# Table of Contents

**Preface** ........................................................................................................................................................................... xiv

**Chapter 1**
Aesthetics in Data Visualization: Case Studies and Design Issues................................................................. 1  
*Heekyoung Jung, University of Cincinnati, USA*
*Tanyoung Kim, Georgia Institute of Technology, USA*
*Yang Yang, Dublin City University, Ireland*
*Luis Carli, University of São Paulo, Brazil*
*Marco Carnesecchi, Università della Valle d’Aosta, Italy & Università di Siena, Italy*
*Antonio Rizzo, Università di Siena, Italy*
*Cathal Gurrin, Dublin City University, Ireland*

**Chapter 2**
A Visual Analytics Approach for Correlation, Classification, and Regression Analysis ................................. 25  
*Chad A. Steed, Oak Ridge National Laboratory, USA*
*J. Edward Swan II, Mississippi State University, USA*
*Patrick J. Fitzpatrick, Mississippi State University, USA*
*T.J. Jankun-Kelly, Mississippi State University, USA*

**Chapter 3**
Understanding Spatial and Non-Spatial Cues in Representing Categorical Information ................................. 46  
*Moonyati Yatid, University of Sydney, Australia*
*Masahiro Takatsuka, University of Sydney, Australia*

**Chapter 4**
Feature-Based Uncertainty Visualization ......................................................................................................................... 68  
*Keqin Wu, University of Maryland Baltimore County, USA*
*Song Zhang, Mississippi State University, USA*

**Chapter 5**
Cognitive Processes and Traits Related to Graphic Comprehension ................................................................. 94  
*Angela M. Zoss, Duke University, USA*
Chapter 6
Virtual Reality Technologies (Visual, Haptics, and Audio) in Large Datasets Analysis

Bob-Antoine J. Menelas, University of Quebec at Chicoutimi, Canada

Chapter 7
The Importance of Visualization and Interaction in the Anomaly Detection Process

Maria Riveiro, University of Skövde, Skövde, Sweden

Chapter 8
Understanding Collections and Their Implicit Structures through Information Visualization

J. Alfredo Sánchez, Universidad de las Américas Puebla, Mexico

Chapter 9
Highlighting in Visual Data Analytics

Mao Lin Huang, University of Technology, Sydney, Australia
Jie Liang, University of Technology, Sydney, Australia
Weidong Huang, CSIRO ICT Centre, Sydney, Australia

Chapter 10
The Quest for Clarity: How Visualization Improves the Usability and User Experience of Contracts

Stefania Passera, Aalto University School of Science, Finland
Helena Haapio, University of Vaasa, Finland & Lexpert Ltd., Finland

Chapter 11
Articulate: Creating Meaningful Visualizations from Natural Language

Yiwen Sun, University of Illinois at Chicago, USA
Jason Leigh, University of Illinois at Chicago, USA
Andrew Johnson, University of Illinois at Chicago, USA
Barbara Di Eugenio, University of Illinois at Chicago, USA

Chapter 12
Visualization of Human Behavior Data: The Quantified Self

Alessandro Marcengo, Telecom Italia, Italy
Amon Rapp, University of Torino, Italy

Chapter 13
From Data-Centered to Activity-Centered Geospatial Visualizations

Olga Buchel, Western University, Canada
Kamran Sedig, Western University, Canada

Chapter 14
An Information Visualization-Based Approach for Exploring Databases: A Case Study for Learning Management Systems

Celmar Guimarães da Silva, University of Campinas, Brazil
Chapter 15
Visualizing Information-Triage: A Speculative and Metaphoric Interface for Making Sense of Online Searching ................................................................. 316
Liese Zahabi, Weber State University, USA

Chapter 16
A Framework for Developing Diagram Applications .................................................. 339
Wei Lai, Swinburne University of Technology, Australia
Weidong Huang, CSIRO ICT Centre, Sydney, Australia

Chapter 17
Community Management Matters: Advanced Visual Analytics for Online Community Managers... 349
John McAuley, Trinity College, Ireland
Alex O’Connor, Trinity College, Ireland
Dave Lewis, Trinity College, Ireland

Chapter 18
A Programmer-Centric and Task-Optimized Object Graph Visualizer for Debuggers ............. 385
Anthony Savidis, Institute of Computer Science-FORTH, Greece
Nikos Koutsopoulos, Institute of Computer Science-FORTH, Greece

Compilation of References .......................................................................................... 397

About the Contributors .............................................................................................. 438

Index ............................................................................................................................. 446
