Table of Contents

Preface ................................................................................................................................................xxii

Volume I

Section 1
Fundamental Concepts and Theories

This section introduces readers to some of the primary fields within Enterprise Resource Planning. The following chapters provide an overview of key functional areas and components of ERP systems, which are applicable to a variety of business and entrepreneurial organizations. Topics covered include Project Management, Workflow Management, Customer Relationship Management, and Information Security. In the opening 13 chapters of the extensive reference source, readers will obtain a clear understanding of the fundamental concepts and theories integral to the field of Enterprise Resource Planning.

Chapter 1
ERP Adoption: Is it Worth the Investment? .................................................................................. 1
  Jorge A. Romero, Towson University, USA

Chapter 2
Critical Success Factors in Enterprise Resource Planning Implementation: A Case-Study Approach .............................................................................................................. 10
  Behrouz Zarei, University of Tehran, Iran
  Mina Naeli, University of Tehran, Iran

Chapter 3
Measuring Utilization of ERP Systems Usage in SMEs ............................................................... 22
  Hedman Jonas, Copenhagen Business School, Denmark
  Johansson Björn, Lund University, Sweden
Chapter 4
Key Aspects of Free and Open Source Enterprise Resource Planning Systems
Rogerio Atem de Carvalho, Instituto Federal Fluminense, Brazil
Björn Johansson, Lund University, Sweden

Chapter 5
Developing Business Model with Open Source Enterprise Resource Planning
Swanand J. Deodhar, Management Development Institute, India
Kulbhushan C. Saxena, Management Development Institute, India
Rajen Gupta, Management Development Institute, India
Mikko Ruohonen, University of Tampere, Finland

Chapter 6
An Exploratory Investigation of the Barriers to the Adoption of Open Source ERP by Belgian SMEs
Kris Ven, University of Antwerp, Belgium
Dieter Van Nuffel, University of Antwerp, Belgium

Chapter 7
Managing Software Projects with Team Software Process (TSP)
Salmiza Saul Hamid, Two Sigma Technologies, Malaysia & University of Malaya, Malaysia
Mohd Hairul Nizam Md Nasir, University of Malaya, Malaysia
Shamsul Sahibuddin, Universiti Teknologi Malaysia, Malaysia
Mustaffa Kamal Mohd Nor, University of Malaya, Malaysia

Chapter 8
Fundamental Building Blocks for Security Interoperability in e-Business
Muhammad Asim, Philips Electronics, The Netherlands
Milan Petković, Philips Electronics, The Netherlands & Eindhoven University of Technology, The Netherlands

Chapter 9
Workflow Management Systems in Distributed Environments
Spyridon V. Gogouvitis, National Technical University of Athens, Greece
Kleopatra G. Konstanteli, National Technical University of Athens, Greece
Dimosthenis P. Kyriazis, National Technical University of Athens, Greece
Gregory Katsaros, National Technical University of Athens, Greece
Tommaso Cucinotta, Scuola Superiore Sant’Anna, Italy
Michael Boniface, University of Southampton IT Innovation Centre, UK

Chapter 10
Knowledge Management Processes in Enterprise Systems: A Systematic Literature Review
Razatulshima Ghazali, Universiti Teknologi Malaysia, Malaysia
Nor Hidayati Zakaria, Universiti Teknologi Malaysia, Malaysia
Chapter 11
Enterprise Resource Planning Systems in Higher Education ......................................................... 182
Melissa J. Haab, Alabama Southern Community College, USA
Sharon F. Cramer, Buffalo State College, USA

Chapter 12
CRM for Academic Institution and Universities ................................................................................ 198
Viral Nagori, GLS Institute of Computer Technology, India

Chapter 13
Integrating Customer Relationship Management, Performance Management, and Knowledge Management through Balanced Scorecard ................................................................. 205
Anthony Liew, Capital Motors Inc. Taiwan

Section 2
Tools and Technologies
This section expands upon the contents of Section 1 by exploring particular methods of utilizing diverse organizational strategies in new and existing Enterprise Resource Planning systems. Within these chapters, the authors explore architectures and models to make the most of existing methodologies in CRM, enterprise systems, and project management, among others. In particular, strategic designs, evolutionary architectures, information systems, and steady-state frameworks comprise the foundational issues discussed in this section. The 15 chapters that make up this section explore the development and design methodologies that bridge the gap between fundamental concepts and real-world applications in Enterprise Resource Planning.

