# Table of Contents

Preface ........................................................................................................................................... xv

## Section 1

**Recognizing the Need to Sustain Healthcare IST Innovation**

### Chapter 1

Information as Change Agent or Barrier in Health Care Reform? .............................. 1

*Alan Gillies, University of Central Lancashire, UK*

*John Howard, University of Central Lancashire, UK*

### Chapter 2

Sustaining Healthcare Through Waste Elimination: A Taxonomic Analysis with Case Illustrations... 18

*Sharie L. Falan, Western Michigan University, USA*

*Bernard T. Han, Western Michigan University, USA*

*Linda H. Zoeller, Western Michigan University, USA*

*J. Michael Tarn, Western Michigan University, USA*

*Donna M. Roach, Bronson Methodist Healthcare Group, USA*

## Section 2

**Roadmaps for Healthcare Reformers**

### Chapter 3

A Novel GS1 Data Standard Adoption Roadmap for Healthcare Providers ...................... 41

*Nebil Buyurgan, University of Arkansas, USA*

*Ronald L. Rardin, University of Arkansas, USA*

*Raja Jayaraman, Khalifa University of Science, UAE*

*Vijith M. Varghese, University of Arkansas, USA*

*Angelica Burbano, University of Arkansas, USA*

### Chapter 4

Innovation in ICT-Based Health Care Provision ........................................................................ 58

*Synnøve Thomassen Andersen, Finnmark University College, Norway*

*Arild Jansen, University of Oslo, Norway*
Chapter 5
Organizational Factors Associated with Health Information Technology Adoption and Utilization Among Home Health / Hospice Agencies ................................................................. 73
  Jordan Mitchell, University of South Carolina, USA
  Kevin J. Bennett, University of South Carolina, USA
  Janice Probst, University of South Carolina, USA

Section 3
Applied Innovations

Chapter 6
Exploring the Effect of mHealth Technologies on Communication and Information Sharing in a Pediatric Critical Care Unit: A Case Study ................................................................. 88
  Victoria Aceti, University of Ottawa, Canada
  Rocci Luppicini, University of Ottawa, Canada

Chapter 7
A Transaction Cost Assessment of a Pervasive Technology Solution for Gestational Diabetes ...... 109
  Nilmini Wickramasinghe, RMIT University, Australia
  Indrit Troshani, The University of Adelaide Business School, Australia
  Sally Rao Hill, The University of Adelaide Business School, Australia
  William Hague, University of Adelaide, Australia
  Steve Goldberg, INET International Canada, Canada

Chapter 8
State of IS Integration in the Context of Patient-Centered Care: A Network Analysis and Research Directions ........................................................................................................ 127
  Ali Reza Montazemi, McMaster University, Canada
  Jeff J. Pittaway, McMaster University, Canada
  Karim Keshavjee, InfoClin Inc., Canada

Chapter 9
Adoption, Usage and Efficiency: Benchmarking Healthcare IT in Private Practices.................... 145
  Marion Sobol, Southern Methodist University, USA
  Edmund Prater, University of Texas at Arlington, USA

Section 4
Psychometric Measures and Decision Analytic Methods

Chapter 10
Development and Psychometric Qualities of the SEIPS Survey to Evaluate CPOE/EHR Implementation in ICUs ........................................................................................................ 161
  Peter L. T. Hoonakker, University of Wisconsin-Madison, USA
  Randi S. Carimill, University of Wisconsin-Madison, USA
  Pascale Carayon, University of Wisconsin-Madison, USA
  James M. Walker, Geisinger Health System, USA
Chapter 11
Transformation of the Hospital Supply Chain: How to Measure the Maturity of Supplier Relationship Management Systems in Hospitals? ................................................................. 180
Tobias Mettler, Institute of Information Management, University of St. Gallen, Switzerland

Chapter 12
Formal-Transfer In and Out of Stroke Care Units: An Analysis Using Bayesian Networks.......... 193
Shyamala G. Nadathur, Monash University, Australia
James R. Warren, University of Auckland, New Zealand

Chapter 13
A Novel Neural Fuzzy Approach for Diagnosis of Potassium Disturbances ................................. 208
Mashhour Bani Amer, Jordan University of Science and Technology, Jordan
Mohammad Amawi, Princess Badi’a Teaching Hospital, Jordan
Hasan El-Khatib, Princess Bassma Teaching Hospital, Jordan

Chapter 14
Automatic Detection of Arrow Annotation Overlays in Biomedical Images .................................. 219
Beibei Cheng, Missouri University of Science and Technology, USA
R. Joe Stanley, Missouri University of Science and Technology, USA
Soumya De, Missouri University of Science and Technology, USA
Sameer Antani, U. S. National Library of Medicine, USA
George R. Thoma, U. S. National Library of Medicine, USA

Section 5
Emerging Paradigms of Healthcare IST Innovations

Chapter 15
Evolution of Information Systems and Technologies Maturity in Healthcare .............................. 238
Álvaro Rocha, University Fernando Pessoa, Portugal

Chapter 16
Improving the Implementation of Evidence-Based Practice and Information Systems in Healthcare: A Social Network Approach ................................................................. 247
Priscilla A. Arling, Butler University, USA
Bradley N. Doebbeling, Indiana University School of Medicine, USA
Rebekah L. Fox, Texas State University - San Marcos, USA

Compilation of References ................................................................................................................ 271
About the Contributors .......................................................................................................................... 310
