Table of Contents

Preface .................................................................................................................................................. xv
Acknowledgment .............................................................................................................................. xx

Section 1
Introduction

Chapter 1
Nature that Breeds Solutions ........................................................................................................... 1
  Raymond Chiong, Swinburne University of Technology (Sarawak Campus), Malaysia
  Ferrante Neri, University of Jyväskylä, Finland
  Robert I. McKay, Seoul National University, Korea

Section 2
Nature-Inspired Solutions in Business

Chapter 2
An Application of Genetic Programming to Forecasting Foreign Exchange Rates ....................... 26
  Muneer Buckley, University of Adelaide, Australia
  Zbigniew Michalewicz, University of Adelaide, Australia; Institute of Computer Science,
    Polish Academy of Sciences & Polish-Japanese Institute of Information Technology, Poland
  Ralf Zurbruegg, University of Adelaide, Australia

Chapter 3
Intelligent Business Process Execution using Particle Swarm Optimization .................................. 49
  Markus Kress, University of Karlsruhe, Germany
  Sanaz Mostaghim, University of Karlsruhe, Germany
  Detlef Seese, University of Karlsruhe, Germany
Section 3
Nature-Inspired Solutions in Science

Chapter 4
An Artificial Life-Based Vegetation Modelling Approach for Biodiversity Research .......................... 68
  Eugene Ch’ng, University of Wolverhampton, UK

Chapter 5
Multimodal Genetic Algorithms for Craniofacial Superimposition ................................................. 119
  Óscar Ibáñez, European Centre for Soft Computing, Spain
  Oscar Cordón, European Centre for Soft Computing, Spain
  Sergio Damas, European Centre for Soft Computing, Spain
  José Santamaría, University of Jaen, Spain

Chapter 6
Neural Networks in Medicine: Improving Difficult Automated Detection of Cancer in the Bile Ducts................................................................. 144
  Rajasvaran Logeswaran, Multimedia University, Malaysia

Chapter 7
Solving Complex Problems in Human Genetics using Nature-Inspired Algorithms Requires Strategies which Exploit Domain-Specific Knowledge ................................................... 166
  Casey S. Greene, Dartmouth College, USA
  Jason H. Moore, Dartmouth College, USA

Section 4
Nature-Inspired Solutions in Computing & Engineering

Chapter 8
AGE-P: An Evolutionary Platform for the Self-Organization of Smart-Appliance Ensembles ....... 182
  Ralf Salomon, University of Rostock, Germany
  Stefan Goldmann, University of Rostock, Germany

Chapter 9
Modelling Biological Processes Naturally using Systemic Computation: Genetic Algorithms, Neural Networks, and Artificial Immune Systems ............................................... 204
  Erwan Le Martelot, University College London, UK
  Peter J Bentley, University College London, UK

Chapter 10
Noble Ape’s Cognitive Simulation: From Agar to Dreaming and Beyond ........................................ 242
  Thomas S Barbalet, Noble Ape, USA
Chapter 11
Genetic Programming for Robust Text Independent Speaker Verification ........................................ 259

Peter Day, d-fine Ltd, UK
Asoke K Nandi, University of Liverpool, UK

Chapter 12
Combinational Circuit Design with Estimation of Distribution Algorithms ................................. 281

Sergio Ivvan Valdez Peña, Centre for Research in Mathematics, Mexico
Arturo Hernández Aguirre, Centre for Research in Mathematics, Mexico
Salvador Botello Rionda, Centre for Research in Mathematics, Mexico
Cyntia Araiza Delgado, Centre for Research in Mathematics, Mexico

Chapter 13
From the Real Ant to the Artificial Ant: Applications in Combinatorial Optimization,
Data Clustering, Collective Robotics and Image Processing .................................................. 298

Moussa Diaf, Université Mouloud Mammeri, Algeria
Kamal Hammouche, Université Mouloud Mammeri, Algeria
Patrick Siarry, Université Paris 12 Val de Marne, France

Chapter 14
Nature-Inspired Informatics for Telecommunication Network Design ........................................ 323

Sergio Nesmachnow, Universidad de la República, Uruguay
Héctor Cancela, Universidad de la República, Uruguay
Enrique Alba, Universidad de Málaga, Spain

Compilation of References ................................................................. 372

About the Contributors ................................................................. 412

Index ......................................................................................... 420
