Table of Contents

Foreword ........................................................................................................................................... xvii

Preface ............................................................................................................................................... xix

Acknowledgment ........................................................................................................................... xxiv

Chapter 1
Digital Library and Its Requirements in the Global World ................................................................. 1
   Surbhi Saini, Indira Gandhi National Open University (IGNOU), India

Chapter 2
Digital Information Management: Preserving Tomorrow’s Memory ............................................... 22
   Pawan R. Agrawal, Silvassa Institute of Higher Learning, India

Chapter 3
   Vijay Parashar, FET Library, Mody Institute of Technology & Science, India
   Mohan Lal Vishwakarma, FET Library, Mody Institute of Technology & Science, India
   Nisha Patle, FET Library, Mody Institute of Technology & Science, India

Chapter 4
Cloud Computing and Its Application to Information Centre .......................................................... 63
   Nihal Alam, The Energy and Resources Institute (TERI), India
   Ranjan Karmakar, The Energy and Resources Institute (TERI), India

Chapter 5
Application of Cloud Computing in Library Information Service Sector ........................................ 77
   Ajay Rawat, University of Petroleum & Energy Studies, India
   Praveen Kapoor, University of Petroleum & Energy Studies, India
   Rama Sushil, DIT University, India
Chapter 6
Planning and Implementation of Cloud Computing in NIT’s in India: Special Reference to VNIT ...
Ravikant M. Deshpande, Visvesvaraya National Institute of Technology, Nagpur, India
Bharati V Patle, Visvesvaraya National Institute of Technology, Nagpur, India
Ranjana D. Bhoskar, Visvesvaraya National Institute of Technology, Nagpur, India

Chapter 7
A New Framework for Building Academic Library through Cloud Computing .................. 107
Vijay Parashar, FET Library, Mody Institute of Technology & Science, India
Mohan Lal Vishwakarma, FET Library, Mody Institute of Technology & Science, India
Reema Parashar, FET Library, Mody Institute of Technology & Science, India

Chapter 8
Satish C. Sharma, Maharaja College of Management, India
Harshila Bagoria, Maharaja College of Management, India

Chapter 9
The University Cloud Library Model and the Role of the Cloud Librarian .......................... 150
Sangeeta N Dhamdhere, Modern College of Arts, Science and Commerce, India
Ramdas Lihitkar, Government College of Science, India

Chapter 10
The University Library Electronic Identities Authentication System (UL-EIDA): Enhanced by
Segmented Virtual Machines and VLANs for Deployment in the Sub-Saharan Region ............. 162
Jameson Mbale, Centre of Excellence in Telecommunications, University of Namibia, Namibia

Chapter 11
Open Source in the Cloud ............................................................................................................. 179
Egbert de Smet, University of Antwerp, Belgium

Chapter 12
Testbed Platform: Amazon Web Services for Library ................................................................. 192
Deepak Mane, Tata Research Design and Development Center, India

Chapter 13
Comparative Study of Amazon Web Services (AWS) and Online Computer Library Services
(OCLC) Web Players ..................................................................................................................... 212
Ravikant M. Deshpande, Visvesvaraya National Institute of Technology, Nagpur
Suvarna H. Paunikar, Visvesvaraya National Institute of Technology, Nagpur
Nilima D. Likhar, Visvesvaraya National Institute of Technology, Nagpur
Chapter 14
A Cloud-Oriented Reference Architecture to Digital Library Systems .................................................. 230
  K. Palanivel, Computer Centre, Pondicherry University, India
  S. Kuppuswami, Kongu College of Engineering, India

Chapter 15
Service-Oriented Reference Architecture for Digital Library Systems .................................................. 255
  K. Palanivel, Computer Centre, Pondicherry University, India
  S. Kuppuswami, Kongu College of Engineering, India

Chapter 16
A Randomized Cloud Library Security Environment ............................................................................. 278
  A. V. N. Krishna, PujyaShri Madhavanji College of Engineering & Technology, India

Chapter 17
Green Economic and Secure Libraries on Cloud .................................................................................... 297
  Kalpana T.M., Shri AMM Murugappa Chettiar Research Centre, India
  S. Gopalakrishnan, National Institute of Fashion Technology, India

Chapter 18
Cloud Libraries: Issues and Challenges ................................................................................................. 316
  Mayank Yuvaraj, Banaras Hindu University, India

Chapter 19
Cloud Libraries-Limitations and Concerns ............................................................................................ 339
  Namita Gupta, International Maritime College Oman, Sultanate of Oman
  Syed Asim Raza Rizvi, International Maritime College Oman, Sultanate of Oman

Compilation of References .................................................................................................................. 356

About the Contributors ......................................................................................................................... 374
