# Table of Contents

Preface ................................................................................................................................................ xiv

Acknowledgment ................................................................................................................................... xxiii

## Section 1

### Swarm Intelligence Algorithms

**Chapter 1**
Scatter Search and Path Relinking: A Tutorial on the Linear Arrangement Problem ....................... 1  
*Rafael Martí, Universidad de Valencia, Spain*  
*Juan-José Pantrigo, Universidad Rey Juan Carlos, Spain*  
*Abraham Duarte, Universidad Rey Juan Carlos, Spain*  
*Vicente Campos, Universidad de Valencia, Spain*  
*Fred Glover, OptTek Systems, Inc., USA*

**Chapter 2**
A Complementary Cyber Swarm Algorithm .......................................................................................... 22  
*Peng-Yeng Yin, National Chi Nan University, Taiwan*  
*Fred Glover, OptTek Systems, Inc., USA*  
*Manuel Laguna, University of Colorado, USA*  
*Jia-Xian Zhu, National Chi Nan University, Taiwan*

**Chapter 3**
Path Relinking Scheme for the Max-Cut Problem within Global Equilibrium Search ....................... 42  
*Volodymyr P. Shylo, Institute of Cybernetics NAS of Ukraine, Ukraine*  
*Oleg V. Shylo, University of Pittsburgh, USA*

**Chapter 4**
Path Relinking with Multi-Start Tabu Search for the Quadratic Assignment Problem ....................... 52  
*Tabitha James, Virginia Tech, USA*  
*Cesar Rego, University of Mississippi, USA*
Chapter 5
A Multiobjective Particle Swarm Optimizer for Constrained Optimization .................................. 71
Gary G. Yen, Oklahoma State University, USA
Wen-Fung Leong, Oklahoma State University, USA

Chapter 6
Experimental Study on Boundary Constraint Handling in Particle Swarm Optimization: From Populatıon Diversity Perspective ................................................................. 96
Shi Cheng, University of Liverpool, UK
Yuhui Shi, Xi’an Jiaotong-Liverpool University, China
Quande Qin, Shenzhen University, China

Chapter 7
Chaos-Enhanced Firefly Algorithm with Automatic Parameter Tuning ........................................ 125
Xin-She Yang, National Physical Lab, UK

Chapter 8
An Optimization Algorithm Based on Brainstorming Process ................................................... 137
Yuhui Shi, Xi’an Jiaotong-Liverpool University, China

Section 2
Swarm Intelligence Applications

Chapter 9
Swarm Intelligence for Non-Negative Matrix Factorization ....................................................... 168
Andreas Janecek, University of Vienna, Austria
Ying Tan, Peking University, China

Chapter 10
How Ants Can Efficiently Solve the Generalized Watchman Route Problem ............................. 193
Pawel Paduch, Kielce University of Technology, Poland
Krzysztof Sapiecha, Kielce University of Technology, Poland

Chapter 11
Image Segmentation Based on Bacterial Foraging and FCM Algorithm .................................... 209
Hongwei Mo, Harbin Engineering University, China
Yujing Yin, Harbin Engineering University, China

Chapter 12
Minimum Span Frequency Assignment Based on a Multiagent Evolutionary Algorithm .............. 223
Jing Liu, Xidian University, China
Jinshu Li, Xidian University, China
Weicai Zhong, Northwest A&F University, China
Li Zhang, Soochow University, China
Ruochen Liu, Xidian University, China
