# Table of Contents

Preface .................................................................................................................................................. xv

## Section 1

**Chapter 1**
Aligning Course Content, Assessment, and Delivery: Creating a Context for Outcome-Based Education ........................................................................................................................................ 1
   *Ruth A. Streveler, Purdue University, USA*
   *Karl A. Smith, Purdue University, USA*
   *Mary Pilotte, Purdue University, USA*

**Chapter 2**
A Case Study of Curriculum Development in Engineering: Insights Gained over Two Decades .......... 27
   *Duncan Fraser, University of Cape Town, South Africa*

**Chapter 3**
Changing the Curriculum to Problem-Based and Project-Based Learning ........................................ 50
   *Anette Kolmos, Aalborg University, Denmark*

**Chapter 4**
A Guide to the Art of Crafting Engineering Problems for Problem-Based Learning (PBL) .................. 62
   *Mohammad Zamry Jamaludin, Universiti Teknologi Malaysia, Malaysia*
   *Khairiyah Mohd-Yusof, Universiti Teknologi Malaysia, Malaysia*
   *Nor Farida Harun, Universiti Teknologi Malaysia, Malaysia*
   *Syed Ahmad Helmi, Universiti Teknologi Malaysia, Malaysia*

## Section 2

**Chapter 5**
Curriculum Initiatives to Help Engineering Students Learn and Develop ........................................ 85
   *Duncan Fraser, University of Cape Town, South Africa*
Chapter 6
A Problem-Based Laboratory (PBLab) Model for an Electrical Engineering Program

Naziha Ahmad Azli, Universiti Teknologi Malaysia, Malaysia
Nur Ayuni Shamsul Bahri, Universiti Teknologi Malaysia, Malaysia
Narina Abu Samah, Universiti Teknologi Malaysia, Malaysia
Norhafizah Ramli, Universiti Teknologi Malaysia, Malaysia

Chapter 7
E-Portfolios as a Quantitative and Qualitative Means of Demonstrating Learning Outcomes and Competencies in Engineering

Juliana Kaya Prpic, University of Melbourne, Australia
Graham Moore, University of Melbourne, Australia

Chapter 8
Applying Learning Theories and Animation in OSiMM: A Multimedia Computer Science Learning Courseware

Riaza Mohd Rias, Universiti Teknologi Mara, Malaysia
Halimah Badioze Zaman, Universiti Kebangsaan Malaysia, Malaysia

Chapter 9
Realizing Desired Learning Outcomes in Undergraduate Mathematics

Roselainy Abdul Rahman, Universiti Teknologi Malaysia, Malaysia
Yudariah Mohammad Yusof, Universiti Teknologi Malaysia, Malaysia
Sabariah Baharun, Universiti Teknologi Malaysia, Malaysia

Chapter 10
Use of Computer Algebra Systems in Teaching and Learning of Ordinary Differential Equations among Engineering Technology Students

Siti Mistima Maat, Universiti Kuala Lumpur Malaysia France Institute, France
Effandi Zakaria, Universiti Kebangsaan Malaysia, Malaysia

Chapter 11
Designing a Blended Learning Model to Support Mathematical Thinking in Multivariable Calculus

Hamidreza Kashefi, Universiti Teknologi Malaysia, Malaysia
Zaleha Ismail, Universiti Teknologi Malaysia, Malaysia
Yudariah Mohammad Yusof, Universiti Teknologi Malaysia, Malaysia

Chapter 12
Literature Review Skills for Undergraduate Engineering Students in Large Classes

Elizabeth Yong, University of Adelaide, Australia
Section 3

Chapter 13
Using Multiple Methods in Assessing Oral Communication Skills in the Final Year Project Design Course of an Undergraduate Engineering Program ................................................................. 263
   Rohani Othman, Universiti Teknologi Malaysia, Malaysia
   Zabaaidah Awang, Universiti Teknologi Malaysia, Malaysia

Chapter 14
Implementing Online Assessment for Summative Purpose in an Electronic Engineering Course ................................................................................................................................................ 288
   Rahmat Sanudin, Universiti Tun Hussein Onn, Malaysia

Chapter 15
Enhancing Fuzzy Inference System-Based Criterion-Referenced Assessment with a Similarity Reasoning Technique ................................................................. 302
   Tze Ling Jee, Universiti Malaysia Sarawak, Malaysia
   Kai Meng Tay, Universiti Malaysia Sarawak, Malaysia
   Chee Khoon Ng, Universiti Malaysia Sarawak, Malaysia

Chapter 16
An Evaluation of Students’ Practical Intelligence and Ability to Diagnose Equipment Faults .......... 328
   Zol Bahri Razali, Universiti Malaysia Perlis, Malaysia
   James Trevelyan, University of Western Australia, Australia

Chapter 17
Assessing Mechanical Engineering Undergraduates’ Conceptual Knowledge in Three Dimensional Computer Aided Design (3D CAD) ................................................................. 350
   Mohd Fadzil Daud, Universiti Teknologi Malaysia, Malaysia
   Jamaluddin Mohd Taib, Universiti Teknologi Malaysia, Malaysia
   Rio Sumarni Shariffudin, Universiti Teknologi Malaysia, Malaysia

Chapter 18
Relationship between Accuracy in Ability Perception, Academic Performance, and Metacognitive Skills among Engineering Undergraduates: Implications for Higher Education Practice .......... 364
   Azlina Mohd Kosnin, Universiti Teknologi Malaysia, Malaysia
   Mohd Zaki Daud, Universiti Teknologi Malaysia, Malaysia

Compilation of References ............................................................................................................ 378

About the Contributors ........................................................................................................... 409

Index ........................................................................................................................................ 417
