# Table of Contents

**Preface**.............................................................................................................................................xviii

**Chapter 1**
Service Quality Evaluation Method for Community-Based Software Outsourcing Process .......... 1
  *Shu Liu, Harbin Institute of Technology, China*
  *Ying Liu, IBM China Research Lab, China*
  *Huimin Jiang, Harbin Institute of Technology, China*
  *Zhongjie Wang, Harbin Institute of Technology, China*
  *Xiaofei Xu, Harbin Institute of Technology, China*

**Chapter 2**
Creating Effective Customer Solutions: A Process-Oriented Perspective................................. 16
  *Ferdinand Burianek, TUM Business School, Germany*
  *Sebastian Bonnemeier, TUM Business School, Germany*
  *Ralf Reichwald, Leipzig Graduate School of Management, Germany*

**Chapter 3**
Customers as Innovators in Senior Service Markets: An Examination of Innovation Potential and Characteristics........................................................................................................... 31
  *Lea Hennala, Lappeenranta University of Technology, Finland*
  *Helinä Melkas, Lappeenranta University of Technology, Finland*
  *Satu Pekkarinen, Lappeenranta University of Technology, Finland*

**Chapter 4**
Situated Service-Oriented Modeling ................................................................................................. 54
  *Raafat Saadé, Concordia University, Canada*
  *Rustam Vahidov, Concordia University, Canada*
Chapter 5
An IT Service Engineering and Management Framework (ITS-EMF) ................................. 76
  Manuel Mora, Autonomous University of Aguascalientes, Mexico
  Rory V. O’Connor, Dublin City University, Ireland
  Mahesh S. Raisinghani, TWU School of Management, USA
  Jorge Macías-Luévano, Autonomous University of Aguascalientes, Mexico
  Ovsei Gelman, CCADET-UNAM, Mexico

Chapter 6
DNA Model of IT Service Assets ......................................................................................... 92
  Stuart Galup, Florida Atlantic University, USA
  Ronald Dattero, Missouri State University, USA
  Jayne Groll, ITSM Academy, Inc., USA

Chapter 7
Identification of Attributes of TQM in an Educational Institute: A System Model ............... 123
  Rajiv Sindwani, YMCA University of Science & Technology, India
  Vikram Singh, YMCA University of Science & Technology, India
  Sandeep Grover, YMCA University of Science & Technology, India

Chapter 8
An Ontology-Based and Model-Driven Approach for Designing IT Service Management Systems ............................................................................................................................................. 142
  María-Cruz Valiente, University of Alcalá, Spain
  Cristina Vicente-Chicote, Technical University of Cartagena, Spain
  Daniel Rodríguez, University of Alcalá, Spain

Chapter 9
The Impact of E-Retail Environment Characteristics on E-Satisfaction and Purchase Intent ........ 160
  Jung-Hwan Kim, University of South Carolina, USA
  Minjeong Kim, Oregon State University, USA
  Jay Kandampully, The Ohio State University, USA

Chapter 10
A Study on Relationships Among Software Engineering Capabilities in Japan Using Panel Analysis ........................................................................................................................................................................ 180
  Yasuo Kadono, Tokyo University of Technology, Japan

Chapter 11
Value-Adding to Public Services Through the Adoption of Lean Thinking ............................................. 193
  Ayham A. M. Jaaron, An-Najah National University, Palestine
  Chris J. Backhouse, Loughborough University, UK
Chapter 12
A Modeling Framework for Analyzing the Viability of Service Systems ........................................ 213
  Arash Golnam, Ecole Polytechnique Fédérale de Lausanne (EPFL), Switzerland
  Gil Regev, Ecole Polytechnique Fédérale de Lausanne (EPFL), Switzerland
  Alain Wegmann, Ecole Polytechnique Fédérale de Lausanne (EPFL), Switzerland

Chapter 13
A Business Model Approach for Service Engineering in the Internet of Services ......................... 228
  Holger Kett, Fraunhofer-Institut für Arbeitswirtschaft und Organisation IAO, Germany

Chapter 14
Service Oriented Innovation Management: An Open Innovation Approach for Collaboration in Innovation Networks .......................................................................................................................... 237
  Michael Thieme, Institute for Applied Informatics (InfAI), Germany

Chapter 15
Customer Integration in Innovation Processes via Operating Information Systems ......................... 245
  Benjamin Strehl, USU Software AG, Germany

Chapter 16
A Method for the Management of Service Innovation Projects in Mature Organizations ............. 255
  Bernhard Schindlholzer, University of St. Gallen, Switzerland
  Falk Uebernickel, University of St. Gallen, Switzerland
  Walter Brenner, University of St. Gallen, Switzerland

Chapter 17
How IT-Enabled Services Can Help to Change our World: Building Networks for the Energy-Efficient City of Tomorrow .................................................................................................................. 273
  Kyrill Meyer, Universität Leipzig, Germany

Chapter 18
Mobile Emergency Management Services Targeting Large Public Events ................................... 281
  Jan Zibuschka, Fraunhofer-Institut für Arbeitswirtschaft und Organisation IAO, Germany
  Heiko Roßnagel, Fraunhofer-Institut für Arbeitswirtschaft und Organisation IAO, Germany
  Jan Muntermann, University of Göttingen, Germany
  Tobias Scherner, Marketing Partner, Germany

Chapter 19
MoBiFlow: Principles and Design of a Workflow System for Molecular Biology .......................... 300
  Markus Held, Bundesanstalt für Finanzdienstleistungsaufsicht, Germany
  Wolfgang Küchlin, Eberhard Karls Universität Tübingen, Germany
  Wolfgang Blochinger, Universität Stuttgart, Germany
Chapter 20
uRun: A Framework for User-Generated Mobile Services in the Health and Fitness Domain .......... 314
Alexandra Chapko, German Research Center for Artificial Intelligence, Germany
Andreas Emrich, German Research Center for Artificial Intelligence, Germany
Stephan Flake, Orga Systems GmbH, Germany
Frank Gولاتowski, University of Rostock, Germany
Marc Gräßle, German Research Center for Artificial Intelligence, Germany
Andreas Kohlos, Morpho Cards GmbH, Germany
Nico Laum, University of Rostock, Germany
Christian Lerche, University of Rostock, Germany
Carsten Rust, Morpho Cards GmbH, Germany
Jürgen Tacken, Orga Systems GmbH, Germany
Dirk Werth, German Research Center for Artificial Intelligence, Germany
Carsten Zoth, Orga Systems GmbH, Germany

Chapter 21
An Information and Cooperation Portal for Supporting Public Authorities and Organizations with Safety and Security Responsibilities Before and During Large Public Events ........................................ 335
Sandra Frings, Fraunhofer-Institut für Arbeitswirtschaft und Organisation IAO, Germany
David López Remondes, City of Cologne and University of Applied Sciences Cologne, Germany
Wolf Engelbach, Fraunhofer-Institut für Arbeitswirtschaft und Organisation IAO, Germany
