapters discuss Digital Democracy in a variety of settings (government, research, electronic voting, etc.). Contributions included in this section provide excellent coverage of today’s IT community and how research into Digital Democracy is impacting the social fabric of our present-day global village.

Chapter 36
Turkish Case of E-Government Policy-Formulation Process as an Emerging and Innovative Public Policymaking Area

Asım Balcı, Selçuk University, Turkey
Tunç Durmuş Medeni, Türksat, METU, Turkey
Ahmet Nohutçu, Kocaeli University, Turkey

Chapter 37
Thailand Citizen Centric e-Government Service: Maturity and Challenges

Jirapon Tubtimhin, Ministry of Science and Technology/International Academy of CIO, Thailand

Chapter 38
Online Presence of the Members of the Turkish Parliament: Evaluation of the Turkish MP Web Sites

Mete Yıldız, Hacettepe University, Turkey
Ahu Sumbas, Hacettepe University, Turkey
Kadir Dede, Hacettepe University, Turkey

Chapter 39
Global Comparative Study on the Relationship between User’s Traits and Public e-Service Quality

Chih-Hao Chang, Waseda University, Japan
Toshio Obi, Waseda University, Japan

Chapter 40
A Review of e-Government Initiatives in Tanzania: Challenges and Opportunities

George S. Oreku, Tanzania & North-West University, South Africa
Fredrick Japhet Mtenzi, Dublin Institute of Technology, Ireland
Chapter 41
A Descriptive Analysis of Contents of Asian E-Government Websites

Abebe Rorissa, University at Albany, State University of New York, USA
Dawit Demissie, University at Albany, State University of New York, USA
Mohammed Gharawi, University at Albany, State University of New York, USA

Chapter 42
National Interoperability Approach for Social Services Information Management in Finland

Juha Mykkänen, University of Kuopio, Finland
Konstantin Hyppönen, University of Kuopio, Finland
Pekka Kortelainen, The East Finland Social and Welfare Centre of Expertise, Finland
Antero Lehmuskoski, The East Finland Social and Welfare Centre of Expertise, Finland
Virpi Hotti, University of Kuopio, Finland
Esa Paakkanen, University of Kuopio, Finland
Anneli Ensio, University of Kuopio, Finland

Chapter 43
E-Engaging India: E-Democracy Strategies for Empowerment and Civic Participation

Kavita Karan, Southern Illinois University, USA

Chapter 44
Benchmarking Botswana’s e-Government Initiatives with WSIS Principles: A Review of Progress and Challenges

Saul F. C. Zulu, University of Botswana, Botswana
Peter M. Sebina, University of Botswana, Botswana
Balulwami Grand, University of Botswana, Botswana
Stephen M. Mutula, University of KwaZulu-Natal, South Africa

Chapter 45
Service Oriented Architectural Principles for Interoperable and Secure E-government Frameworks

Teta Stamati, National and Kapodistrian University of Athens, Greece
Athanasiou Karantjias, University of Piraeus, Greece
Drakoulis Martakos, National and Kapodistrian University of Athens, Greece

Chapter 46
Setting the Dutch E-Government Interoperability Agenda: A Public-Private Partnership

Rex Arendsen, Ministry of Finance, The Netherlands
Sander Zwienink, Ministry of Interior and Kingdom Relations, The Netherlands
Paul Oude Luttighuis, Novay, The Netherlands

Chapter 47
The Contribution of Colombian Civil Society Organizations to E-Government for the Improvement of Transparency through the Use of Information and Communication Technologies

Julían Casasbuenas G., Director Colnodo, Colombia
Section 5
Organizational and Social Implications

This section includes a wide range of research pertaining to the social and behavioral impact of Digital Democracy around the world. Chapters introducing this section critically analyze and discuss trends in Digital Democracy, such as participation, attitudes, and organizational change. Additional chapters included in this section look at ICT policies and the internal digital divide within organizations. Also investigating a concern within the field of Digital Democracy is research which discusses the effect of trust on Digital Democracy. With 12 chapters, the discussions presented in this section offer research into the integration of global Digital Democracy as well as implementation of ethical and workflow considerations for all organizations.

