# Table of Contents

Preface ................................................................................................................................. xvi

Acknowledgment .................................................................................................................. xix

## Section 1

### Chapter 1
Policies on Telemedicine-Enhanced Hospital Services: Prioritization Criteria for the Interventions at Regional Level ................................................................. 1

*Angelo Rossi Mori, Institute of Biomedical Technologies (CNR), Italy*
*Mariangela Contenti, Institute of Biomedical Technologies (CNR), Italy*
*Rita Verbicaro, Institute of Biomedical Technologies (CNR), Italy*

### Chapter 2
Global Telemedicine and eHealth: Advances for Future Healthcare – Using a Systems Approach to Integrate Healthcare Functions ......................................................... 15

*S A Davis, University of California Merced, USA*

### Chapter 3
E-Health and Telemedicine in the Elderly: State of the Art ............................................. 33

*Ilaria Mazzanti, Centro di Telemedicina, Italy*
*Alessandro Maolo, Centro di Telemedicina, Italy*
*Roberto Antonicelli, Centro di Telemedicina, Italy*

### Chapter 4
The Role of Telemedicine in Paediatric Cardiology ....................................................... 44

*Brian A. McCrossan, The Royal Belfast Hospital for Sick Children, Northern Ireland*
*Frank A. Casey, The Royal Belfast Hospital for Sick Children, Northern Ireland*
Chapter 5
Telemedicine, the European Space Agency, and the Support to the African Population for Infectious Disease Problems: Potentiality and Perspectives for Asia Countries and China................. 89
Giorgio Parentela, European Space Agency, France
Pierluigi Mancini, European Space Agency, France
Franco Naccarella, Italian Society of Telemedicine, Italy
Zhang Feng, First People Hospital of Jiao Tong University, People’s Republic of China
Giovanni Rinaldi, Italian Society of Telemedicine, Italy

Chapter 6
DREAM Programme: Use of Telemedicine as a Model to Cooperation with Africa...................... 97
Michelangelo Bartolo, S. Giovanni Addolorata Hospital, Italy
Andrea Nucita, University of Messina, Italy

Chapter 7
The Effects of Telehealth on Patients with Long-Term Conditions in Routine Healthcare Use and Lessons from Practical Application ................................................................. 103
Victor Vuni Joseph, Leeds Institute of Health Sciences (LIHS), University of Leeds, UK
& Doncaster Primary Care Trust (PCT), UK

Chapter 8
Telemedicine Utilization, Availability of Physicians, Distance, and Urbanity: An Exploratory Study .......................................................... 121
Ricky C. Leung, University of Missouri School of Medicine, USA

Section 2

Chapter 9
Leading the Technological Innovation in Healthcare Systems: The Telematic Medicine Approach................................................................. 134
Vincenzo Gullà, Aditech SRL, Italy

Chapter 10
Telemedicine Service of San Giovanni-Addolorata Hospital in Rome: Analysis of About Two Years of Activity (2008- Early 2011)................................................................. 154
Michelangelo Bartolo, S.Giovanni Addolorata Hospital, Italy
Gianpiero Guerrieri, S.Giovanni Addolorata Hospital, Italy
Andrea Nucita, University of Messina, Italy
Chapter 11
Remote Follow-Up of Implantable Cardioverter Defibrillators: Technology, Patient Management, Integration with Electronic Records, and ICD Product Surveillance .................................................. 162
David L. Scher, Pinnacle Health System, USA
Franco Naccarella, Euro China Society for Health Research, Italy
Zhang Feng, First People Hospital of Jiao Tong University, People’s Republic of China
Giovanni Rinaldi, Italian Society of Telemedicine, Italy

Chapter 12
Remote Electronic Monitoring in Chronic Pulmonary Diseases ........................................... 173
S. Bella, Bambino Gesù Paediatric Hospital, Research and Care Institute, Italy
F. Murgia, Bambino Gesù Paediatric Hospital, Research and Care Institute, Italy

Chapter 13
Telemedicine and Alzheimer Disease: ICT-Based Services for People with Alzheimer Disease and their Caregivers ..................................................................................................... 191
Letteria Spadaro, IRCCS Centro Neurolesi “Bonino-Pulejo,” Italy
Francesca Timpano, IRCCS Centro Neurolesi "Bonino-Pulejo," Italy
Silvia Marino, IRCCS Centro Neurolesi “Bonino-Pulejo,” Italy
Placido Bramanti, IRCCS Centro Neurolesi “Bonino-Pulejo,” Italy

Chapter 14
Health Services through Digital Terrestrial Television .......................................................... 207
Aldo Franco Dragoni, Università Politecnica delle Marche, Italy

Chapter 15
Static Telecytological Applications for Proficiency Testing ................................................. 228
Stavros Archondakis, Army Hospital, Greece

Chapter 16
Telemedicine in Emergency: A First Aid Hospital Network Experience ............................... 240
Vincenzo Gullà, Aditech S.R.L, Italy
Corrado Cancellotti, Hospital “High Chiascio” of Gubbio, Italy

Section 3

Chapter 17
Telemedicine R&D Influencing Incoming Strategies and Organization Models ...................... 250
Francesco Gabbielli, Umberto I General Hospital of Rome, Department of Surgery “P. Stefanini,” Rome, Italy
