Acknowledgment

I would like to thank all chapter authors and reviewers for their contributions and supports. They retain the quality of the book volume. I would also like to take this opportunity to thank the National Natural Science Foundation of China and the Suzhou Science and Technology Bureau for their supports under Grant Number 60975080 and SYJG0919, respectively. Last but not least, my thanks go to the team, Heather Probst, Jamie Wilson, and Jan Travers, at the IGI Global Publishers for their support and patience. They worked diligently with me throughout the process of editing and production. It has been a pleasure and a learning experience for me to work with them. They made the book a reality.
