# Table of Contents

Preface .................................................................................................................................................. xxix

Volume I

## Section 1
**Human/Psychological Aspects**

### Chapter 1
Well-Being, Wisdom, Health, and IT: From the Big-Picture to the Small-Picture................................. 1  
*Andrew Targowski, Western Michigan University, USA*

### Chapter 2
Fostering Psychological Coherence: With ICTs .................................................................................... 29  
*Stephen Brock Schafer, DigiPen Institute of Technology, USA*

### Chapter 3
Playing for Better or for Worse?: Health and Social Outcomes with Electronic Gaming............... 48  
*Patrícia Arriaga, ISCTE-Instituto Universitário de Lisboa, Cis-IUL, Portugal*  
*Francisco Esteves, Mid Sweden University, Sweden & Cis-IUL, Portugal*  
*Sara Fernandes, University Institute of Lisbon, Portugal*

### Chapter 4
The Psychosocial Impact of ICT Efficiency on Speech Disorders-Treatment ................................. 70  
*Iolanda Tobolcea, Alexandru Ioan Cuza University of Iasi, Romania*

### Chapter 5
Information Challenges of the Deaf in their Health and Social Care Needs ................................. 93  
*Cayley Guimarães, Federal University of Paraná, Brazil*  
*Diego Roberto Antunes, Federal University of Paraná, Brazil*  
*Laura Sánchez García, Federal University of Paraná, Brazil*  
*Sueli Fernandes, Federal University of Paraná, Brazil*
Chapter 6
Assistive Technology for Cognition: Enabling Activities of Daily Living

Catherine Best, University of Stirling, UK
Brian O’Neill, Brain Injury Rehabilitation Trust, UK
Alex Gillespie, London School of Economics, UK

Chapter 7
The Effects of Electronic Medical Record (EMR) Use in Primary Care on the Physician-Patient Relationship

Shira Assis-Hassid, Ben-Gurion University of the Negev, Israel
Iris Reychav, Ariel University Center, Israel
Joseph S. Pliskin, Ben-Gurion University of the Negev, Israel
Tsipi Heart, Ben-Gurion University of the Negev, Israel

Chapter 8
Cultivating Chan as Proactive Therapy for Social Wellness

Hong Lin, University of Houston, USA

Section 2
Emerging Trends on the Social and Healthcare Sectors

Chapter 9
Social Networks as a Tool to Improve the Life Quality of Chronic Patients and Their Relatives

Miguel Guinaliu, University of Zaragoza, Spain
Javier Marta, Hospital Universitario Miguel Servet, Spain
José María Subero, Aragón Government, Spain

Chapter 10
Community Networks: Infrastructure and Models for Therapeutic Support

John M. Carroll, Pennsylvania State University, USA
Mary Beth Rosson, Pennsylvania State University, USA

Chapter 11
Security of ICTs Supporting Healthcare Activities

José Manuel Gaivéo, School of Business and Administration of Polytechnic Institute of Setubal, Portugal

Chapter 12
Directions for ICT Research in Disease Prevention

Marco Nalin, Fondazione Centro San Raffaele, Italy
Monica Verga, Fondazione Centro San Raffaele, Italy
Alberto Sanna, Fondazione Centro San Raffaele, Italy
Niilo Saranummi, VTT Technical Research Center of Finland, Finland
Chapter 13
Emerging ICT Challenges on Provision of Online HIV/AIDS Advisory Services ................................. 248
Simon Samwel Msanjila, Mzumbe University, Tanzania

Chapter 14
Does IT Bring Hope for Wellbeing? ........................................................................................................... 270
Daniel Novák, Czech Technical University in Prague, Czech Republic
Olga Štěpánková, Czech Technical University in Prague, Czech Republic
Sébastien Rousseaux, Wallon Project and SPES Project, Belgium
Massimo Busuoli, ENEA, Belgium
Marco Carulli, ENEA, Belgium
Gianluca D’Agosta, ENEA, Italy
Teresa Gallelli, University of Bologna, Italy
Miroslav Uller, Czech Technical University in Prague, Czech Republic
Miloš Mráz, Charles University, Czech Republic
Martin Haluzík, Charles University in Prague, Czech Republic
Paul Richter, Newcastle University, UK
Mike Martin, Newcastle University, UK
Rob Wilson, Newcastle University, UK
Marzia Bettocchi, Bologna Municipality, Italy
Tiziana Mucci, National Council of Research, Italy
Emanuela Pipitone, University of Modena and Reggio Emilia, Italy
Claudio Lamberti, University of Bologna, Italy
Anunziata Siena, Processes Innovation Unit of Local Health Authority, Italy
Carlo Descovich, Bologna Health Authority, Italy
Boris Dvořáček, DEEP, Czech Republic
Christine Petioky, Vienna Social Fund, Austria
František Babič, Technical University of Košice, Slovak Republic
Marek Lenart, University of Vienna, Austria
Alexander Wöhrer, University of Vienna, Austria

