# Table of Contents

Preface...................................................................................................................................................xvi

Section 1

Key Concepts

Chapter 1
The Centralisation Dilemma in Educational IT .................................................................................. 1
*Martin Weller, The Open University, UK*

Chapter 2
eLearning in the Cloud .................................................................................................................... 10
*Niall Sclater, The Open University, UK*

Chapter 3
Toward a Personal Learning Environment Framework ....................................................................... 20
*Mohamed Amine Chatti, RWTH Aachen University, Germany*
*Mohammad Ridwan Agustiawan, RWTH Aachen University, Germany*
*Matthias Jarke, RWTH Aachen University, Germany*
*Marcus Specht, Open University, The Netherlands*

Section 2

Design

Chapter 4
Designing Effective Spaces, Tasks and Metrics for Communication in Second Life Within the Context of Programming LEGO NXT Mindstorms™ Robots ................................................................. 42
*Michael Vallance, Future University Hakodate, Japan*
*Stewart Martin, Teesside University, UK*
*Charles Wiz, Yokohama National University, Japan*
*Paul van Schaik, Teesside University, UK*
Chapter 5
Homo Virtualis: Virtual Worlds, Learning, and an Ecology of Embodied Interaction .......................... 58
Leslie Jarmon, The University of Texas at Austin, USA

Chapter 6
Second Life as a Surrogate for Experiential Learning ................................................................. 77
Michael N. DeMers, New Mexico State University, USA

Chapter 7
An Interdisciplinary Design Project in Second Life: Creating a Virtual Marine Science Learning Environment ................................................................................................. 93
Riley Triggs, University of Texas at Austin, USA
Leslie Jarmon, University of Texas at Austin, USA
Tracy A. Villareal, University of Texas Marine Science Institute, USA

Chapter 8
Virtual Speed Mentoring in the Workplace - Current Approaches to Personal Informal Learning in the Workplace: A Case Study ................................................................. 112
Chuck Hamilton, IBM Center for Advanced Learning IBM, Canada
Kristen Langlois, IBM Canada Ltd., Canada
Henry Watson, IBM Canada Ltd., Canada

Section 3
Implementation

Chapter 9
Communication and Education in a Virtual World: Avatar-Mediated Teaching and Learning in Second Life ........................................................................................................ 121
Lorri Mon, Florida State University, USA

Chapter 10
Mechanics Simulations in Second Life ......................................................................................... 137
Kelly Black, Clarkson University, USA

Chapter 11
Development of an Interactive Virtual 3-D Model of the Human Testis Using the Second Life Platform ........................................................................................................ 153
Douglas R. Danforth, Ohio State University, USA

Chapter 12
Affective Load and Engagement in Second Life: Experiencing Urgent, Persistent, and Long-Term Information Needs ................................................................. 168
Diane Nahl, University of Hawaii, USA
Chapter 13
Investigating Modes of Student Inquiry in Second Life as Part of a Blended Approach ................. 184
    Sheila Webber, University of Sheffield, UK

Chapter 14
Low-Cost Virtual Laboratory Workbench for Electronic Engineering ............................................. 201
    Ifeyinwa E. Achumba, University of Portsmouth, UK
    Djamel Azzi, University of Portsmouth, UK
    James Stocker, University of Portsmouth, UK

Section 4
Evaluation

Chapter 15
The Development of a Personal Learning Environment in Second Life ............................................. 219
    Sandra Sutton Andrews, Arizona State University, USA
    Mary Stokrocki, Arizona State University, USA
    Angel Jannasch-Pennell, Arizona State University, USA
    Samuel A. DiGangi, Arizona State University, USA

Chapter 16
A Framework for the Assessment of Wiki-Based Collaborative Learning Activities ......................... 237
    Hagit Meishar-Tal, Open University of Israel, Israel
    Mat Schencks, Open University, UK

Chapter 17
Evaluating Games-Based Learning ........................................................................................................ 250
    Thomas Hainey, University of the West of Scotland, Scotland
    Thomas Connolly, University of the West of Scotland, Scotland

Chapter 18
Challenges Facing the Semantic Web and Social Software as Communication Technology Agents in E-Learning Environments ......................................................................................... 265
    Bolanle A. Olaniran, Texas Tech University, USA

Compilation of References ..................................................................................................................... 279

About the Contributors .......................................................................................................................... 307