Chapter 14
Customer Relationship Management (CRM) Implementation Intensity and Performance: A Study of Web-Hosting Companies ................................................................. 233
Bryan Soh Yuen Liew, M Niche Online Solution, Malaysia
T. Ramayah, Universiti Sains Malaysia, Malaysia
Jasmine Yeap Ai Leen, Universiti Sains Malaysia, Malaysia

Chapter 15
The Use of Customer Relationship Management Software in Meta-Enterprises for Virtual Enterprise Integration ........................................................................................................... 245
Maria Manuela Cruz-Cunha, Polytechnic Institute of Cávado and Ave, Portugal
Goran D. Putnik, University of Minho, Portugal
João Varajão, University of Trás-os-Montes e Alto Douro, Portugal

Chapter 16
Evolutionary Architecting of Embedded and Enterprise Software and Systems ............................ 260
Jakob Axelsson, Swedish Institute of Computer Science, Sweden & Mälardalen University, Sweden
Chapter 17
A Steady-State Framework for Integrated Business Change and Information Systems Development and Maintenance

Simon McGinnes, Trinity College Dublin, Ireland

Chapter 18
A Transaction-Oriented Architecture for Structuring Unstructured Information in Enterprise Applications

Simon Polovina, Sheffield Hallam University, UK
Simon Andrews, Sheffield Hallam University, UK

Chapter 19
Architecture for Integration and Migration of Information Systems by Using SOA Services across Heterogeneous System Boundaries

Lars Frank, Copenhagen Business School, Denmark
Rasmus Ulslev Pedersen, Copenhagen Business School, Denmark

Chapter 20
Prioritizing Packaged Software Implementation Projects: The Significance of Gaps

Nicholas J. Rowland, Pennsylvania State University, USA

Chapter 21
Strategic Ethnography and the Biography of Artefacts

Neil Pollock, University of Edinburgh, UK
Robin Williams, University of Edinburgh, UK

Chapter 22
A New Dynamic Framework for Managing ERP Development and Enterprise Strategy

Ben Clegg, Aston University, UK
Yi Wan, Aston University, UK

Chapter 23
Enterprise Resource Planning Acceptance Model (ERPAM): Extended TAM for ERP Systems in Operational Phase of ERP Lifecycle

Simona Sternad, University of Maribor, Slovenia
Samo Bobek, University of Maribor, Slovenia

Chapter 24
Structuring Knowledge for Enterprise Resource Planning Implementation through an Ontology

Hamid Nach, Université de Québec à Rimouski, Canada

Chapter 25
Establishing and Verifying a Risk Ontology for Surfacing ERP Post-Implementation Risks

Guo Chao Alex Peng, University of Sheffield, UK
Miguel Baptista Nunes, University of Sheffield, UK
Chapter 26
Design, Development, and Implementation of an ERP Security Course ........................................ 475
Theodosios Tsiakis, Alexandrian Technological Educational Institute of Thessaloniki, Greece
Theodoros Kargidis, Alexandrian Technological Educational Institute of Thessaloniki, Greece

Chapter 27
Mapping and Data Base Modeling for Public Sector Strategic Enterprise Resource Planning .......... 486
J.D. Thomson, RMIT University, Australia

Chapter 28
Project Management-Based Design for Online Learning ................................................................. 500
Gulsun Eby, Anadolu University, Turkey
T. Volkan Yuzer, Anadolu University, Turkey

Section 3
Frameworks and Methodologies

This section covers some of the myriad ways that Enterprise Resource Planning technologies can be applied to business, education, and governmental organizations. The majority of the chapters in this section focus on online and blended education in secondary and post-secondary environments, proving how present concerns in student development have direct implications on future business success. This section analyzes project management in online programs, the development of ERP curricula, using open source technologies in global business practices, and more. The 16 chapters in this section provide an in-depth examination of the utilization and application of the fundamental principles of Enterprise Resource Planning.

Chapter 29
Project Management for a University-Sponsored Online High School: An Evaluation of the First Year of Implementation ........................................................ ......................................................... 512
Bryce L. Walker, The George Washington University, USA
Nicholas D. Hartlep, Illinois State University, USA

Volume II

Chapter 30
eTTCampus: Innovative Approaches to Process Evaluation.......................................................... 528
David E. Gray, University of Surrey, UK
Malcolm Ryan, University of Greenwich, UK

Chapter 31
Developing Professional Competence in Project Management Using E-Simulation on Campus ..... 541
Ian Searle, RMIT University, Australia
Hossein Zadeh, RMIT University, Australia
Chapter 32
Adaptive Learning Cycle to Improve the Competence-Building for Enterprise Systems in Higher Education .......................................................... 557
Dirk Peters, Carl von Ossietzky Universität Oldenburg, Germany
Liane Haak, Carl von Ossietzky Universität Oldenburg, Germany
Jorge Marx Gómez, Carl von Ossietzky Universität Oldenburg, Germany

