Preface ........................................................................................................................................ vi

Chapter I
Database High Availability: An Extended Survey ......................................................... 1
Moh’d A. Radaideh, Abu Dhabi Police – Ministry of Interior, United Arab Emirates
Hayder Al-Ameed, United Arab Emirates University, United Arab Emirates

Chapter II
Enterprise Metadata for Reliable Web Applications ............................................... 34
R.Todd Stephens, BellSouth Corporation, USA

Chapter III
Architecture of an Information System for Personal Financial Planning ....................... 83
Oliver Braun, Saarland University, Germany
Günter Schmidt, Saarland University, Germany

Chapter IV
Approaches to Building High Performance Web Applications: A Practical Look at Availability, Reliability, and Performance ............................. 112
Brian Goodman, IBM Corporation, USA
Maheshwar Inampudi, IBM Corporation, USA
James Doran, IBM Corporation, USA
Chapter V
The Demise of a Business-to-Business Portal .......................................................... 147
   Arthur Tatnall, Victoria University, Australia
   Alex Pliaskin, Victoria University, Australia

Chapter VI
A Security Solution for Web-Services Based Grid Application ....................... 172
   Yih-Jiun Lee, ChienKuo Technology University, Taiwan

Chapter VII
Conceptual Model Driven Software Development (CMDSD) as a Catalyst Methodology for Building Sound Semantic Web Frameworks ...................................................................................... 194
   Thomas Biskup, Carl von Ossietzky University, Oldenburg, Germany
   Nils Heyer, Carl von Ossietzky University, Oldenburg, Germany
   Jorge Marx Gómez, Carl von Ossietzky University, Oldenburg, Germany

Chapter VIII
Automatic Replication for Web Applications ......................................................... 222
   Pablo Galdámez, Instituto Tecnológico de Informática, Spain

Chapter IX
A Scalable QoS-Aware Web Services Management Architecture (QoSMA) ........................................................................................................... 248
   M. Adel Serhani, United Arab Emirates University, United Arab Emirates
   Elarbi Badidi, United Arab Emirates University, United Arab Emirates
   Mohamed Vall O. Mohamed-Salem, University of Wollongong in Dubai,
   United Arab Emirates

Chapter X
Information System Development Failure and Complexity:
A Case Study.............................................................................................................. 278
   Abou Bakar Nauman, COMSATS Institute of Information Technology, Pakistan
   Romana Aziz, COMSATS Institute of Information Technology, Pakistan
   A.F.M Ishaq, COMSATS Institute of Information Technology, Pakistan

Chapter XI
SLA Monitoring of Presence-Enabled Services: A New Approach Using Data Envelopment Analysis (DEA) ................................................................. 307
   Tapati Bandopadhyay, ICFAI Business School, India
   Pradeep Kumar, ICFAI Business School, India
Chapter XII
All-Optical Internet: Next-Generation Network Infrastructure
for E-Service Applications.................................................................323

Abid Abdelouahab, Multimedia University, Malaysia
Fouad Mohammed Abbou, Alcatel Network Systems, Malaysia
Ewe Hong Tat, Multimedia University, Malaysia
Toufik Taibi, United Arab Emirates University, United Arab Emirates

About the Authors.....................................................................................350
