# Table of Contents

*Foreword* ............................................................................................................................................. xiv

*Preface* .................................................................................................................................................. xvi

*Acknowledgment* ............................................................................................................................... xviii

## Section 1  
**Advanced Software Engineering**

**Chapter 1**  
Change Management in Shared Software Specifications ................................................................. 1  
*Fathi Taibi, University of Management and Technology, Malaysia*

**Chapter 2**  
Component Certification Process and Standards ................................................................................... 22  
*Parminder Kaur, Guru Nanak Dev University, India*  
*Hardeep Singh, Guru Nanak Dev University, India*

**Chapter 3**  
Analyzing Growth Trends of Reusable Software Components ......................................................... 40  
*Kuljit Kaur, Guru Nanak Dev University, India*

**Chapter 4**  
Aspect-Oriented Recommender Systems ............................................................................................ 55  
*Punam Bedi, University of Delhi, India*  
*Sumit Kr Agarwal, University of Delhi, India*

## Section 2  
**Systems Analysis, Software Design, and Design Patterns**

**Chapter 5**  
Design of Semi-Structured Database System: Conceptual Model to Logical Representation .......... 74  
*Anirban Sarkar, National Institute of Technology, Durgapur, India*
Chapter 6
A Comparative Study of Bayesian and Fuzzy Inference Approach to Assess Quality of the Software Using Activity-Based Quality Model ............................................................... 96
Kawal Jeet, D A V College, India
Nitin Bhatia, D A V College, India
Renu Dhir, Dr. B R Ambedkar National Institute of Technology, India

Chapter 7
Data Mining Techniques for Software Quality Prediction.................................................. 112
Bharavi Mishra, Indian Institute of Technology (BHU), India
K. K. Shukla, Indian Institute of Technology (BHU), India

Chapter 8
Quality Assurance of Website Structure ............................................................... 140
G. Sreedhar, Rashtriya Sanskrit Vidyapeetha (Deemed University), India

Chapter 9
Resolving Conflict in Code Refactoring.............................................................. 149
Lakhwinder Kaur, Apeejay Institute of Management Technical Campus, India
Kuljit Kaur, Guru Nanak Dev University, India
Ashu Gupta, Apeejay Institute of Management Technical Campus, India

Section 3
Advancements in Engineering of Systems

Chapter 10
Towards Test-Driven and Architecture Model-Based Security and Resilience Engineering ........ 163
Ayda Saidane, University of Luxembourg, Luxembourg
Nicolas Guelfi, University of Luxembourg, Luxembourg

Chapter 11
Software Engineering, Process Improvement, and Experience Management: Is the Nexus Productive? Clues from the Indian Giants ............................................................... 189
Neeraj Sharma, Punjabi University, India
Kawaljeet Singh, Punjabi University, India
D.P. Goyal, Management Development Institute, India

Chapter 12
Usability Engineering Methods and Tools....................................................................... 202
Amandeep Kaur, Apeejay Institute of Management Technical Campus, India
Chapter 13
Innovative Strategies for Secure Software Development .......................................................... 217
   Punam Bedi, University of Delhi, India
   Vandana Gandotra, University of Delhi, India
   Archana Singhal, University of Delhi, India

Section 4
Case Studies and Emerging Technologies

Chapter 14
Case Study: Secure Web Development ................................................................................. 239
   Daljit Kaur, Lyallpur Khalsa College, India
   Parminder Kaur, Guru Nanak Dev University, India

Chapter 15
Galileo Case Study: A Collaborative Design Environment for the European Space Agency’s
Concurrent Design Facility ...................................................................................................... 251
   Aggelos Liapis, European Dynamics SA, Greece
   Evangelos Argyzoudis, European Dynamics SA, Greece

Chapter 16
Case Study: Version Control in Component-Based Systems ..................................................... 283
   Nisha Ratti, Rayat Institute of Engineering and Technology, India
   Parminder Kaur, Guru Nanak Dev University, India

Compilation of References ..................................................................................................... 298

About the Contributors .......................................................................................................... 323

Index ....................................................................................................................................... 330
