Acknowledgment

This book would not have been possible without the efforts of all 50 authors who contributed material. We are grateful for their efforts in revising their work for publication. We all benefit from them sharing their knowledge and experience with us.

We would like to extend our deepest thank to the members of the Editorial Advisory Board (EAB). The 10 EAB members carefully reviewed all submissions to the book, provided detailed feedback and comments to the authors, and often re-checked the work as it went through the editorial process. Without the tremendous efforts of the EAB, this book would not have been possible.

We are extremely grateful for the wonderful personnel at IGI Global who helped make this book a reality. In particular, we’d like to thank Austin DeMarco and Hannah Abelbeck for their patience and encouragement.

This book is one element of a developing community of interest in the area of STITC. The website www.STITC.org is the hub for these efforts. Please contact us if you are interested in getting involved.