Chapter 33
Learn to Learn to Integrate ERP-Systems and Content Knowledge Using Problem Based Learning and Cases: A Swedish Business School’s Experiences ........................................ 581
Annika Andersson, Umea University, Sweden

Chapter 34
Cost Estimation in E-Learning Design Project Management ........................................ 596
Mediha Tezcan, Anadolu University, Turkey

Chapter 35
ERP Promises in the United Arab Emirates Educational Sector: A Descriptive Analysis of ERP Usage and Utilization ................................................................. 611
Rima Shishakly, Ajman University of Science and Technology, UAE

Chapter 36
ERP Systems in Arab Education Sector: Towards Improved Implementation and Utilization ....... 620
Bashaer Al Kilani, Institute of Applied Technology, UAE
Souha Adlouni, Al Rowdah Academy, UAE
Sara Al Ahbabi, Abu Dhabi Education Council, UAE
Zainab Al Yahyaei, Abu Dhabi Education Council, UAE

Chapter 37
An Analytical Survey of Free/Open Source ERP Systems and their Potential Marketplace in Brazil ................................................................. 636
Marcelo Monsores, Federal University of the Rio de Janeiro State (UNIRIO), Brazil
Asterio Tanaka, Federal University of the Rio de Janeiro State (UNIRIO), Brazil

Chapter 38
E-Government Management Practice: Enterprise Resource Planning .......................... 651
John Douglas Thomson, RMIT University, Melbourne, Australia

Chapter 39
Advantages, Limitations, and Solutions in the Use of ERP Systems: A Case Study in the Hospitality Industry ................................................................. 665
Paula Serdeira Azevedo, Universidade do Algarve, Portugal
Mário Romão, Instituto Universitário de Lisboa, Portugal
Efigénio Rebelo, Universidade do Algarve, Portugal
Chapter 40
The Use of Experts Panels in ERP Cost Estimation Research ......................................................... 675
Ahmed Elragal, German University in Cairo, Egypt
Moutaz Haddara, University of Agder, Norway

Chapter 41
Using ICT to Overcome Constraints in the Agriculture Value Chain: Emerging Trends in Ghana ........................................................................................................................................ 689
Siegfried Kofi Debrah, International Fertilizer Development Corporation, Ghana
Isaac Kwadwo Asare, International Fertilizer Development Corporation, Ghana

Chapter 42
University of Ottawa Department of Family Medicine Faculty Development Curriculum Framework ........................................................................................................................................ 700
Colla J. MacDonald, University of Ottawa, Canada
Martha McKeen, University of Ottawa, Canada
Donna Leith-Gudbranson, University of Ottawa, Canada
Madeleine Montpetit, University of Ottawa, Canada
Douglas Archibald, University of Ottawa, Canada
Christine Rivet, University of Ottawa, Canada
Rebecca Hogue, University of Ottawa, Canada
Mike Hirsh, University of Ottawa, Canada

Chapter 43
Building Efficient Assessment Applications with Personalized Feedback: A Model for Requirement Specifications ....................................................................................................................... 718
Constanta-Nicoleta Bodea, Academy of Economic Studies, Romania
Maria-Iuliana Dascalu, Academy of Economic Studies, Romania

Chapter 44
Sharon Q. Yang, Rider University, USA
Amanda Xu, Middle Tennessee State University, USA

Section 4
Cases and Applications
This section focuses on the impact of Enterprise Resource Planning implementation on businesses and organizations across various disciplines. To be most effective, business managers must pay close attention to the impact of unanticipated developments both within and external to their organizations. With chapters on information security, web 2.0, cross-cultural teamwork, and mobile technologies, this section prepares leaders for such occurrences. In these 14 chapters, readers will find an in-depth discussion on some of the most pressing organizational and social implications of Enterprise Resource Planning.
Chapter 45
Why Select an Open Source ERP over Proprietary ERP? A Focus on SMEs and Supplier’s Perspective
Nasimul Huq, Jönköping University, Sweden
Syed Mushtaq Ali Shah, Jönköping University, Sweden
Daniela Mihailescu, Jönköping University, Sweden
Page 766

Chapter 46
Security Management Issues for Open Source ERP in the NGN Environment
Mirjana Stojanovic, University of Belgrade, Serbia
Vladanka Acimovic-Raspopovic, University of Belgrade, Serbia
Slavica Bostjancic Rakas, University of Belgrade, Serbia
Page 789

