# Table of Contents

Preface................................................................................................................................................xvii

**Section 1**  
**Mobile Security**

Chapter 1  
A 2D Barcode Validation System for Mobile Commerce ............................................................... 1  
  *David Kuo, San Jose State University, USA*  
  *Daniel Wong, San Jose State University, USA*  
  *Jerry Gao, San Jose State University, USA, & Tsinghua University, China*  
  *Lee Chang, San Jose State University, USA*

Chapter 2  
Threshold-Based Location-Aware Access Control .......................................................................... 20  
  *Roel Peeters, Katholieke Universiteit Leuven, Belgium*  
  *Dave Singelée, Katholieke Universiteit Leuven, Belgium*  
  *Bart Preneel, Katholieke Universiteit Leuven, Belgium*

Chapter 3  
Survivability Enhancing Techniques for RFID Systems ................................................................. 37  
  *Yanjun Zuo, University of North Dakota, USA*

Chapter 4  
Mobile Agent Based Network Defense System in Enterprise Network .......................................... 54  
  *Yu Cai, Michigan Technological University, USA*

Chapter 5  
Security Assurance Evaluation and IT Systems’ Context of Use Security Criticality .......................... 70  
  *Moussa Ouedraogo, Public Research Center Henri Tudor, Luxembourg*  
  *Haralambos Mouratidis, University of East London, England*  
  *Eric Dubois, Public Research Center Henri Tudor, Luxembourg*  
  *Djamel Khadraoui, Public Research Center Henri Tudor, Luxembourg*
Section 2
Mobile Evaluations and Analyses

Chapter 6
Modeling and Analyzing User Contexts for Mobile Advertising .......................................................... 93
Nan Jing, Bloomberg L. P., USA
Yong Yao, IBM Silicon Valley Lab, USA
Yanbo Ru, Business.com Inc., USA

Chapter 7
Effect of Personal Innovativeness, Attachment Motivation, and Social Norms on the Acceptance of Camera Mobile Phones: An Empirical Study in an Arab Country ................................................................. 108
Kamel Rouibah, Kuwait University, Kuwait
T. Abbas H., Kuwait University, Kuwait

Chapter 8
A Framework for the Quality Evaluation of B2C M-Commerce Services ................................................ 130
John Garofalakis, University of Patras, Greece
Antonia Stefanis, University of Patras, Greece
Vassilios Stefanis, University of Patras, Greece

Section 3
Mobile Applications

Chapter 9
MICA: A Mobile Support System for Warehouse Workers ................................................................. 149
Christian R. Prause, Fraunhofer FIT, Germany
Marc Jentsch, Fraunhofer FIT, Germany
Markus Eisenhauer, Fraunhofer FIT, Germany

Chapter 10
Ontology-Based Personal Annotation Management on Semantic Peer Network to Facilitating Collaborations in E-Learning ........................................................................................................ 174
Ching-Long Yeh, Tatung University, Taiwan
Chun-Fu Chang, Tatung University, Taiwan
Po-Shen Lin, Tatung University, Taiwan

Chapter 11
A Petri-Net Based Context Representation in Smart Car Environment ...................................................... 189
Jie Sun, Ningbo University of Technology, China
Yongping Zhang, Ningbo University of Technology, China
Jianbo Fan, Ningbo University of Technology, China
Section 4
Mobile Human Computer Interaction (HCI)

Chapter 12
Tool-Supported User-Centred Prototyping of Mobile Applications .................................................. 203
Karin Leichtenstern, Augsburg University, Germany
Elisabeth André, Augsburg University, Germany
Matthias Rehm, University of Aalborg, Denmark

Chapter 13
Sampling and Reconstructing User Experience .................................................................................. 225
Panos Markopoulos, Eindhoven University of Technology, The Netherlands
Vassilis-Javed Khan, NHTV Breda University of Applied Sciences, The Netherlands

Section 5
Mobile Health

Chapter 14
Mobile E-Health Information System .................................................................................................. 247
Flora S. Tsai, Singapore University of Technology and Design, Singapore

Chapter 15
Integration of Health Records by Using Relaxed ACID Properties between Hospitals, Physicians
and Mobile Units like Ambulances and Doctors .................................................................................... 275
Lars Frank, Copenhagen Business School, Denmark
Louise Pape-Haugaard, Aalborg University, Denmark

Section 6
Pervasive Computing

Chapter 16
DSOA: A Service Oriented Architecture for Ubiquitous Applications .................................................. 289
Fabricio Nogueira Buzeto, Universidade de Brasilia (UnB), Brazil
Carlos Botelho de Paula Filho, Universidade de Brasilia (UnB), Brazil
Carla Denise Castanho, Universidade de Brasilia (UnB), Brazil
Ricardo Pezzuol Jacobi, Universidade de Brasilia (UnB), Brazil

Chapter 17
A Generic Context Interpreter for Pervasive Context-Aware Systems .................................................. 308
Been-Chian Chien, National University of Tainan, Taiwan
Shiang-Yi He, National University of Tainan, Taiwan
Section 7
Mobile Green Computing, Location-Based Services (LBS), and Mobile Networks

Chapter 18
Reducing Power and Energy Overhead in Instruction Prefetching for Embedded Processor Systems

Ji Gu, University of New South Wales, Australia
Hui Guo, University of New South Wales, Australia

Chapter 19
Interactive Rendering of Indoor and Urban Environments on Handheld Devices by Combining Visibility Algorithms with Spatial Data Structures

Wendel B. Silva, University of Utah, USA
Maria Andréia F. Rodrigues, Universidade de Fortaleza – UNIFOR, Brazil

Chapter 20
Design and Implementation of Binary Tree Based Proactive Routing Protocols for Large MANETS

Pavan Kumar Pandey, Aricent Technologies, India
G. P. Biswas, Indian School of Mines, India