Chapter 15
Low Cost T-Health and T-Social with Ginga: Experience with Mime TV, ImFine, and iFunnyCube Interactive TV Programs ........................................................................................................... 303
Aquiles Medeiros Filgueira Burlamaqui, UFRN, Brazil
Samuel Oliveira Azevedo, UFRN, Brazil
Igor Rosberg de Medeiros Silva, UFRN, Brazil
Sarah Raquel da Rocha Silva, UFRN, Brazil
Gustavo Henrique Souto da Silva, UFRN, Brazil
Xiankleber Cavalcante Benjamim, UFRN, Brazil
Ricardo Alexandre da Rocha Dias, UFRN, Brazil
Hugo Tacito Azevedo de Sena, UFRN, Brazil
Diogo Henrique Duarte Bezerra, UFPB, Brazil
Clezio Lima Azevedo, UFERSA, Brazil
Angélica Felix de Castro, UFERSA, Brazil
Section 3
Developments and Applications in Social Care Services

Chapter 16
Elderly Care Cost Control using Observation, Assessment, and Decision-Making ............................................. 320
Patrik Eklund, Umeå University, Sweden

Chapter 17
Privacy and Data Protection towards Elderly Healthcare .................................................................................... 330
Ángelo Costa, University of Minho, Portugal
Francisco Andrade, University of Minho, Portugal
Paulo Novais, University of Minho, Portugal

Chapter 18
The Study of Social Needs as a Strategic Tool for the Innovation of the Social Care Sector: The Contribution of New Technologies ........................................................................................................ 347
Cristina Albuquerque, University of Coimbra, Portugal

Chapter 19
Resilience and Psychomotricity in Preschool Education: A Study with Children that are Socially, Culturally, and Economically Disadvantaged ......................................................................................... 366
Maria de Lurdes Cró, College of Education, Polytechnic Institution of Coimbra, Portugal
Lívia Andreucci, University of Aveiro, Portugal
Ana Mafalda Pinho, University of Coimbra, Portugal
Anabela Pereira, University of Aveiro, Portugal

Chapter 20
Independent Living Support for Disabled and Elderly People using Cell Phones .............................................. 379
Begoña García Zapirain, University of Deusto, Spain
Amaia Mendez Zorrilla, University of Deusto, Spain

Volume II

Section 4
Enabling Technologies/Technological Developments

Chapter 21
Cyber Capability Framework: A Tool to Evaluate ICT for Development Projects .............................................. 399
Shib Shankar Dasgupta, Greneworks.org, USA

Chapter 22
A Review of Notifications Systems in Elder Care Environments: Challenges and Opportunities ..... 407
Sandra Nava-Muñoz, UABC, Mexico & UASLP, Mexico
Alberto L. Morán, UABC, México
Chapter 23
Augmented Reality Framework for the Socialization between Elderly People ........................................ 430
Luis Almeida, Institute of Systems and Robotics, Portugal
Paulo Menezes, Institute of Systems and Robotics, Portugal
Jorge Dias, Institute of Systems and Robotics, Portugal

Chapter 24
Fall Detection Systems to be Used by Elderly People.............................................................................. 449
Getúlio Igrejas, ESTiG, Polytechnic Institute of Bragança, Portugal
Joana S. Amaral, REQUIMTE, Faculty of Pharmacy, University of Porto & ESTiG, Polytechnic Institute of Bragança, Portugal
Pedro J. S. Rodrigues, ESTiG, Polytechnic Institute of Bragança, Portugal

Chapter 25
Searching Health Information in Question-Answering Systems................................................................. 474
María-Dolores Olvera-Lobo, CSIC, Spain & Universidad de Granada, Spain
Juncal Gutiérrez-Artacho, Universidad de Granada, Spain & Universidad Pablo de Olavide, Spain

Chapter 26
Identifying Requirements for Healthcare Information Systems with Focus Groups.................................. 491
Carla Farinha, Opensoft/IST, Portugal
Miguel Mira da Silva, INOV/IST, Portugal

Chapter 27
Organ Donation and Transplantation: Processes, Registries, Consent, and Restrictions in Saudi Arabia............................................................................................................. 511
Sherifa Al-Dossary, King Saud bin Abdulaziz University for Health Sciences, Saudi Arabia
Norah Al-Dulajian, King Saud bin Abdulaziz University for Health Sciences, Saudi Arabia
Shahe Al-Mansour, King Saud bin Abdulaziz University for Health Sciences, Saudi Arabia
Shroooq Al-Zahrani, King Saud bin Abdulaziz University for Health Sciences, Saudi Arabia
Manahil Al-Fridan, King Saud bin Abdulaziz University for Health Sciences, Saudi Arabia
Mowafa Househ, King Saud bin Abdulaziz University for Health Sciences, Saudi Arabia