Chapter 47
Consequences of Disruptive Technology: A Review of New Management Practices and Human Capability
Güera Massyn Romo, University of Johannesburg, South Africa
Page 805

Chapter 48
Information Security Threats in ERP Enabled E-Governance: Challenges and Solutions
Geetanjali Sahi, Lal Bahadur Shastri Institute of Management, Delhi, India
Sushila Madan, Lady Sri Ram College, University of Delhi, India
Page 825

Chapter 49
Mobile Information Communication Technologies and Construction Project Management: Indian Scenario Case Study
Vanita Ahuja, Project Management Consultant, Teacher and Trainer, India
Page 838

Chapter 50
The Engineering Project as Story and Narrative
Lars Bo Henriksen, Aalborg University, Denmark
Page 854

Chapter 51
Preparing People to Manage, Support and Use Enterprise Systems in an Arabian Gulf Context
Hamed Salim Al-Hinai, University of Sunderland, UK
Helen Edwards, University of Sunderland, UK
Page 866

Chapter 52
Mapping a Typology for Identifying the Culturally-Related Challenges of Global Virtual Teams: A Research Perspective
Norhayati Zakaria, University of Wollongong in Dubai, UAE
Andrea Amelinckx, University of Lethbridge, Canada
David Wilemon, Syracuse University, USA
Page 883
Section 5

Issues and Challenges

This section assesses strategies, techniques, and applications in one of Enterprise Resource Planning’s most impactful functional areas: project management. In ERP systems, managing projects and managing employees both contribute to the overall success of an organization, often in equal measure. While project management is the primary focus of the chapters in this section, related topics include areas such as green IT, healthcare, and organizational change. This section’s 13 chapters examine the managerial impact of key topics in the field of Enterprise Resource Planning.
Chapter 59
Project Management Practices and Project Manager Traits as a Key to Successful Information Systems Implementation

Evon M. O. Abu-Taieh, Arab International University, Syria
Jeihan M. Abu-Tayeh, USAID, Jordan
Alia Abu-Tayeh, Jordan University, Jordan

Chapter 60
Enterprise Information Systems Adoption in Iberian Large Companies: Motivations and Trends

António Trigo, Coimbra Institute of Accounting and Administration, Portugal
João Varajão, Universidade de Trás-os-Montes e Alto Douro, Portugal & Centro ALGORITMI, Universidade do Minho, Portugal
João Barros, Grupo de Investigação em Engenharia do Conhecimento e Apoio à Decisão, Instituto Superior de Engenharia do Porto, Portugal
Pedro Soto-Acosta, University of Murcia, Campus de Espinardo, Spain
Francisco J. Molina-Castillo, University of Murcia, Campus de Espinardo, Spain
Nicolas Gonzalvez-Gallego, University of Murcia, Campus de Espinardo, Spain

Volume III

Chapter 61
The Role of Management Consultants in Long-Term ERP Customization Trajectories: A Case from the Italian Local Government

Gian Marco Campagnolo, University of Edinburgh, UK

Chapter 62
Green IT Project Management: Optimizing the Value of Green IT Projects within Organizations

Nathalie Bachour, PRINCE2/MSP Practitioner, France

Chapter 63
A Multi-Agent Knowledge Management System for Reactive and Proactive Knowledge Supply

Carlos M. Toledo, Institute of Development and Design, Argentina & National Council of Scientific and Technological Research, Argentina
Omar Chiotti, Institute of Development and Design, Argentina & National Council of Scientific and Technological Research, Argentina
Maria R. Galli, Institute of Development and Design, Argentina & National Council of Scientific and Technological Research, Argentina
Chapter 64
Management Practices in Exploration and Production Industry ................................................. 1120
Kashif Saeed, Wintershall Holding GmbH – Kassel, Germany
Georg Ziegler, Wintershall Holding GmbH – Kassel, Germany
Muhammad Kashif Yaqoob, Mubadala Petroleum – Abu Dhabi, UAE

Chapter 65
On Predicting the Results of Applying Workflow Management in a Healthcare Context ............ 1155
Bob Chermin, Eindhoven University of Technology, The Netherlands
Ingmar Frey, Eindhoven University of Technology, The Netherlands
Hajo Reijers, Eindhoven University of Technology, The Netherlands
Harm Smeets, Bronovo Hospital, The Hague, The Netherlands

Chapter 66
A Survey of Scheduling and Management Techniques for Data-Intensive Application Workflows ........................................................................................................ 1170
Suraj Pandey, The Commonwealth Scientific and Industrial Research Organisation, Australia
Rajkumar Buyya, The University of Melbourne, Australia

