No work ever is completed without support, and this manuscript is no exception. The first special thanks and sincere gratitude go to the publisher (IGI Global) for giving us the opportunity to work on this book.

We would like also to express our sincere thanks to the members of the Editorial Advisory Board and reviewers for generously providing support in this book. We are very grateful for their helpful comments.

Our sincere thanks and deepest gratitude go to all contributors who have taken time out of their busy schedules to contribute to this publication.

Finally, an honorable mention goes to our families for their understanding, patience, and support for us in completing this important manuscript. Without their help we would face many difficulties while doing this.
