# Table of Contents

Preface .................................................................................................................................................. xiv

Acknowledgment ................................................................................................................................ xxi

Chapter 1  
Classifying Consumer Comparison Opinions to Uncover Product Strengths and Weaknesses .......... 1  
  Kaiquan Xu, City University of Hong Kong, China  
  Wei Wang, City University of Hong Kong, China  
  Jimmy S. J. Ren, City University of Hong Kong, China  
  Jin Xu, Southwest Jiaotong University, China  
  Long Liu, USTC-CityU Joint Advanced Research Centre, China  
  Stephen S. Y. Liao, City University of Hong Kong, China

Chapter 2  
OntoClippy: A User-Friendly Ontology Design and Creation Methodology ................................. 15  
  Nikolai Dahlem, University of Oldenburg, Germany

Chapter 3  
Combining Supervised Learning Techniques to Key-Phrase Extraction for Biomedical Full-Text ............................................................................................................................................ 33  
  Yanliang Qi, New Jersey Institute of Technology, USA  
  Min Song, New Jersey Institute of Technology, USA  
  Suk-Chung Yoon, Widener University, USA  
  Lori Watrous deVersterre, New Jersey Institute of Technology, USA

Chapter 4  
Design and Usage of a Process-Centric Collaboration Methodology for Virtual Organizations in Hybrid Environments ................................................................................................................................. 45  
  Thorsten Dollmann, German Research Center for Artificial Intelligence (DFKI), Germany  
  Peter Loos, German Research Center for Artificial Intelligence (DFKI), Germany  
  Michael Fellmann, University of Osnabrueck, Germany  
  Oliver Thomas, University of Osnabrueck, Germany  
  Andreas Hoheisel, Fraunhofer Institute for Computer Architecture and Software Technology, Germany  
  Peter Katranuschkov, TU Dresden, Germany  
  Raimar J. Scherer, TU Dresden, Germany
Chapter 5
Construction of Domain Ontologies: Sourcing the World Wide Web ........................................ 65
Jongwoo Kim, University of Massachusetts Boston, USA
Veda C. Storey, Georgia State University, USA

Chapter 6
Self Adaptive Particle Swarm Optimization for Efficient Virtual Machine Provisioning in Cloud .... 88
R. Jeyarani, Coimbatore Institute of Technology, India
N. Nagaveni, Coimbatore Institute of Technology, India
R. Vasanth Ram, PSG College of Technology, India

Chapter 7
Eliciting User Preferences in Multi-Agent Meeting Scheduling Problem ................................. 108
Mohammad Amin Rigi, K. N. Toosi University of Technology, Iran
Farid Khoshalhan, K. N. Toosi University of Technology, Iran

Chapter 8
Wireless Sensor Node Placement Using Hybrid Genetic Programming and Genetic Algorithms ........................................................................................................................................ 125
Arpit Tripathi, Indian Institute of Information Technology and Management Gwalior, India
Pulkit Gupta, Indian Institute of Information Technology and Management Gwalior, India
Aditya Trivedi, Indian Institute of Information Technology and Management Gwalior, India
Rahul Kala, Indian Institute of Information Technology and Management Gwalior, India

Chapter 9
Intelligent Agent-Based e-Learning System for Adaptive Learning ........................................ 145
Hokyin Lai, City University of Hong Kong, Hong Kong
Minhong Wang, The University of Hong Kong, Hong Kong
Huaiqing Wang, City University of Hong Kong, Hong Kong

Chapter 10
Intelligent Information Retrieval Using Fuzzy Association Rule Classifier ................................ 159
Sankaradass Veeramalai, Anna University, India
Arputharaj Kannan, Anna University, India

Chapter 11
An Intelligent Operator for Genetic Fuzzy Rule Based System ................................................. 173
C. Rani, Anna University of Technology Coimbatore, India
S. N. Deepa, Anna University of Technology Coimbatore, India

Chapter 12
Software Effort Estimation: Harmonizing Algorithms and Domain Knowledge in an Integrated Data Mining Approach ................................................................. 186
Jeremiah D. Deng, University of Otago, New Zealand
Martin K. Purvis, University of Otago, New Zealand
Maryam A. Purvis, University of Otago, New Zealand