Chapter 48

William G. Resh, Indiana University, USA

Chapter 49
Voters’ Perception of the Adequacy and Suitability of e-Voting in the Nigeria Polity

Tella Adeyinka, University of Ilorin, Nigeria
Gbolahan Olasina, University of Ilorin, Nigeria

Chapter 50
Organizational Change Contributions to E-Government Project Transitions

Marilu Goodyear, The University of Kansas, USA

Chapter 51
Internet-Based Citizen Participation: Do Municipal Website Contents Reflect Officials’ Beliefs and Funding?

Stephen K. Aikins, University of South Florida, USA

Chapter 52
Implications of e-Government in Botswana in the Realm of e-Participation: Case of Francistown

Vako Mbako, University of Botswana, Botswana
Kelvin Joseph Bwalya, University of Johannesburg, Center of Knowledge & Information Management, South Africa
Tanya Du Plessis, University of Johannesburg, Center of Knowledge & Information Management, South Africa
Chris Rensleigh, University of Johannesburg, Center of Knowledge & Information Management, South Africa

Chapter 53
Comparing Citizens’ use of E-Government to Alternative Service Channels

Christopher G. Reddick, The University of Texas at San Antonio, USA
Chapter 54
Comparative Study of E-Government Implementation in Two Public Agencies in Oman ............ 1105
Moaman Al-Busaidy, Brunel University, UK
Vishanth Weerakkody, Brunel University, UK

Chapter 55
Employees’ Perceptions of Biometric Technology Adoption in E-Government: An Exploratory Study in the Kingdom of Saudi Arabia .................................................................................................................. 1120
Thamer Alhussain, Griffith University, Australia
Steve Drew, Griffith University, Australia

Chapter 56
Internal Digital Divide in Organizations.................................................................................. 1134
Kerstin Grundén, University West, Sweden

Chapter 57
Librarians, Records Managers, and E-Government................................................................. 1148
Cathrine T. Nengomasha, University of Namibia, Namibia

Chapter 58
Trust and Public Services in E-Government Based on Customer Orientation .................... 1165
Li-chun Chiang, National Cheng Kung University & Taiwan E-Governance Research Center, Taiwan

Chapter 59
Web 2.0 Applications and Citizen Relations through E-Government Websites .................... 1179
Heasun Chun, The State University of New York at Buffalo, USA
Daejoong Kim, The State University of New York at Buffalo, USA

Section 6
Managerial Impact

This section presents contemporary coverage of the social implications of Digital Democracy, more specifically related to the corporate and managerial utilization of information sharing technologies and applications, and how these technologies can be extrapolated to be used in Digital Democracy. Core ideas such as institutionalisation, project management, and other determinants that affect the intention to adopt technological innovations in Digital Democracy are discussed. Equally as crucial, chapters within this section discuss how leaders can utilize Digital Democracy applications to get the best outcomes from their contractors and their citizens.

Chapter 60
Transformation of Management in the Public Sector: Exploring the Strategic Frameworks of e-Government ................................................................. 1198
Spyros Angelopoulos, The University of Warwick, UK
Fotis Kitsios, University of Macedonia, Greece
Vasilis Moustakis, Technical University of Crete, Greece
Chapter 61
Institutionalisation, Framing, and Diffusion: The Logic of Openness in eGovernment and Implementation Decisions - A Lesson for Developing Countries .................................................. 1212
Bongani Ngwenya, Solusi University, Zimbabwe & North-West University-Mafeking, South Africa
Sam Lubbe, North-West University-Mafeking, South Africa
Rembrandt Klopper, University of KwaZulu-Natal, Durban, South Africa

Chapter 62
CRM 2.0 and E-Government Challenges for Public Administration and Social Effects .............. 1233
Daniel Pérez González, University of Cantabria, Spain
Pedro Solana González, University of Cantabria, Spain

Chapter 63
An Organizing Vision for E-Participation Projects in Africa .................................................. 1261
Nixon Muganda Ochara, University of Pretoria, South Africa

Volume III

Chapter 64
Managing in the Era of Digital Governance: The Expanding Role and Efficacy of E-Government Innovations in US Social Services.................................................................................. 1292
Craig L. Johnson, Indiana University, USA
Sharon N. Kioko, Syracuse University, USA
Maureen A. Pirog, Indiana University, USA

