Modeling and Analysis of Enterprise Information Systems

Table of Contents

Preface ....................................................................................................................................................... vi

Chapter I
Implementation of Enterprise Resource Planning (ERP) Systems: Issues and Challenges ................................................................. 1
   Girish H. Subramanian, Penn State Harrisburg, USA
   Christopher S. Hoffer, Penn State Harrisburg, USA

Chapter II
Research Issues of the IT Productivity Paradox: Approaches, Limitations, and a Proposed Conceptual Framework ................................................................. 20
   Chuck C. H. Law, Chaoyang University of Technology, Taiwan
   Eric W. T. Ngai, The Hong Kong Polytechnic University, PR China

Chapter III
The Effects of Uncertainty on ERP-Controlled Manufacturing Supply Chains ......................................................................................... 63
   S. C. Lenny Koh, University of Sheffield, UK
   Angappa Gunasekaran, University of Massachusetts, USA

Chapter IV
Software Architectures and Requirements for a Web-Based Survey System ........... 87
   Dirk Baldwin, University of Wisconsin-Parkside, USA
   Suresh Chalasani, University of Wisconsin-Parkside, USA
Chapter V
Identity Theft and E-Fraud Driving CRM Information Exchanges ............... 110
  Alan D. Smith, Robert Morris University, USA
  Allen R. Lias, Robert Morris University, USA

Chapter VI
Pricing Outcomes in Dual-Channel Monopoly and Partial Duopoly ............. 134
  Farooq M. Sheikh, SUNY, USA
  M. Ruhul Amin, Bloomsburg University, USA
  Nafeez Amin, Tigris Strategies, Inc., USA

Chapter VII
Enterprise Information Systems and B2B E-Commerce:
Enhancing Secure Transactions Using XML .............................................. 150
  C. Richard Baker, Adelphi University, USA

Chapter VIII
Unleashing the Potential of SCM:
The Adoption of ERP in Large Danish Enterprises ................................. 167
  Charles Møller, Aarhus School of Business, Denmark

Chapter IX
Using Simulation to Evaluate Electronic Data Interchange ........................ 183
  Dothang Truong, Fayetteville State University, USA

Chapter X
Vertical Application Service Provision: An SME Perspective .................... 201
  Nigel J. Lockett, Lancaster University, UK
  David H. Brown, Lancaster University, UK

Chapter XI
Planning and Designing an Enterprise-Wide Database System for E-Business
.................................................................................................................. 224
  Alexander Y. Yap, Elon University, USA

Chapter XII
Toward Always-On Enterprise Information Systems ................................. 249
  Nijaz Bajgoric, Sarajevo University, Bosnia-Herzegovina

Chapter XIII
The Financial Appraisal Profile (FAP) Model for Evaluation of Enterprise-Wide Information Technology: A Case Example ...................... 284
  Frank Lefley, University of London, UK
  Joseph Sarkis, Clark University, USA
Chapter XIV
An Investigation of the Existence of Levels of Enterprise Integration .......... 311
   Delvin Grant, DePaul University, USA
   Qiange Tu, Rochester Institute of Technology, USA

Chapter XV
Analyzing Different Strategies to Enterprise System Adoption:
Re-Engineering-Led vs. Quick Deployment .................................................. 339
   Sue Newell, Bentley College, USA
   Jay Cooprider, Bentley College, USA
   Gary David, Bentley College, USA
   Linda Edelman, Bentley College, USA
   Traci Logan, Bentley College, USA

About the Authors ....................................................................................... 359

Index ........................................................................................................... 369
