Table of Contents

Foreword ............................................................................................................................................xvii
Preface ...............................................................................................................................................xviii
Acknowledgment ............................................................................................................................xxii

Section 1  
Principles and Fundamentals

Chapter 1  
Cloud Computing Diagnosis: A Comprehensive Study .................................................................1  
N. Krishnadas, Indian Institute of Management, India  
R. Radhakrishna Pillai, Indian Institute of Management, India

Chapter 2  
Cloud Computing: Past, Present, and Future .............................................................................19  
John P. Sahlin, The George Washington University, USA

Chapter 3  
Cloud Computing for Scientific Simulation and High Performance Computing ............................51  
Adrian Jackson, Edinburgh Parallel Computing Centre, The University of Edinburgh, UK  
Michèle Weiland, Edinburgh Parallel Computing Centre, The University of Edinburgh, UK

Chapter 4  
Cloud Computing in Academia, Governments, and Industry .......................................................71  
Ahmed Shawish, Ain Shams University, Egypt  
Maria Salama, British University in Egypt, Egypt

Section 2  
Security

Chapter 5  
Security Concepts for Cloud Computing .......................................................................................116  
Steven C. White, Missouri University of Science and Technology, USA  
Sahra Sedigh, Missouri University of Science and Technology, USA  
Ali R. Hurson, Missouri University of Science and Technology, USA
Chapter 6
IT Security and Governance Compliant Service Oriented Computing in Cloud Computing Environments .......................................................... 143
   Hussain Al-Aqrabi, University of Derby, UK
   Lu Liu, University of Derby, UK

Chapter 7
   Hassan Takabi, University of Pittsburgh, USA
   James B. D. Joshi, University of Pittsburgh, USA
   Gail-Joon Ahn, Arizona State University, USA

Section 3
Service-Oriented Approaches

Chapter 8
Service Design and Process Design for the Logistics Mall Cloud ............................................ 186
   Sebastian Steinbüß, Fraunhofer ISST, Germany
   Norbert Weißenberg, Fraunhofer ISST, Germany

Chapter 9
An Approach to Evolving Legacy Software System into Cloud Computing Environment .......... 207
   Shang Zheng, De Montfort University, UK
   Feng Chen, De Montfort University, UK
   Hongji Yang, De Montfort University, UK
   Jianzhi Li, De Montfort University, UK

Chapter 10
CloudRank: A Cloud Service Ranking Method Based on Both User Feedback and Service Testing .............................................................. 230
   Jianxin Li, Beihang University, China
   Linlin Meng, Beihang University, China
   Zekun Zhu, Beihang University, China
   Xudong Li, Beihang University, China
   Jinpeng Huai, Beihang University, China
   Lu Liu, University of Derby, UK

Chapter 11
An Efficient, Robust, and Secure SSO Architecture for Cloud Computing Implemented in a Service Oriented Architecture .............................................. 259
   Khandakar Ahmed, RMIT University, Australia
   Altaf Hussain, Shahjalal University of Science and Technology, Bangladesh
   Mark A Gregory, RMIT University, Australia
Section 4
Methods, Technologies, and Applications

Chapter 12
Campus Cloud Storage and Preservation: From Distributed File System to Data Sharing Service

Jinlei Jiang, Tsinghua University, China & Research Institute of Tsinghua University in Shenzhen, China
Xiaomeng Huang, Tsinghua University, China
Yongwei Wu, Tsinghua University, China & Research Institute of Tsinghua University in Shenzhen, China
Guangwen Yang, Tsinghua University, China

Chapter 13
An Infrastructure-as-a-Service Cloud: On-Demand Resource Provisioning

Weijia Song, Peking University, China
Zhen Xiao, Peking University, China

Chapter 14
Survivable Mapping of Virtual Networks onto a Shared Substrate Network

Vishal Anand, The College at Brockport, USA

Chapter 15
Reliability Analysis of Service Composition with Service Pools and Optimal Configuration of Service Pool Size

Pan He, Chongqing University, China
Qi Xie, Chongqing University, China

Chapter 16
Internet-Based Virtual Computing Infrastructure for Cloud Computing

James Hardy, University of Derby, UK
Lu Liu, University of Derby, UK
Cui Lei, Beihang University, China
Jianxin Li, Beihang University, China