Chapter 65
Improving E-Government Project Management: Best Practices and Critical Success Factors .................................................................................................................. 1314
Stephen Kwamena Aikins, University of South Florida, USA

Chapter 66
Customer Relationship Management Adoption in Local Governments in the United States .......................................................................................................................... 1333
Christopher G. Reddick, The University of Texas at San Antonio, USA

Chapter 67
Managing Interactional Performance in E-Government .......................................................... 1347
Françoise Simon, Research Center on Mediations, University of Haute-Alsace, France

Chapter 68
Reconfiguring Performance Information Linking with Accountability: Reporting and Internal Management ........................................................................................................ 1367
Étienne Charbonneau, École Nationale D’administration Publique, Canada
Younhee Kim, East Carolina University, USA
Chapter 69
The Demand Side for Development of E-Government Services and Gateway in Turkey: Taking Citizen Perceptions and Suggestions into Account............................................................ 1386
D. Tunç Medeni, Middle East Technical University, Turkey
Yasemin Çetin, Middle East Technical University, Turkey
Asım Balcı, Selçuk University, Turkey
Sevgi Özkan, Middle East Technical University, Turkey

Chapter 70
Impact of E-Governance on Businesses: Model Development and Case Study ......................... 1407
Naiyi Hsiao, National Chengchi University & Taiwan E-Governance Research Center, Taiwan
Pin-yu Chu, National Chengchi University & Taiwan E-Governance Research Center, Taiwan
Chung-pin Lee, Tamkang University & Taiwan E-Governance Research Center, Taiwan

Chapter 71
ICT Policies on Structural and Socio-Cultural Participation in Brussels .................................. 1426
Stefan Mertens, Catholic University of Brussels, Belgium
Jan Servaes, University of Massachusetts Amherst, USA

Section 7
Critical Issues
This section contains 12 chapters, giving a wide variety of perspectives on Digital Democracy and its implications. Such perspectives include reading in privacy, gender, ethics, and several more. The section also discusses new ethical considerations within civil servant resistance. Within the chapters, the reader is presented with an in-depth analysis of the most current and relevant issues within this growing field of study. Crucial questions are addressed and alternatives offered, such as what makes up “digital disempowerment and social equity.”

Chapter 72
Social Media and Web 2.0 for Rethinking E-Government Maturity Models .............................. 1445
B. Joon Kim, Indiana University-Purdue University Fort Wayne, USA
Savannah Robinson, Indiana University-Purdue University Fort Wayne, USA

Chapter 73
Overlooking Organizational Culture: Problems in Analyzing the Success and Failures of E-Government in Developing Countries ................................................................. 1461
David W. Wachira, University of North Texas, USA

Chapter 74
Elucidating Online Structure for Democratic Legitimacy: Case of Local Government Online Structure in Java-Indonesia............................................................. 1476
Djoko Sigit Sayogo, University at Albany, State University of New York, USA
Taewoo Nam, University at Albany, State University of New York, USA
Chapter 75
A Systems Theory Approach to Electronic Voting Complexity

Dimitrios Zissis, University of the Aegean, Syros, Greece
Dimitrios Lekkas, University of the Aegean, Syros, Greece
Argyris Arnellos, University of the Aegean, Syros, Greece

Chapter 76
Conceptualization of Trust in the e-Government Context: A Qualitative Analysis

Hisham Alsaghier, Griffith University, Australia
Rahim Hussain, University of Dubai, United Arab Emirates

Chapter 77
Exploring Civil Servant Resistance to M-Government: A Story of Transition and Opportunities in Turkey

Ronan de Kervenoael, Sabanci University, Turkey & Aston University, UK
Mark Palmer, Aston University, UK
N. Meltem Cakici, Gediz University, Turkey

Chapter 78
Is Romania Ready for Nation-Wide Public e-Services? Five Factors to Consider before Adopting an E-Government Public Policy

Virgil Stoica, Alexandru Ioan Cuza University of Iasi, Romania
Andrei Ilas, Alexandru Ioan Cuza University of Iasi, Romania

