Table of Contents

Foreword...........................................................................................................................................xviii
Preface..................................................................................................................................................xx

Section 1
Positivist and Deductive Approaches

Chapter 1
Online Survey: Best Practice.............................................................................................................1
   Tomayess Issa, Curtin University, Australia

Chapter 2
eCommerce Trust Beliefs: Examining the Role of National Culture.............................................20
   Regina Connolly, Dublin City University, Ireland

Chapter 3
Subject Recommended Samples: Snowball Sampling.................................................................43
   Pedro Isaías, Universidade Aberta, Portugal
   Sara Pifano, Universidade Aberta, Portugal
   Paula Miranda, Polytechnic Institute of Setúbal, Portugal

Chapter 4
Practically Applying the Technology Acceptance Model in Information Systems Research.........58
   Reza Mojtahed, The University of Sheffield, UK
   Guo Chao Peng, The University of Sheffield, UK

Chapter 5
Designing Personalised Learning Resources for Disabled Students Using an Ontology-Driven
   Community of Agents..................................................................................................................81
   Julius T. Nganj, University of Hull, UK
   Mike Brayshaw, University of Hull, UK
Chapter 6
Taxonomy of IT Intangible Assets for Public Administration Based on the Electronic Government Maturity Model in Uruguay ................................................................. 103
Helena Garbarino, Universidad ORT Uruguay, Uruguay
Bruno Delgado, Universidad ORT Uruguay, Uruguay
José Carrillo, Universidad Politécnica de Madrid, Spain

Section 2
Interpretivist and Social Constructivist Approaches

Chapter 7
Online Ethnographies................................................................. 124
Hannakaisa Isomäki, University of Jyväskylä, Finland
Johanna Silvennoinen, University of Jyväskylä, Finland

Chapter 8
Grounded Theory in Practice: A Discussion of Cases in Information Systems Research ............... 142
Jorge Tiago Martins, The University of Sheffield, UK
Miguel Baptista Nunes, The University of Sheffield, UK
Maram Alajamy, The University of Sheffield, UK
Lihong Zhou, Wuhan University, China

Chapter 9
Creating Interpretive Space for Engaged Scholarship ................................................................. 161
Gabriel J. Costello, Galway-Mayo Institute of Technology, Ireland
Brian Donnellan, National University of Ireland – Maynooth, Ireland

Chapter 10
Exploring Higher Education Students’ Technological Identities using Critical Discourse Analysis ................................................................. 181
Cheryl Brown, University of Cape Town, South Africa
Mike Hart, University of Cape Town, South Africa

Section 3
Case Study Approaches

Chapter 11
The Role of Case-Based Research in Information Technology and Systems.......................... 200
Roger Blake, University of Massachusetts Boston, USA
Steven Gordon, Babson College, USA
G. Shankaranarayanan, Babson College, USA
Chapter 12
Mapping Participatory Design Methods to the Cognitive Process of Creativity to Facilitate Requirements Engineering ................................................................. 221
  Nicky Sulmon, Centre for User Experience Research (CUO), Belgium
  Jan Derboven, Centre for User Experience Research (CUO), Belgium
  Maribel Montero Perez, ITEC – Interdisciplinary Research on Technology, Education, and Communication, Belgium
  Bieke Zaman, Centre for User Experience Research (CUO), Belgium

Section 4
Mixed-Methods Approaches

Chapter 13
Combining Research Paradigms to Improve Poor Student Performance ........................................ 243
  Roelien Goede, North-West University – Vaal Campus, South Africa
  Estelle Taylor, North-West University – Potchefstroom Campus, South Africa
  Christoffel van Aardt, Vaal University of Technology, South Africa

Chapter 14
Experiences in Applying Mixed-Methods Approach in Information Systems Research ......................... 266
  Guo Chao Peng, University of Sheffield, UK
  Fenio Annansingh, University of Plymouth, UK

Chapter 15
Examining Web 2.0 E-Learning Tools: Mixed Method Classroom Pilot ............................................. 294
  Janet Holland, Emporia State University, USA
  Dusti Howell, Emporia State University, USA

Chapter 16
Evaluation of Web Accessibility: A Combined Method ................................................................. 314
  Sergio Luján-Mora, University of Alicante, Spain
  Firas Masri, University of Alicante, Spain

Section 5
Evaluation Research Approaches

Chapter 17
Information Systems Evaluation: Methodologies and Practical Case Studies ..................................... 333
  Si Chen, University of Sheffield, UK
  Nor Mardziah Osman, University of Sheffield, UK
  Guo Chao Peng, University of Sheffield, UK
Chapter 18  
Supporting Unskilled People in Manual Tasks through Haptic-Based Guidance .............................................. 355  
 Mario Covarrubias, Politecnico di Milano, Italy  
 Monica Bordegoni, Politecnico di Milano, Italy  
 Umberto Cugini, Politecnico di Milano, Italy  
 Elia Gatti, Politecnico di Milano, Italy

Chapter 19  
Integrated Methods for a User Adapted Usability Evaluation ................................................................. 379  
 Junko Shirogane, Tokyo Woman’s Christian University, Japan  
 Yuichiro Yashita, Waseda University, Japan  
 Hajime Iwata, Kanagawa Institute of Technology, Japan  
 Yoshiaki Fukazawa, Waseda University, Japan

Chapter 20  
A Protocol for Evaluating Mobile Applications ...................................................................................... 398  
 Clare Martin, Oxford Brookes University, UK  
 Derek Flood, Dundalk Institute of Technology, Ireland  
 Rachel Harrison, Oxford Brookes University, UK

Compilation of References .......................................................................................................................... 415

About the Contributors ................................................................................................................................. 458

Index ......................................................................................................................................................... 468
