# Table of Contents

Preface ................................................................................................................................................... xvi

Acknowledgment ................................................................................................................................... xxv

**Section 1**

**Theoretical Considerations on IT Prosumption and Prosumers**

**Chapter 1**
The Challenges of the Prosumer as Entrepreneur in IT ................................................................. 1  
*Adriana Schiopoiu Burlea, University of Craiova, Romania*

**Chapter 2**
Improving IT Market Development through IT Solutions for Prosumers .................................... 16  
*Robert Costello, University of Hull, UK*

**Chapter 3**
Concept of User Experience and Issues to be Discussed ............................................................... 31  
*Masaaki Kurosu, The Open University of Japan, Japan*

**Chapter 4**
Evolution of End User Participation in IT Projects ........................................................................ 48  
*Marcin Sikorski, Gdańsk University of Technology, Poland*

**Chapter 5**
Enabling IT Innovation through Soft Systems Engineering ......................................................... 64  
*Marcel Jacques Simonette, Universidade de São Paulo, Brazil  
Edison Spina, Universidade de São Paulo, Brazil*

**Chapter 6**
Prosumer’s Responsibilities? On Stage to a Dedicated Framework for Services Sharing and  
Compliance in the Healthcare Domain ......................................................................................... 73  
*Abdelaziz Khadraoui, University of Geneva, Switzerland  
Damien Nicolas, Public Research Center Henri Tudor, Luxembourg  
Christophe Feltus, Public Research Center Henri Tudor, Luxembourg*
Section 2
Qualitative and Quantitative Research on IT Prosumption Development and Evaluation

Chapter 7
Web 2.0 and its Implications on Globally Competitive Business Model .................................................. 86
Sudhanshu Joshi, Doon University, India

Chapter 8
Exploring the Effects of Trust, Perceived Risk, and E-Services Systems on Public Services in E-Government .......................................................................................................................... 102
Lichun Chiang, National Cheng Kung University, Taiwan

Chapter 9
Information Technology Prosumption Acceptance by Business Information System Consultants....119
Małgorzata Pańkowska, University of Economics in Katowice, Poland

Chapter 10
Cognitive Authority Revisited in Web Social Interaction ................................................................. 142
Roberto Pereira, University of Campinas (UNICAMP), Brazil
Heiko Hornung, University of Campinas (UNICAMP), Brazil
M. Cecilia C. Baranauskas, University of Campinas (UNICAMP), Brazil

Chapter 11
Social Acceptability of Open Source Software by Example of the Ubuntu Operating System ....... 158
Mateusz Szołtysik, University of Economics in Katowice, Poland

Section 3
ICT Development for Prosumers and Produsers

Chapter 12
Users as Prosumers of PETs: The Challenge of Involving Users in the Creation of Privacy Enhancing Technologies .................................................................................................................. 178
Julio Angulo, Karlstad University, Sweden

Chapter 13
Harvesting Deep Web Data through Produser Involvement .......................................................... 200
Tomasz Kaczmarek, Poznań University of Economics, Poland
Dawid Grzegorz Węckowski, Poznań University of Economics, Poland

Chapter 14
User-Driven Documentation Building for the ERP System ............................................................... 222
Radosław Kowal, University of Economics in Katowice, Poland
Chapter 15
The Prosumer Paradigm for Life Cycle Assessment Services ................................................................. 234
Francesco Guerra, University of Modena and Reggio Emilia, Italy
Maurizio Vincini, University of Modena and Reggio Emilia, Italy

Section 4
ICT Prosumption Applications’ Review

Chapter 16
TRIZ Guidelines for Innovating E-Learning Environments with Respect to Prosuming ............... 248
El Hassan Bezzazi, Lille University, France

Chapter 17
Evaluating E-Learning from an End User Perspective .......................................................... 259
Robert Costello, University of Hull, UK

Chapter 18
Social Networks and Internet Communities in the Field of Geographic Information and Their Role in Open Data Government Initiatives ................................................................. 284
Paula Díaz, City University of Hong Kong, China
Joan Masó, CREA, Universitat Autònoma de Barcelona, Spain

Chapter 19
Reader-Centric Writing for a Prosumer Market: Effectively Using Professional Writers to Create and Maintain Content and Metadata in Digital Media ......................................................... 315
David Hailey, Utah State University, USA

Chapter 20
Learning Styles in E-Learning: Theoretical Framework and Selected Empirical Research Findings.................................................................................................................. 334
Ivana Šimonová, University of Hradec Králové, Czech Republic
Petra Poulová, University of Hradec Králové, Czech Republic
Martin Bilek, University of Hradec Králové, Czech Republic

Compilation of References ...................................................................................................................... 353

About the Contributors .......................................................................................................................... 380

Index .............................................................................................................................................. 387
