</table>
Chapter 7
A Run for your [Techno]Self ................................................................. 123
  *Alessandro Tomasi, Rhode Island College, USA*

Chapter 8
The Mediation of Identity: Key Issues in Historic Perspective ............................ 137
  *Stephen Marmura, St. Francis Xavier University, Canada*

Chapter 9
The Digital Soul ........................................................................... 157
  *Daniel Black, Monash University, Australia*

Chapter 10
Reasoning about Human Enhancement: Towards a Folk Psychological Model of Human Nature and Human Identity ................................................................. 175
  *Samuel Wilson, Monash University, Australia*
  *Nick Haslam, University of Melbourne, Australia*

Section 2
Constructing Digital Identity

Chapter 11
Cyber Identity: Our Alter-Ego?........................................................... 190
  *Ana-Cristina Ionescu, Chamber of Commerce and Industry of Romania (CCIR), Romania*

Chapter 12
The Empathy Paradox: Increasing Disconnection in the Age of Increasing Connection ........ 204
  *Sara Konrath, University of Michigan, USA & University of Rochester Medical Center, USA*

Chapter 13
Intellectual Disability, Identity, and the Internet .......................................... 229
  *Darren D. Chadwick, University of Wolverhampton, UK*
  *Chris Fullwood, University of Wolverhampton, UK*
  *Caroline J. Wesson, University of Wolverhampton, UK*

Chapter 14
Avatars: Portraying, Exploring, and Changing Online and Offline Identities .................. 255
  *Jesse Fox, The Ohio State University, USA*
  *Sun Joo (Grace) Ahn, University of Georgia, USA*

Chapter 15
The Ur-Real Sonorous Envelope: Bridge between the Corporeal and the Online Technoself ....... 272
  *Marlin Bates, IV, University of the Pacific, USA*
Chapter 16
Immigrants’ Internet Use and Identity from an Intergenerational Perspective: Immigrant Senior Citizens and Youngsters from the Former Soviet Union in Israel .......................................................... 293
Nelly Elias, Ben-Gurion University of the Negev, Israel

Chapter 17
Ancestor Veneration Avatars .............................................................................................................. 308
William Sims Bainbridge, National Science Foundation, USA

Chapter 18
Self-Presence, Explicated: Body, Emotion, and Identity Extension into the Virtual Self ............... 322
Rabindra Ratan, Michigan State University, USA

Chapter 19
Assistive ICT and Young Disabled Persons: Opportunities and Obstacles in Identity Negotiations ................................................................................................................................. 337
Sylvia Söderström, Sør-Trøndelag University College, Norway

Volume II

Section 3
Social Media and Virtual Life

Chapter 20
The Tangible Lure of the Technoself in the Age of Reality Television ............................................. 360
Fernando Andacht, University of Ottawa, Canada

Chapter 21
Technoself-Presentation on Social Networks: A Gender-Based Approach .................................. 382
Antonio García-Gómez, University of Alcalá de Henares, Spain

Chapter 22
Digitization and Consumerization of Identity, Culture, and Power among Gen Mobinets in South Africa .......................................................................................................................................... 399
Chaka Chaka, Tshwane University of Technology, South Africa

Chapter 23
Stepping into the (Social Media) Game: Building Athlete Identity via Twitter ............................. 419
Jimmy Sanderson, Clemson University, USA

Chapter 24
Self, Self-Presentation, and the Use of Social Applications in Digital Environments .................. 439
José Carlos Ribeiro, Federal University of Bahia, Brazil
Tarcízio Silva, Federal University of Bahia, Brazil
Chapter 25
A New Trend in Education: Technoself Enhanced Social Learning ........................................ 456
   Li Jin, University of Westminster, UK

Chapter 26
Social Networking and Identity ......................................................................................... 474
   Rachel Barker, University of South Africa, South Africa

Chapter 27
The Need for Identity Construction in Computer-Mediated Professional Communication:
A Community of Practice Perspective ............................................................................ 502
   Victor Ho, The Hong Kong Polytechnic University, Hong Kong

Chapter 28
“To Be Shot at Without Result”: Gaming and the Rhetoric of Immortality ....................... 531
   Jason Hawreliak, University of Waterloo, Canada

Section 4
Human Enhancement, Robotics, and Society

Chapter 29
A Human Affect Recognition System for Socially Interactive Robots ............................... 554
   Derek McColl, University of Toronto, Canada
   Goldie Nejat, University of Toronto, Canada

Chapter 30
Effects of Human-Machine Integration on the Construction of Identity ............................ 574
   Francesc Ballesté, Universitat Oberta de Catalunya, Spain
   Carme Torras, Institut de Robòtica i Informàtica Industrial, CSIC-UPC, Spain

Chapter 31
Building a Technoself: Children’s Ideas about and Behavior toward Robotic Pets ............... 592
   Gail F. Melson, Purdue University, USA

Chapter 32
Just Doesn’t Look Right: Exploring the Impact of Humanoid Robot Integration into Explosive
Ordnance Disposal Teams ............................................................................................... 609
   Julie Carpenter, University of Washington, USA

Chapter 33
Behavioral Analysis of Human-Human Remote Social Interaction Mediated by an Interactive Robot in a Cooperative Game Scenario .................................................. 637
   Fotios Papadopoulos, University of Hertfordshire, UK
   Kerstin Dautenhahn, University of Hertfordshire, UK
   Wan Ching Ho, University of Hertfordshire, UK
Chapter 34
The Human-Robot Continuum of Self: Where the Other Ends and Another Begins ......................... 666
Kristi Scott, Southern Illinois University Carbondale, USA

Chapter 35
Robot Double: Hiroshi Ishiguro’s Reflexive Machines ................................................................. 680
Yuji Sone, Macquarie University, Australia

Chapter 36
Understanding the Human-Machine Interface in a Time of Change .............................................. 703
Erica Orange, Weiner, Edrich, Brown, Inc., USA

Chapter 37
Identity in a Technological Society: Governance Implications ..................................................... 720
Marc A. Saner, University of Ottawa, Canada
Jeremy Geelen, University of Ottawa, Canada
