Acknowledgment

While writing, the contributors referred to several books and journals; we take this opportunity to thank all those authors and publishers. In addition, we are thankful to VIT University, India, for providing facilities to complete this project. We are extremely thankful to the editorial board and reviewers for their support during the process of evaluation. Last but not least, we thank the production team of IGI Global for encouraging us and extending their cooperation and help in timely completion of this edited book.
