# Table of Contents

**Preface** ................................................................................................................................................. xiv

**Introduction** ....................................................................................................................................... xvii

**Chapter 1**
Buffer Managed Multiple Replication Strategy Using Knapsack Policy for Intermittently Connected Mobile Networks................................................................. 1

  *C. Poongodi, Kongu Engineering College, India*
  *A. M. Natarajan, Bannari Amman Institute of Technology, India*

**Chapter 2**
The Role of Business Model Innovation on the Disruptive Potential of PWLAN in the Western European Hotspot Markets............................................................... 23

  *Stefan Hüsig, University of Regensburg, Germany*

**Chapter 3**
A Novel Approach for Supplying Wireless Energy to Multiple Devices Simultaneously Using Sweeping Effect ................................................................. 43

  *Askin Erdem Gundogdu, General Directorate of Land Registry and Cadastre, Turkey*
  *Erkan Afacan, Gazi University, Turkey*

**Chapter 4**
A Causal Model Analysis of Spectrum Management Policies ............................................ 59

  *Varadharajan Sridhar, Sasken Communication Technologies, India*
  *Thomas Casey, VTT Technical Research Centre, Finland*
  *Heikki Hämmäinen, Aalto University, Finland*

**Chapter 5**
The Ubiquitous Internet: Into Eternity? ..................................................................................... 81

  *Robert van Wessel, ApexIS, The Netherlands*
  *Henk J. de Vries, Erasmus University, The Netherlands*
Chapter 6
Multicriteria Queuing Model to Improve Intra-User Multi-Flow QoS in Wireless Cellular Networks

Mohamed Hanini, Hassan 1st University, Morocco
Abdelkrim Haqiq, Hassan 1st University, Morocco
Amine Berqia, Mohammed V University, Morocco

Chapter 7
A Performance Evaluation of the Coverage Configuration Protocol and its Applicability to Precision Agriculture

Amine Dhraief, University of Manouba, Tunisia
Imen Mahjri, University of Manouba, Tunisia
Abdelfettah Belghith, University of Manouba, Tunisia

Chapter 8
Data Gathering Algorithms and Sink Mobility Models for Wireless Sensor Networks

Natarajan Meghanathan, Jackson State University, USA

Chapter 9
Performance Evaluation of GSM Traffic Transmission over Cognitive Radio Networks under Opportunistic Spectrum Sharing Collisions

Abdelaali Chaoub, Mohammed V-Agdal University, Morocco
Elhassane Ibn-Elhaj, National Institute of Posts and Telecommunications, Morocco

Chapter 10
Voice and Video over Gigabit Ethernet and ATM Backbone Networks: A Simulation Study

Nurul I. Sarkar, Auckland University of Technology, New Zealand
Yash Dole, Auckland University of Technology, New Zealand

Chapter 11
Quality of Services and Optimal Management of Cloud Centers with Different Arrival Modes

V. Goswami, KIIT University, India
S. S. Patra, KIIT University, India
G. B. Mund, KIIT University, India

Chapter 12
Intra-Refresh and Data-Partitioning for Video Streaming over IEEE 802.11e

Ismail Ali, University of Essex, UK
Sandro Moiron, University of Essex, UK
Martin Fleury, University of Essex, UK
Mohammed Ghanbari, University of Essex, UK
Chapter 13
Emerging Trends in Digital Libraries: Mobile Technology and Mobile Learning

Barbara Holland, Brooklyn Public Library, USA