Chapter 79
Social Media and Voter Participation

Mariah Kraner, Portland State University, USA

Chapter 80
Factors Affecting the Citizens’ Trust in E-Government

Hisham M. Alsaghier, Griffith University, Australia
Marilyn Ford, Griffith University, Australia
Anne Nguyen, Griffith University, Australia
Rene Hexel, Griffith University, Australia

Chapter 81
Issues of Digital Disempowerment and New Media Networking (NMN) in Relation to E-Government

Kenneth L. Hacker, New Mexico State University, USA
Eric L. Morgan, New Mexico State University, USA
Chapter 82
Small Communities and the Limits of E-Government Engagement:
A Northeast Ohio Case Study ................................................................. 1655
   John Hoornbeek, Kent State University, USA
   Kent Sowards, Kent State University, USA
   Brian Kelley, Kent State University, USA

Chapter 83
Social Equity, the Digital Divide and E-Governance: An Analysis of E-Governance Initiatives in India ............................................................... 1675
   Meena Chary, University of South Florida, USA

Section 8
Emerging Trends

This section highlights research potential within the field of Digital Democracy while exploring uncharted areas of study for the advancement of the discipline. Introducing this section are chapters that set the stage for future research directions and topical suggestions for continued debate, centering on the new venues and forums for discussion. A pair of chapters on local government and participation makes up the middle of the section of the final 12 chapters, and the book concludes with a look ahead into the future of the Digital Democracy field, with “Service Science Innovations.” In all, this text will serve as a vital resource to practitioners and academics interested in the best practices and applications of the burgeoning field of Digital Democracy.

Chapter 84
Advancing Local E-Government: Acknowledging and Developing the CFO Role ......................... 1690
   Greg Streib, Georgia State University, USA

Chapter 85
The Global Digital Divide and Its Impact on E-Governance .......................................................... 1710
   Michael Howell-Moroney, University of Alabama at Birmingham, USA

Chapter 86
Government Process Reengineering: What We Know and What We Need to Know .................. 1730
   Asmare Emerie Kassahun, RMIT University, Australia
   Alemayehu Molla, RMIT University, Australia
   Pradipta Sarkar, RMIT University, Australia

Chapter 87
Transparency Issues in E-Governance and Civic Engagement ...................................................... 1753
   Sherri Greenberg, The University of Texas at Austin, USA
   Angela Newell, The University of Texas at Austin, USA
Chapter 88
Local Government Use of Web 2.0: Los Angeles County Perspective ............................................. 1774
   Raoul J. Freeman, California State University, USA
   Peter Loo, Los Angeles County, USA

Chapter 89
Trends in Government e-Authentication: Policy and Practice ......................................................... 1792
   Mike Just, Glasgow Caledonian University, UK
   Karen Renaud, University of Glasgow, UK

Chapter 90
New Technology Communication in American State Governments: The Impact on Citizen
Participation ................................................................................................................................. 1806
   Hyun Jung Yun, Texas State University, USA
   Cynthia Opheim, Texas State University, USA

Chapter 91
Using Web 2.0 to Reconceptualize E-Government: The Case for GovLoop .................................. 1824
   Leila Sadeghi, Kean University, USA
   Steve Ressler, GovLoop, USA
   Andrew Krzmarzick, GovLoop, USA

Chapter 92
Open Innovation in the E-Government Strategy Planning: A Case Study ...................................... 1838
   A.T. Juntunen, University of Helsinki, Finland

Chapter 93
Web 2.0 and Government Transformation: How E-Government and Social Media Contribute to
Innovation in Public Services ......................................................................................................... 1861
   Jon E. Glasco, Glasco Clark Associates, Spain

Chapter 94
The Challenges of Implementing e-Government Interoperability in Thailand: Case of Official
Electronic Correspondence Letters Exchange across Government Departments ............................ 1883
   Apitep Saekow, Thammasat University Rangsit, Thailand
   Choompol Boonmee, Thammasat University Rangsit, Thailand

Chapter 95
Service Science Innovations: E-Government .................................................................................. 1906
   Tatiana Leonova, State University of Management, Russia
   Galina Plotnikova, State University of Management, Russia
