Table of Contents

Foreword ............................................................................................................................................ xvii

Preface ................................................................................................................................................. xix

Section 1
New Approaches and Concepts for Service Science

Chapter 1
New Trends in Service Science and Education for Service Innovation ................................................. 1
  Michitaka Kosaka, Japan Advanced Institute of Science and Technology, Japan
  Kunio Shirahada, Japan Advanced Institute of Science and Technology, Japan

Chapter 2
A Concept of a Service Field and its Applications to Create Service Value .......................................... 22
  Michitaka Kosaka, Japan Advanced Institute of Science and Technology, Japan
  Jing Wang, Beihang University, China
  Weiwei Han, Beihang University, China
  Qi Zhang, Japan Advanced Institute of Science and Technology, Japan

Chapter 3
Modeling of Service Value Creation based on Multidisciplinary Framework ...................................... 44
  Kotaro Nakamura, eCraft Inc., Japan & Japan Advanced Institute of Science and Technology, Japan

Chapter 4
The Dynamics of Knowledge Co-Creation in Service Encounters: A Practice-Theoretical Approach ................................................................................................................................................ 68
  Mario Giraldo, Universidad del Norte, Colombia

Chapter 5
Service Sustainability: A Tripartite Value Co-Creation Perspective ..................................................... 89
  Kunio Shirahada, Japan Advanced Institute of Science and Technology, Japan
  Raymond P. Fisk, Texas State University, USA
Section 2
Technologies Related to Knowledge Science and System Science for Service Innovation

Chapter 6
Transdisciplinary Science and Technology and Service Systems .......................................................... 101
  Motohisa Funabashi, Japan Advanced Institute of Science and Technology, Japan

Chapter 7
Big Data and Service Science .............................................................................................................. 128
  Tu-Bao Ho, Japan Advanced Institute of Science and Technology, Japan
  Siriwon Taewijit, Japan Advanced Institute of Science and Technology, Japan
  Quang-Bach Ho, Japan Advanced Institute of Science and Technology, Japan
  Hieu-Chi Dam, Japan Advanced Institute of Science and Technology, Japan

Chapter 8
Biological Data for Understanding Customer Experiences ................................................................. 145
  Kunio Shirahada, Japan Advanced Institute of Science and Technology, Japan
  Atsushi Maki, Hitachi Ltd., Japan
  Michitaka Kosaka, Japan Advanced Institute of Science and Technology, Japan

Chapter 9
Research on Discrete Service Process Optimization .............................................................................. 162
  Jing Wang, Beihang University, China
  Chengcheng Luo, Beihang University, China

Chapter 10
Evidential Reasoning-Based Evaluation of Services ........................................................................... 191
  Van Nam Huynh, Japan Advanced Institute of Science and Technology, Japan
  Minh Chau Doan, Japan Advanced Institute of Science and Technology, Japan
  Michitaka Kosaka, Japan Advanced Institute of Science and Technology, Japan
  Yoshiteru Nakamori, Japan Advanced Institute of Science and Technology, Japan

Chapter 11
Dynamic Service Matchmaking Model and Algorithm ......................................................................... 205
  Haixia Pan, Beihang University, China
  Jing Wang, Beihang University, China
  Michitaka Kosaka, Japan Advanced Institute of Science and Technology, Japan

Chapter 12
The Design of Service Systems Architecture for Building Smart Public Infrastructures .................... 220
  Katsumi Kawano, Osaka Institute of Technology, Japan
Section 3
Servitization in the Manufacturing Industry

Chapter 13
Tadao Sumi, Japan Advanced Institute of Science and Technology, Japan
Taiichiro Kitatani, Komatsu Ltd., Japan

Chapter 14
Knowledge Transfer in Product-Based Service Design ................................................................. 258
Naoshi Uchihira, Japan Advanced Institute of Science and Technology, Japan

Chapter 15
An Analysis of Knowledge Space Concept and Recursive Approach for Servitizing in Manufacturing Industries ................................................................. 273
H. M. Belal, Japan Advanced Institute of Science and Technology, Japan
Kunio Shirahada, Japan Advanced Institute of Science and Technology, Japan
Michitaka Kosaka, Japan Advanced Institute of Science and Technology, Japan

Chapter 16
A Value Co-Creation Model for Energy-Saving Service Business Using Inverters ....................... 292
Michitaka Kosaka, Japan Advanced Institute of Science and Technology, Japan
Takashi Yabutani, Tomosou Japan Ltd., Japan
Qi Zhang, Japan Advanced Institute of Science and Technology, Japan

Section 4
New Approaches for Service Innovation in the Information Industry

Chapter 17
Service Innovation in Information Business ...................................................................................... 308
Youji Kohda, Japan Advanced Institute of Science and Technology, Japan

Chapter 18
Value Creation in Information Business based on the Service Field ............................................ 325
Michitaka Kosaka, Japan Advanced Institute of Science and Technology, Japan
Haruko Nagaoka, Hitachi Ltd., Japan
Minh Chau Doan, Japan Advanced Institute of Science and Technology, Japan

Chapter 19
Achieving Objective Values for Customers in Enterprise IT Solution Services: A New Concept – Methodological Universe for the Services Environment (MUSE) and “Design Office” ............... 347
Yukiko Nishioka, ACT Consulting Corp., Japan
Michitaka Kosaka, Japan Advanced Institute of Science and Technology, Japan
Chapter 20
Service-Oriented Organizational Management System for an Information Systems Business ....... 367
Shoji Konno, Hitachi, Ltd., Japan

Chapter 21
Consideration of Service Design for Internet Service Businesses ................................................. 380
Akira Kondo, Hitachi Intermedix Co., Ltd., Japan

Section 5
Medical Service Science

Chapter 22
Medical Practical Knowledge Circulation Based on Purpose-Oriented Service Modeling ............ 400
Taisuke Ogawa, Japan Advanced Institute of Science and Technology, Japan
Mitsuru Ikeda, Japan Advanced Institute of Science and Technology, Japan
Muneou Suzuki, University of Miyazaki Hospital, Japan
Kenji Araki, University of Miyazaki Hospital, Japan

Chapter 23
A Self-Management Service Framework to Support Chronic Disease Patients’ Self-Management ................................................................................................................................. 425
Thepchai Supnithi, National Electronics and Computer Technology Center, Thailand
Marut Buranarach, National Electronics and Computer Technology Center, Thailand
Nattanun Thatphithakkul, National Electronics and Computer Technology Center, Thailand
Boonek Junsirimongkol, Sirindhorn International Institute of Technology, Thailand
Suwaree Wongrochanan, Ministry of Public Health, Thailand
Nittayawan Kulnawan, Hauchiew Chalermprikait University, Thailand
Wiroj Jiamjarasrangsi, Chulalongkorn University, Thailand & King Chulalongkorn Memorial Hospital, Thailand
