Table of Contents

Preface .................................................................................................................................................. xv

Chapter 1
A Reference Ontology Based Approach for Service Oriented Semantic Interoperability ............... 1
    Shuying Wang, University of Western Ontario, Canada
    Kevin P. Brown, University of Western Ontario, Canada
    Jinghui Lu, University of Western Ontario, Canada
    Miriam A. M. Capretz, University of Western Ontario, Canada

Chapter 2
Lightweight Collaborative Web Browsing .......................................................................................... 17
    Raphael O. Santos, Federal University of Espirito Santo, Brazil
    Felipe F. Oliveira, Federal University of Espirito Santo, Brazil
    Roberta L. Gomes, Federal University of Espirito Santo, Brazil
    Magnos Martinello, Federal University of Espirito Santo, Brazil
    Renata S. S. Guizzardi, Federal University of Espirito Santo, Brazil

Chapter 3
Improving Collaborations in the Neuroscientist Community ............................................................ 33
    Isabelle Mirbel, Université de Nice Sophia-Antipolis, France
    Pierre Crescenzo, Université de Nice Sophia-Antipolis, France

Chapter 4
E-Performance Systems: A Method of Measuring Performance ....................................................... 50
    Abdulaziz Al-Raïsi, Coventry University, UK
    Saad Amin, Coventry University, UK
    Saad Tahir, Richmond, The American International University in London, UK

Chapter 5
E = Mportfolios^2?: Challenges and Opportunities in Creating Mobile Electronic Portfolio Systems for Lifelong Learning ....................................................................................................... 58
    Ian Weber, University of Southern Queensland, Australia
    Peter Evans, University of Southern Queensland, Australia
Chapter 6
Computing the Spreading Power of a Business Portal to Propagate the Malicious Information in the Network ................................................................. 71

Hemraj Saini, Orissa Engineering College, India
Bimal Kumar Mishra, Birla Institute of Technology, MESRA, India
T. C. Panda, Orissa Engineering College, India

Chapter 7
Advanced Content Management System in Murdoch Research Institute ........................................... 80

Saeed Shadlou, Murdoch Childrens Research Institute, Australia
Hamdam Solaymani, Taylor’s University, Malaysia
Abdolreza Hajmoosaei, Taylor’s University, Malaysia

Chapter 8
Online Payment via PayPal API Case Study Event Registration Management System (ERMS) ....... 87

Saeed Shadlou, Murdoch Childrens Research Institute, Australia
Ng Jie Kai, Taylor’s University, Malaysia
Abdolreza Hajmoosaei, Taylor’s University, Malaysia

Chapter 9
Research Essay: Challenges and Considerations of Modern Day Portal Tooling ................................. 96

Jaspreet Singh, IBM, India

Chapter 10
Ontology Mapping Validation: Dealing with an NP-Complete Problem ............................................. 111

Felipe Serpeloni, Unicamp, Brazil
Regina Moraes, Unicamp, Brazil
Rodrigo Bonacin, Center for Information Technology Renato Archer, Brazil
& Public Research Centre Henri Tudor, Brazil

Chapter 11
A SOA-Based Environment Supporting Collaborative Experiments in E-Science............................ 122

Andrea Bosin, Università degli Studi di Cagliari, Italy
Nicoletta Dessì, Università degli Studi di Cagliari, Italy
Bairappan Madusudhanan, Università degli Studi di Cagliari, Italy
Barbara Pes, Università degli Studi di Cagliari, Italy

Chapter 12
A Semiotic-Based Approach for Search in Social Network Services ................................................ 137

Júlio C. dos Reis, Unicamp, Brazil & Center for Information Technology Renato Archer, Brazil
Rodrigo Bonacin, Center for Information Technology Renato Archer, Brazil
& Public Research Centre Henri Tudor, Brazil
M. Cecilia C. Baranauskas, Unicamp, Brazil
Chapter 13
Adaptive Ontology-Based Web Information Retrieval: The TARGET Framework
Cédric Pruski, Centre de Recherche Public Henri Tudor, Luxembourg
Nicolas Guelfi, University of Luxembourg, Luxembourg
Chantal Reynaud, Laboratory of Computer Science (LRI), University of Paris-Sud, France

Chapter 14
Eidsvoll 1814: Creating Educational Historical Reconstructions in 3D Collaborative Virtual Environments
Ekaterina Prasolova-Forland, Norwegian University of Science and Technology, Norway
Ole Ørjan Hov, Globalskolen – Norwegian School Online, Norway

Chapter 15
Perceptions of Trust between Online Auction Consumers
Sanna Malinen, Tampere University of Technology, Finland
Jarno Ojala, Tampere University of Technology, Finland

Chapter 16
An Initial Examination of Free and Proprietary Software-Selection in Organizations
Damien J. Sticklen, Curtin University, Australia
Theodora Issa, Curtin University, Australia

Chapter 17
Prosumerization of Mobile Service Provision: A Conceptual Approach
Dirk Werth, German Research Center for Artificial Intelligence, Germany
Andreas Emrich, German Research Center for Artificial Intelligence, Germany
Alexandra Chapko, German Research Center for Artificial Intelligence, Germany

Chapter 18
Multiagent Social Computing
Ben Choi, Louisiana Tech University, USA
