# Table of Contents

## Preface

Mohammad Anbar, Jawaharlal Nehru University, India
Deo Prakash Vidyarthi, Jawaharlal Nehru University, India

---

## Chapter 1

Maximizing the Flow Reliability in Cellular IP Network Using PSO

Mohammad Anbar, Jawaharlal Nehru University, India
Deo Prakash Vidyarthi, Jawaharlal Nehru University, India

---

## Chapter 2

Cognitive Aeronautical Communication System

Jamal Haque, University of South Florida, USA
M. Cenk Erturk, University of South Florida, USA
Huseyin Arslan, University of South Florida, USA
Wilfrido Moreno, University of South Florida, USA

---

## Chapter 3

Best Approach for Video Codec Selection Over VoIP Conversation Using Wireless Local Area Network

Mohd Nazri Ismail, University of Kuala Lumpur, Malaysia

---

## Chapter 4

Fuzzy QoS Based OLSR Network

G. Uma Maheswari, Vellore Institute of Technology, India

---

## Chapter 5

Development of a Complex Geospatial/RF Design Model in Support of Service Volume Engineering Design

Erton S. Boci, ITT Information Systems, USA
Shahram Sarkani, The George Washington University, USA
Thomas A. Mazzuchi, The George Washington University, USA

---

## Chapter 6

Location Management in PCS Networks Using Base Areas (BAs) and 2 Level Paging (2LP) Schemes

Hesham A. Ali, Mansoura University, Egypt
Ahmed I. Saleh, Mansoura University, Egypt
Mohammed H. Ali, Mansoura University, Egypt
Chapter 7
Application of Extrinsic Information Transfer Charts to Anticipate Turbo Code Behavior ................. 97
   Izabella Lokshina, SUNY Oneonta, USA

Chapter 8
A Femtocellular-Cabled Solution for Broadband Wireless Access: A Qualitative and
Comparative Analysis .................................................................................................................. 105
   Dario Di Zenobio, Fondazione Ugo Bordoni, Italy
   Massimo Celidonio, Fondazione Ugo Bordoni, Italy
   Lorenzo Pulcini, Fondazione Ugo Bordoni, Italy
   Arianna Rufini, Fondazione Ugo Bordoni, Italy

Chapter 9
Data Transmission Oriented on the Object, Communication Media, Application, and State of
Communication Systems ......................................................................................................... 117
   Mike Sabelkin, École de Technologie Supérieure, Canada
   François Gagnon, École de Technologie Supérieure, Canada

Chapter 10
Machine-to-Machine Communications and Security Solution in Cellular Systems .................. 133
   Mahdy Saedy, University of Texas at San Antonio, USA
   Vahideh Mojtahed, Purdue University, USA

Chapter 11
Sensing Technologies for Societal Well-Being: A Needs Analysis ............................................. 143
   Elizabeth Avery Gomez, New Jersey Institute of Technology, USA

Chapter 12
Modeling and Simulation of Traffic with Integrated Services at Media Getaway Nodes in Next
Generation Networks .................................................................................................................. 152
   Izabella Lokshina, SUNY College at Oneonta, USA

Chapter 13
A Complete Spectrum Sensing and Sharing Model for Cognitive Radio Ad Hoc Wireless
Networks Using Markov Chain State Machine .......................................................................... 166
   Amir Rajaee, University of Texas at San Antonio, USA
   Mahdy Saedy, University of Texas at San Antonio, USA
   Brian Kelley, University of Texas at San Antonio, USA

Chapter 14
A Novel Approach to Avoid Mobile Phone Accidents While Driving and Cost-
Effective Fatalities ...................................................................................................................... 179
   H. Abdul Shabeer, Anna University Coimbatore, India
   R. S. D. Wahidabahu, Anna University Coimbatore, India
