# Table of Contents

**Preface** .................................................................................................................................................. xiv

**Chapter 1**
A Secure Hybrid Network Solution to Enhance the Resilience of the UK Government National Critical Infrastructure TETRA Deployment .......................................................... 1
- **Devon Bennett, University of East London, UK**
- **Hamid Jahankhani, University of East London, UK**
- **Mohammad Dastbaz, University of East London, UK**
- **Hossein Jahankhani, University of East London, UK**

**Chapter 2**
A Self-Supervised Approach to Comment Spam Detection Based on Content Analysis ............... 15
- **A. Bhattarai, University of Memphis, USA**
- **D. Dasgupta, University of Memphis, USA**

**Chapter 3**
A Mutual Authentication Protocol with Resynchronisation Capability for Mobile Satellite Communications ......................................................................................................................... 35
- **Ioana Lasc, University of Limerick, Ireland**
- **Reiner Dojen, University of Limerick, Ireland**
- **Tom Coffey, University of Limerick, Ireland**

**Chapter 4**
Information Privacy: Implementation and Perception of Laws and Corporate Policies by CEOs and Managers .............................................................................................................................................. 52
- **Garry L. White, Texas State University – San Marcos, USA**
- **Francis A. Méndez Mediavilla, Texas State University – San Marcos, USA**
- **Jaymeen R. Shah, Texas State University – San Marcos, USA**

**Chapter 5**
User Perceptions of Security Technologies ........................................................................................................ 70
- **Douglas M. Kline, University of North Carolina Wilmington, USA**
- **Ling He, Saginaw Valley State University, USA**
- **Ulku Yaylacicegi, University of North Carolina Wilmington, USA**
Chapter 6
Secure Two-Party Association Rule Mining Based on One-Pass FP-Tree .............................................. 82
Golam Kaosar, Victoria University, Australia
Xun Yi, Victoria University, Australia

Chapter 7
A Mark-Up Language for the Specification of Information Security Governance Requirements .... 103
Anirban Sengupta, Jadavpur University, India
Chandan Mazumdar, Jadavpur University, India

Chapter 8
On the Security of Self-Certified Public Keys .......................................................... 124
Cheng-Chi Lee, Fu Jen Catholic University, Taiwan
Min-Shiang Hwang, Asia University, Taiwan
I-En Liao, National Chung Hsing University, Taiwan

Chapter 9
Ahmed Patel, Universiti Kebangsaan Malaysia, Malaysia & Kingston University, UK
Kenan Kalajdzic, Center for Computing Education, Bosnia & Herzegovina
Laleh Golafshan, Department of Computer Engineering & IT, Science and Research Branch, Islamic Azad University, Fars, Iran
Mona Taghavi, Department of Computer, Science and Research Branch, Islamic Azad University, Tehran, Iran

Chapter 10
E-Voting Risk Assessment: A Threat Tree for Direct Recording Electronic Systems ................. 149
Harold Pardue, University of South Alabama, USA
Jeffrey Landry, University of South Alabama, USA
Alec Yasinsac, University of South Alabama, USA

Chapter 11
Intrusion Detection Algorithm for MANET ............................................................ 163
S. Srinivasan, Texas A&M International University, USA
S. P. Alampalayam, APS Technologies, USA

Chapter 12
An Integrated Security Governance Framework for Effective PCI DSS Implementation .......... 177
Mathew Nicho, University of Dubai, UAE
Hussein Fakhry, University of Dubai, UAE

Chapter 13
A Privacy Agreement Negotiation Model in B2C E-Commerce Transactions .............................. 195
Murthy V. Rallapalli, IBM and Stevens Institute of Technology, USA