Chapter 28
Electronic Health Record Proposal for Long-Term Preservation............................................................ 529
Juanjo Bote, University of Barcelona, Spain

Chapter 29
Using Multi-Agent Systems to Support e-Health Services........................................................................ 549
Federico Bergenti, Università di Parma, Italy
Agostino Poggi, Università di Parma, Italy
Michele Tomaiuolo, Università di Parma, Italy
Chapter 30
A Conceptual Framework for the Design and Development of AAL Services ................................. 568
    Alexandra Queirós, University of Aveiro, Portugal
    Joaquim Alvarelhão, University of Aveiro, Portugal
    Anabela G. Silva, University of Aveiro, Portugal
    António Teixeira, University of Aveiro, Portugal
    Nelson Pacheco da Rocha, University of Aveiro, Portugal

Chapter 31
A Survey on Health Care Services Using Wireless Sensor Networks ............................................. 587
    Sunilkumar S. Manvi, REVA Institute of Technology and Management, India
    Manjula R. B., REVA Institute of Technology and Management, India

Chapter 32
Medical Information Extraction in European Portuguese .............................................................. 607
    Liliana Ferreira, University of Aveiro, Portugal
    António Teixeira, University of Aveiro, Portugal
    João Paulo Silva Cunha, University of Aveiro, Portugal

Chapter 33
ICT Use and Multidisciplinary Healthcare Teams ......................................................................... 627
    Juliann C. Scholl, Texas Tech, USA
    Bolanle A. Olaniran, Texas Tech, USA

Chapter 34
ICTs for Orientation and Mobility for Blind People: A State of the Art ....................................... 646
    Pablo Revuelta Sanz, Universidad Carlos III, Spain
    Belén Ruiz Mezcua, Universidad Carlos III, Spain
    José M. Sánchez Pena, Universidad Carlos III, Spain

Chapter 35
Contribution to Mobility and Orientation Teaching Programs: Assistive Technology Equipment and Tests Methodology ....................................................................................................... 670
    Renato Fonseca Livramento da Silva, Universidade Federal da Paraíba, Brazil
    Alejandro Rafael García Ramirez, Universidade do Vale de Itajai, Brazil

Chapter 36
New Electro-Optic and Display Technology for Visually Disabled People ...................................... 687
    Ricardo Vergaz Benito, Carlos III University of Madrid, Spain
    César Vega-Colado, Carlos III University of Madrid, Spain
    María Begoña Coco, University of Valladolid, Spain
    Rubén Cuadrado, University of Valladolid, Spain
    Juan Carlos Torres-Zafría, Carlos III University of Madrid, Spain
    José M. Sánchez-Pena, Carlos III University of Madrid, Spain
    Rosa Coco, University of Valladolid, Spain
    Alberto López-Miguel, University of Valladolid, Spain
Chapter 37
Technical Perspective of Authentication Policy Extension for the Adaptive Social Services and e-Health Care Management .............................................................. 719
  Masakazu Ohashi, Chuo University, Japan
  Nat Sakimura, Nomura Research Institute, Japan
  Mituo Fujimoto, Nomura Research Institute, Japan
  Mayumi Hori, Hakuoh University, Japan
  Noriko Kurata, Chuo University, Japan

Chapter 38
On the Development of a Multi-Modal Autonomous Wheelchair ........................................ 727
  Andrea Bonarini, Politecnico di Milano, Italy
  Simone Ceriani, Politecnico di Milano, Italy
  Giulio Fontana, Politecnico di Milano, Italy
  Matteo Matteucci, Politecnico di Milano, Italy

Chapter 39
Interoperability of Medical Devices and Information Systems ........................................ 749
  Lenka Lhotska, Czech Technical University in Prague, Czech Republic
  Miroslav Bursa, Czech Technical University in Prague, Czech Republic
  Michal Huptych, Czech Technical University in Prague, Czech Republic
  Vaclav Chudacek, Czech Technical University in Prague, Czech Republic
  Jan Havlik, Czech Technical University in Prague, Czech Republic

Chapter 40
Enhancing Autonomy in Persons with Intellectual Impairments by Means of ICT Tools ........... 763
  Yolanda de la Fuente, University of Jaén, Spain
  Eva Sotomayor, University of Jaén, Spain
  Dolores Escarabajal, University of Jaén, Spain
  Samuel Romero, University of Granada, Spain
  María del Carmen González, University of Granada, Spain

Chapter 41
New Trends in Healthcare Information Systems (HIS) Integration ........................................ 784
  Konstantinos Koumaditis, University of Piraeus, Greece
  Marinos Themistocleous, University of Piraeus, Greece & University of Coimbra, Portugal
  Vincenzo Morabito, University of Bocconi, Italy
