Acknowledgment

The editor would like to acknowledge the help of all involved in the collation and review process of the book, without whose support the project could not have been satisfactorily completed.

Most of the authors of chapters included in this book also served as referees for chapters written by other authors. Thanks go to all those who provided constructive and comprehensive reviews.

Special thanks go to all the staff at IGI Global, and in particular to Rebecca Beistline and Christine Bufton, for their continuous and professional support.

In closing, I wish to thank all of the authors for their insights and excellent contributions to this book.