Chapter 67
Predicting Temporal Exceptions in Concurrent Workflows ......................................................... 1191
Iok-Fai Leong, University of Macau, Macau
Yain-Whar Si, University of Macau, Macau
Robert P. Biuk-Aghai, University of Macau, Macau

Chapter 68
Quality of Service Monitoring, Diagnosis, and Adaptation for Service Level Management ........ 1213
Guijun Wang, Boeing Research & Technology, USA
Changzhou Wang, Boeing Research & Technology, USA
Haiqin Wang, Boeing Research & Technology, USA
Rodolfo A. Santiago, Boeing Research & Technology, USA
Jingwen Jin, Boeing Research & Technology, USA
David Shaw, Boeing Research & Technology, USA

Chapter 69
So Into It They Forget What Time It Is? Video Game Designers and Unpaid Overtime ............ 1232
Marie-Josée Legault, Téluq-UQAM, Canada
Kathleen Ouellet, Université de Montréal, Canada

Chapter 70
Managing Organizational Change ................................................................................................ 1253
Martin L. Bariff, Illinois Institute of Technology, USA
Section 6
Emerging Trends

This section extrapolates future developments in the field of Enterprise Resource Planning from the research and information presented in the previous five sections. Managers and leaders must constantly seek to improve the efficiency and productivity of their processes, and new planning methods are at the forefront of such changes. Recent advances examined in this section include distributed workflows, serious games applications, free and open source ERP, and virtual project management. The final 12 chapters of this extensive 3-volume reference conclude with a detailed look at emerging trends in the field of Enterprise Resource Planning.

Chapter 72
Flexibility for Distributed Workflows

Manfred Reichert, University of Ulm, Germany
Thomas Bauer, Daimler AG, Germany
Peter Dadam, University of Ulm, Germany

Chapter 73
Workflow Management and Mobile Agents: How to Get the Best of Both Approaches

Antonio Corradi, University of Bologna, Italy
Alex Landini, Emil Data S.r.l., Italy
Stefano Monti, University of Bologna, Italy

Chapter 74
Training of Avatar Moderator in Sliding Mode Control Environment for Virtual Project Management

Vardan Mkrttchian, HHH Technology Inc., Australia
Galina Stephanova, Astrakhan State University, Russian Federation

Chapter 75
Innovative Approaches in Project Management Blended Education: A Case Study on Introducing Agent-Based Simulation in a Master Degree Program

Constanta Nicoleta Bodea, Academy of Economic Studies, Romania
Corneliu Alexandru Bodea, Carnegie Mellon University, USA
Augustin Purnus, Technical University of Civil Engineering, Romania
Ruxandra-Ileana Badea, Academy of Economic Studies, Romania
Chapter 76
Serious Games Applied to Project Management Teaching ................................................................. 1427
   André Raabe, Universidade do Vale do Itajai, Brazil
   Eliana Santos, Universidade do Vale do Itajai, Brazil
   Lauriana Paludo, Universidade do Vale do Itajai, Brazil
   Fabiane Benitti, Universidade do Vale do Itajai, Brazil

Chapter 77
Knowledge Management and Project Management in 3D: A Virtual World Extension ....................... 1452
   Steve Russell, Siemens Corporate Research, USA

Chapter 78
Free and Open Source ERP: Distinction, Direction, Co-Existence, and Potentials .............................. 1468
   Torben Tambo, Aarhus University, Denmark
   Christian Koch, Aarhus University, Denmark

Chapter 79
Institutional Knowledge Repositories: Enterprise Content Management in Academics ..................... 1485
   Gayatri Doctor, CEPT University, India

Chapter 80
Sentiment Analysis in Business Intelligence: A Survey ......................................................................... 1500
   Laura Plaza, Universidad Complutense de Madrid, Spain
   Jorge Carrillo de Albornoz, Universidad Complutense de Madrid, Spain

Chapter 81
Considerations of Adapting Service-Offering Components to RESTful Architectures ....................... 1522
   Michael Athanasopoulos, National Technical University of Athens, Greece
   Kostas Kontogiannis, National Technical University of Athens, Greece
   Chris Brealey, IBM Canada, Canada

Chapter 82
The Role of Emerging Technologies in Developing and Sustaining Diverse Suppliers in
Competitive Markets .............................................................................................................................. 1550
   Alvin J. Williams, University of South Alabama, USA

Chapter 83
A Framework for Enabling Dynamic E-Business Strategies via new Enterprise Paradigms and
ERP Solutions ........................................................................................................................................ 1561
   Yi Wan, Aston University, UK
   Ben Clegg, Aston University, UK
   Prasanta Dey, Aston University, UK

Index.................................................................................................................................................. xxv
