Table of Contents

Preface .................................................................................................................................................. xiii

Section 1  
Design and Participation

Chapter 1  
Socio-Technical Systems: A Meta-Design Perspective ................................................................. 1  
   Gerhard Fischer, University of Colorado, Boulder, USA  
   Thomas Herrmann, University of Bochum, Germany

Chapter 2  
Engineering Organisational Behaviour with Design Research ..................................................... 37  
   David Tuffley, Griffith University, Australia

Section 2  
Methods

Chapter 3  
Developing Organisational Stories through Grounded Theory Data Analysis: A Case Example for  
Studying IS Phenomena .................................................................................................................... 52  
   Elayne Coakes, University of Westminster, UK  
   Anthony Elliman, Brunel University, UK

Chapter 4  
Identifying Issues of the Chief Information Officer Role through Qualitative Interviews ............ 68  
   M. Gordon Hunter, University of Lethbridge, Canada

Chapter 5  
Review of Regional Workplace Development Cases: A Holistic Approach and Proposals for  
Evaluation and Management ........................................................................................................... 79  
   Arto Reiman, University of Oulu, Finland  
   Seppo Väyrynen, University of Oulu, Finland
Section 3
Sociotechnical Balancing

Chapter 6
Strengthening and Enriching Audit Practice: The Socio-Technical Relevance of “Decision Leaders” ................................................................. 97
Peter A. C. Smith, The Leadership Alliance, Canada

Chapter 7
Balancing McLuhan With Williams: A Sociotechnical View of Technological Determinism .......... 109
Liza Potts, Old Dominion University, USA

Chapter 8
Towards a Conceptual Knowledge Management System Based on Systems Thinking and Sociotechnical Thinking ......................................................... 115
Svetlana Sajeva, Kaunas University of Technology, Lithuania

Section 4
Sociotechnical Experiences in Latin America and Africa

Chapter 9
Telemedicine and Development: Situating Information Technologies in the Amazon......................... 132
Gianluca Miscione, University of Twente, The Netherlands

Chapter 10
Building Industrial Clusters in Latin America: Paddling Upstream .................................................. 146
Carlos Scheel, EGADE, Tecnológico de Monterrey, Mexico
Leonardo Pineda, Universidad del Rosario, Colombia

Chapter 11
Tiko Iyamu, Tshwane University of Technology, South Africa

Chapter 12
Boundary Critique and Stakeholder Collaboration in Open Source Software Migration: A Case Study ...................................................................................................................... 194
Osden Jokonya, University of KwaZulu Natal, South Africa
Stan Hardman, University of KwaZulu Natal, South Africa
Section 5
Sociotechnical Thinking in Military Environments

Chapter 13
When Knowledge Management Drives a Strategic Transformation Project: The Case of a Brazilian Air Force Organisation ..................................................................................................................................... 210

Alexandre Velloso Guimarães, Brazilian Air Force, Brazil

Chapter 14
Boundaries of Socio-Technical Systems and IT for Knowledge Development in Military Environments ..................................................................................................................................... 224

Gil-Ad Ariely, California State University, USA, & The Interdisciplinary Center, Israel

Compilation of References ............................................................................................................. 239

About the Contributors .................................................................................................................... 264

Index ................................................................................................................................................... 269
