# Table of Contents

**Foreword** ........................................................................................................................................... xviii

**Preface** ................................................................................................................................................. xix

**Acknowledgment** .............................................................................................................................. xxvi

## Section 1

### Emerging Concepts

**Chapter 1**
The Ethical Dimension of Innovation ...................................................................................................... 1  
*Leticia Antunes Nogueira, Aalborg University, Denmark*  
*Tadeu Fernando Nogueira, Aalborg University, Denmark*

**Chapter 2**
Reverse Innovation and the Bottom of the Pyramid Proposition: New Clothes for Old Garbs?............ 32  
*Nebojša Radojević, HEC Montréal, Canada*  
*Jahan Ara Peerally, HEC Montréal, Canada*

**Chapter 3**
Market Trajectory: A Suggested Interpretation of Innovation Opportunities for Latecomer Firms ..... 53  
*Hongru Xiong, State Power Economics Research Institute & Research Center for Technological Innovation, Tsinghua University, China*  
*Guisheng Wu, Tsinghua University, China*

## Section 2

### Methodologies and Frameworks

**Chapter 4**
Methodology to Identify Opportunities for Development-Oriented Quality Innovation: Application in the Case of Least Developed Countries .............................................................................................................. 73  
*Clovis Freire, United Nations Economic and Social Commission for Asia and the Pacific (ESCAP), Thailand*
Chapter 5
The Methodology of National Innovation System Analysis .......................................................... 94
Oleg Golichenko, Central Economics and Mathematics Institute of Russian Academy of Sciences,
National Research University Higher School of Economics, Russia

Chapter 6
A Framework to Analyse the Role of Government in Promoting Quality Innovation in Developing
Economies: A Case Study .................................................................................................................... 124
Dilupa Nakandala, University of Western Sydney, Australia
Tim Turpin, University of Western Sydney, Australia

Chapter 7
Total-System Innovation Management: Concepts and Applications ............................................. 143
Oliver Yu, San Jose State University, USA

Section 3
Learning, Capability and Knowledge Sharing

Chapter 8
Knowledge and Quality Innovation in the Health Sector: The Role of
Public Research Organisations............................................................................................................ 159
Arturo Torres-Vargas, Universidad Autónoma Metropolitana, Mexico
Javier Jasso-Villazul, Universidad Nacional Autónoma de Mexico, Mexico

Chapter 9
A Preliminary Study of Neuro-Linguistic Programming in Nonprofit Organizations: Facilitating
Knowledge and Learning Capabilities for Innovation......................................................................... 189
Eric Kong, University of Southern Queensland, Australia
Mark Farrell, RMIT University, Australia

Chapter 10
Innovation in Learning and Rise of the Internet: Grassroots Human Development .................... 206
Hakikur Rahman, University of Minho, Portugal

Chapter 11
Motives for International Inter-Firm Cooperation on R&D and Innovation: Literature Overview and
Recent Trends......................................................................................................................................... 225
Mónica Edwards-Schachter, Institute of Innovation and Knowledge Management, Spain &
Universitat Politècnica de València, Spain
Elena Castro-Martínez, Institute of Innovation and Knowledge Management, Spain & Universitat
Politècnica de València, Spain
Ignacio Fernández-De-Lucio, Institute of Innovation and Knowledge Management, Spain &
Universitat Politècnica de València, Spain
Chapter 12
The Role of Knowledge Sharing on Organisational Innovation: An Integrated Framework ........... 247
Kijpokin Kasemsap, Suan Sunandha Rajabhat University, Thailand

Section 4
Review of Innovation Initiatives

Chapter 13
A Systemic Perspective for Supporting Production and Innovation in Brazilian Micro and Small Enterprises .................................................................................................................. 273
Marcelo Pessoa de Matos, Federal University of Rio de Janeiro, Brazil
Ana Arroio, Federation of Industries of the State of Rio de Janeiro, Brazil
Elaine Borin, State University of Rio de Janeiro, Brazil

Chapter 14
ICT Adoption, Capabilities Development, and Innovation Processes in Argentina: An Approach from Employment and Knowledge Management ........................................................................... 298
Marta Novick, Ministry of Labor, Employment, and Social Security, Argentina
Sebastian Rotondo, Ministry of Labor, Employment, and Social Security, Argentina
Gerardo Breard, Ministry of Labor, Employment, and Social Security, Argentina

Chapter 15
The Innovation Infrastructure of Kazakhstan: Why did the Innovation “Boom” not Happen? ........ 322
Yelena V. Smirnova, Suleyman Demirel University, Kazakhstan

Chapter 16
Innovation and Competitiveness: An Exploratory Study on Turkish Financial Sector ............... 340
Melisa Erdilek Karabay, Marmara University, Turkey

Chapter 17
Global Trends on Clean Technologies and New Challenges to the Brazilian Sugarcane System of Innovation ................................................................................................................................. 365
Valéria Delgado Bastos, Brazilian Development Bank (BNDES), Brazil
Guilherme Baptista da Silva Maia, Brazilian Development Bank (BNDES), Brazil
Bruno Martarello De Conti, University of Campinas, Brazil

Section 5
Qualitative Studies

Chapter 18
Impact of Social Media in Service Innovations: An Empirical Study on the Australian Hotel Industry ................................................................................................................................. 390
Eric Ng, University of Southern Queensland, Australia
Ching-Yu Lien, Minghsin University of Science and Technology, Taiwan
Chapter 19
Sources of Institutional Capability for Innovation in China’s Catching up Economy: An Explorative Study
Mark Greeven, Zhejiang University, China

Chapter 20
Knowledge Absorptive Capacity for Technological Innovation Capabilities: The Case of Korea
Murad Ali, Inha University Incheon, South Korea
Kichan Park, Inha University Incheon, South Korea

Chapter 21
Producer Services, Division of Labor, and Innovation in Semi-Industrialized Countries: A Study of Argentine Naval Workshops
José A. Borello, Universidad Nacional de General Sarmiento, Argentina
Hernán Morhorlang, Ministry of the Economy and Public Finance, Argentina

Chapter 22
Evidence-Based HR-Mediated Innovative Quality Management Practices: A Study on Two SMEs of India
Dipak Kumar Bhattacharyya, Xavier Institute of Management, India

Section 6
Quantitative Studies

Chapter 23
Path-Deepening or Path-Creating Orientation? Implications for New Product Development Performance in Chinese Manufacturing Firms
Ying Ying, Zhejiang University, China
Yang Liu, Zhejiang University, China
Lu Jin, University of Hong Kong, Hong Kong

Chapter 24
Innovation and Value Creation in Emerging African Commercial Agriculture: Evidence from the Ugandan Flower Export Sector
Timothy Esemu, Makerere University, Uganda
Eric Wood, University of Cape Town, South Africa

Chapter 25
Opportunities and Challenges in Socially Inclusive Innovation: The Case of Genetically Modified Corn in the Philippines
Linda M. Peñalba, University of the Philippines – Los Baños, Philippines
Dulce D. Elazegui, University of the Philippines – Los Baños, Philippines
