# Table of Contents

**Preface** ................................................................................................................................. xi

**Acknowledgment** ................................................................................................................... xv

**Chapter 1**
Optical Network Optimization ..................................................................................................... 1

*Bin Wang, Wright State University, USA*
*Yousef S. Kavian, Shahid Chamran University, Iran*

**Chapter 2**
FiWi Networks .......................................................................................................................... 24

*Mina Taheri, New Jersey Institute of Technology, USA*
*Nirwan Ansari, New Jersey Institute of Technology, USA*

**Chapter 3**
Optical Label Processing Techniques for Intelligent Forwarding of Packets in All-Optical Packet Switched Networks .................................................................................................................. 47

*Nicola Calabretta, Eindhoven University of Technology, The Netherlands*

**Chapter 4**
Monitoring Devices for Providing Network Intelligence in Optical Packet Switched Networks .... 73

*Ruth Vilar, Universitat Politècnica de València, Spain*
*Francisco Ramos, Universitat Politècnica de València, Spain*

**Chapter 5**
GMPLS for Future Applications: Performance Characterization and Measurements............... 104

*Weiqiang Sun, Shanghai Jiao Tong University, China*
*Wei Guo, Shanghai Jiao Tong University, China*
*Yaohui Jin, Shanghai Jiao Tong University, China*
*Lilin Yi, Shanghai Jiao Tong University, China*
*Weisheng Hu, Shanghai Jiao Tong University, China*

**Chapter 6**
Energy-Efficient Optical Transport Networks with Mixed Regenerator Placement ................. 118

*Zuqing Zhu, University of Science and Technology of China, China*
Chapter 7
Topological Design Using Genetic Algorithms ............................................................... 153
  Rui Manuel Morais, Department of Electronics, Telecommunications and Informatics,
  University of Aveiro, Portugal & Instituto de Telecomunicações, Aveiro, Portugal
  Armando Nolasco Pinto, University of Aveiro, Portugal Department of Electronics,
  Telecommunications and Informatics, University of Aveiro, Portugal & Instituto de
  Telecomunicações, Aveiro, Portugal

Chapter 8
Artificial Bee Colony Approach for Routing and Wavelength Assignment in Optical
WDM Networks ........................................................................................................ 174
  Goran Z. Marković, University of Belgrade, Serbia

Chapter 9
Applications of Computational Intelligence to Impairment-Aware Routing and Wavelength
Assignment in Optical Networks ............................................................................... 194
  Joaquim F. Martins-Filho, Federal University of Pernambuco, Brazil
  Carmelo J. A. Bastos-Filho, University of Pernambuco, Brazil
  Daniel A. R. Chaves, Federal University of Pernambuco, Brazil
  Helder A. Pereira, University of Pernambuco, Brazil

Chapter 10
Wavelength and Routing Assignment in All Optical Networks Using Ant Colony Optimization .... 217
  Ana Maria Sarmiento, Tecnológico de Monterrey, México
  Gerardo Castañón, Tecnológico de Monterrey, México
  Fernando Lezama, Tecnológico de Monterrey, México

Chapter 11
Hopfield Neural Networks for Routing in Communication Networks ................................ 235
  Carmelo José Albanez Bastos-Filho, University of Pernambuco, Brazil
  Marcos Antonio da Cunha Oliveira Junior, University of Pernambuco, Brazil
  Dennis Rodrigo da Cunha Silva, University of Pernambuco, Brazil
  Jheymesson Apolinário Cavalcanti, University of Pernambuco, Brazil
  Victor Vilmarques Capistrano Pedrosa, University of Pernambuco, Brazil

Chapter 12
Antnet Routing Algorithm with Link Evaporation and Multiple Ant Colonies to Overcome
Stagnation Problem .................................................................................................. 255
  Firat Tekiner, University of Manchester, UK
  Zabih Ghassemlooy, Northumbria University, UK

Compilation of References .......................................................................................... 275

About the Contributors ............................................................................................ 299

Index ............................................................................................................................ 306
