# Table of Contents

Preface ................................................................................................................................................ xiv

Acknowledgment ................................................................................................................................ xxvi

## Chapter 1
A Semantic E-Collaboration Approach to Enable Awareness in Globally Distributed Organizations ...................................................................................................................... 1

*Eldar Sultanow, University of Potsdam, Germany*

*Edzard Weber, University of Potsdam, Germany*

*Sean Cox, Mathematicians Anonymous, USA*

## Chapter 2
An Exploratory Study of How Technology Supports Communication in Multilingual Groups .......... 17

*Milam Aiken, University of Mississippi, USA*

*Jianfeng Wang, Indiana University of Pennsylvania, USA*

*Linwu Gu, Indiana University of Pennsylvania, USA*

*Joseph Paolillo, University of Mississippi, USA*

## Chapter 3
The Virtual Individual Education Plan (IEP) Team: Using Online Collaboration to Develop a Behavior Intervention Plan ........................................................................................................... 30

*Robyn M. Catagnus, Arcadia University, USA*

*Donald A. Hantula, Temple University, USA*

## Chapter 4
Measuring Collective Cognition in Online Collaboration Venues ................................................................................................................................. 46

*Paul Dwyer, Willamette University, USA*

## Chapter 5
Using WarpPLS in E-Collaboration Studies: Descriptive Statistics, Settings, and Key Analysis Results ....................................................................................................................... 62

*Ned Kock, Texas A&M International University, USA*
Chapter 6
The Influence of Information Technology on Organizational Behavior: Study of Identity
Challenges in Virtual Teams ................................................................................................................................. 79
  Babak Sohrabi, University of Tehran, Iran
  Aryan Gholipour, University of Tehran, Iran
  Behnam Amiri, University of Tehran, Iran

Chapter 7
Web Enabled Design Collaboration in India............................................................. 96
  Shaheli Guha, BigMachines Inc., USA
  Biswajit Thakur, Meghnad Saha Institute of Technology, India
  Tuhin Subhra Konar, Jadavpur University, India
  Shibnath Chakrabarty, Jadavpur University, India

Chapter 8
Using WarpPLS in E-Collaboration Studies: Mediating Effects, Control and Second Order
Variables, and Algorithm Choices.......................................................................................................................... 112
  Ned Kock, Texas A&M International University, USA

Chapter 9
Shared Mental Model Development During Technology-Mediated Collaboration ................. 125
  Hayward P. Andres, North Carolina A&T State University, USA

Chapter 10
WikiDesign: A Semantic Wiki to Evaluate Collaborative Knowledge......................................................... 143
  Davy Monticolo, National Polytechnic Institute of Lorraine, France
  Samuel Gomes, University of Technology of Belfort-Montbéliard, France

Chapter 11
Industry Perspective-Collaborating from a Distance: Success Factors of Top-Performing
Virtual Teams ......................................................................................................................................................... 155
  Darleen DeRosa, OnPoint Consulting, USA

Chapter 12
The Level Paradox of E-Collaboration: Dangers and Solutions......................................................... 166
  Ana Ortiz de Guinea, HEC Montréal, Canada

Chapter 13
E-Collaboration Within, Between, and Without Institutions: Towards Better Functioning of
Online Groups Through Networks...................................................................................................................... 188
  Ina Blau, Open University of Israel, Israel
Chapter 14
Towards an Affordance-Based Theory of Collaborative Action (CoAct) ........................................... 204
   John Teofil Paul Nosek, Temple University, USA

Chapter 15
Working Effectively in a Matrix: Building and Sustaining Cooperation ........................................ 228
   Jennifer Forgie, OnPoint Consulting, USA

Compilation of References .................................................................................................................. 238
