Acknowledgment

The editors would like to acknowledge the contributions of all people involved in the project, collation, and review process, without whose support the book could not have been satisfactorily completed.

Our gratitude goes to all the authors, whose creativity added multiple reflexing perspectives to this looking-glass book. We wish to thank all of the authors for their insights and excellent contributions to this book. We also want to thank all of the people who assisted us in the reviewing process, and for their suggestions for improving our book quality: Mauro Annunziato (Enea - Ente Nazionale Energia Elettrica, Rome, Italy), Gabriele Cappellato (Università della Svizzera Italiana, USI, Mendrisio, Switzerland), Giovanni Degli Antoni (Università degli Studi di Milano, Milan, Italy), Walter J. Freeman (University of California at Berkeley, Berkeley, USA), Mario Fulcheri (Università degli Studi di Chieti, Chieti, Italy), Mario Reda (Università degli Studi di Siena, Siena, Italy), Marco Tomassini (University of Lausanne, Lausanne, Switzerland).

Special thanks also go to all the staff at IGI Global, whose contributions throughout the whole process from inception of the initial idea to final publication have been invaluable.

Finally, we want to thank our families for their love and support throughout this project.
