# Table of Contents

Foreword.............................................................................................................................................. xv  
Preface.................................................................................................................................................... xix

## Section 1  
**Theories and Models:**  
*Design Hypothesis, Design Principles, Theoretical Underpinnings*

### Chapter 1  
Students’ Perceptions of a 3D Virtual Environment Designed for Metacognitive and Self-Regulated Learning in Science............................................................................................. 1  
  *Jody Clarke-Midura, Harvard University, USA*  
  *Eugenia Garduño, Harvard University, USA*

### Chapter 2  
Analyzing the Effects of a 3D Online Virtual Museum in Visitors’ Discourse, Attitudes, Preferences, and Knowledge Acquisition............................................................................................ 26  
  *Adriana D’Alba, University of North Texas, USA*  
  *Greg Jones, University of North Texas, USA*

## Section 2  
**Design of the Product/Model**

### Chapter 3  
Do 3D Pedagogical Agents Help Students Learn Science? A Systematic Review ......................................................................................................................................................... 49  
  *Noah L. Schroeder, Washington State University, USA*  
  *Olusola O. Adesope, Washington State University, USA*
Chapter 4
3D Video Production in Education ................................................................. 72
   Jay Wilson, University of Saskatchewan, Canada
   Stefan Scott, University of Saskatchewan, Canada

Section 3
Instructional Development and Practice

Chapter 5
Student Learning Experience through CoSpace Educational Robotics:
3D Simulation Educational Robotics Tool...................................................... 93
   Amy Eguchi, Bloomfield College, USA
   Jiayao Shen, Singapore Polytechnic, Singapore

Chapter 6
3D Science and Social Studies in Grades 5-6: Virtualization Expanding Instruction ................................................................. 128
   Emily Bodenlos, Morehead State University, USA
   Lesia Lennex, Morehead State University, USA

Chapter 7
Developing 3D Case Studies for Authentic Learning Experiences .............. 150
   Joanne Lavin, City University of New York, USA
   Xin Bai, City University of New York, USA

Chapter 8
3D Virtual Worlds as Creative Pedagogy for Art Education: Art Café@Second Life ................................................................. 174
   Lilly Lu, Northern Illinois University, USA

Section 4
Evaluation in Design and Development Research

Chapter 9
3D Technology in P12 Education: Cameras, Editing, and Apps ............... 207
   Karla Spencer, Morehead State University, USA
   Lesia Lennex, Morehead State University, USA
   Emily Bodenlos, Morehead State University, USA
Section 5
Reporting Design and Development Research

Chapter 10
Earth System Science in Three Dimensions: Perspectives of Students and Teachers on NASA’s Project 3D-VIEW ................................................................. 232
Meghan E. Marrero, Mercy College, USA
Glen Schuster, U.S. Satellite Laboratory, USA
Amanda Bickerstaff, CUNY Graduate Center, USA

Chapter 11
Stereoscopic 3D: Going Beyond Texas Tech University Libraries’ 3D Animation Lab ........................................................................................................ 258
Ian Barba, Texas Tech University, USA
James Brewer, Texas Tech University, USA
Brenda Swinford, Texas Tech University, USA

Chapter 12
Using 3D Virtual Reality Technology in Cyber Ethics Education: How Can We Really Evaluate and Change Students’ Attitudes? .............................................. 288
Toshiki Matsuda, Tokyo Institute of Technology, Japan
Hiroshi Nakayama, Tokyo Denki University, Japan
Kazue Tamada, Edogawa University, Japan

Chapter 13
Taking Elementary Document Camera Use to the Next Dimension .............. 309
Nancye W. Blair, The Schools of McKeel Academy, USA

Section 6
Best Practices in Education

Chapter 14
Using Second Life® to Teach Collaboration Skills to Pre-Service and In-Service Special Educators................................................................. 336
Melissa D. Hartley, West Virginia University, USA
Barbara L. Ludlow, West Virginia University, USA
Michael C. Duff, Discover Video Productions, USA
Chapter 15
3D Modeling in a High School Computer Visualization Class: Enacting a Productive, Distributed Social Learning Environment ........................................... 359

Rebecca M Combs, Humana Inc., USA
Joan Mazur, University of Kentucky, USA

Compilation of References ............................................................................. 388

About the Contributors .................................................................................... 423

Index .................................................................................................................. 432
