Neural Networks in Business: Techniques and Applications

Table of Contents

Preface ........................................................................................................................................ vii
Kate A. Smith, Monash University, Australia
Jatinder N. D. Gupta, Ball State University, USA

Acknowledgements ................................................................................................................... xi

Section I: Introduction

Chapter 1: Neural Networks for Business: An Introduction .................. 1
Kate A. Smith, Monash University, Australia

Section II: Applications to Retail Sales and Marketing

Chapter 2: Predicting Consumer Retail Sales Using Neural Networks......................................................... 26
G. Peter Zhang, Georgia State University, USA
Min Qi, Kent State University, USA

Chapter 3: Using Neural Networks to Model Premium Price Sensitivity of Automobile Insurance Customer .............................................. 41
Ai Cheo Yeo, Kate A. Smith, and Robert J. Willis
Monash University, Australia
Malcolm Brooks, Australian Associated Motor Insurers, Australia

Chapter 4: A Neural Network Application to Identify High-Value Customers for a Large Retail Store in Japan................................. 55
Edward Ip, University of Southern California, USA
Joseph Johnson, University of Miami, USA
Katsutoshi Yada, Kansai University, Japan
Yukinobu Hamuro, Osaka Sangyo University, Japan
Naoki Katoh, Kyoto University, Japan
Stephane Cheung, University of Southern California, USA
Chapter 5: Segmentation of the Portuguese Clients of Pousadas de Portugal
Margarida G. M. S. Cardoso, Instituto Superior de Ciências do Trabalho e Emprego, Portugal
Fernando Moura-Pires, Universidade de Évora, Portugal

Chapter 6: Neural Networks for Target Selection in Direct Marketing
Rob Potharst and Uzay Kaymak
Erasmus University Rotterdam, The Netherlands
Wim Pijls, Erasmus University Rotterdam, The Netherlands

Section III: Applications to Risk Assessment

Chapter 7: Prediction of Survival and Attrition of Click-and-Mortar Corporations
Indranil Bose and Anurag Agarwal
University of Florida, USA

Chapter 8: Corporate Strategy and Wealth Creation: An Application of Neural Network Analysis
Caron H. St. John and Nagraj (Raju) Balakrishnan
Clemson University, USA
James O. Fiet, University of Louisville, USA

Chapter 9: Credit Rating Classification Using Self-Organizing Maps
Roger P. G. H. Tan, Robeco Group, The Netherlands
Jan van den Berg and Willem-Max van den Bergh
Erasmus University Rotterdam, The Netherlands

Chapter 10: Credit Scoring Using Supervised and Unsupervised Neural Networks
David West and Cornelius Muchineuta
East Carolina University, USA

Chapter 11: Predicting Automobile Insurance Losses Using Artificial Neural Networks
Fred L. Kitchens, Ball State University, USA
John D. Johnson, University of Mississippi, USA
Jatinder N. D. Gupta, Ball State University, USA
Section IV: Applications to Financial Markets

Chapter 12: Neural Networks for Technical Forecasting of Foreign Exchange Rates
JingTao Yao, Massey University, New Zealand
Chew Lim Tan, National University of Singapore, Singapore

Chapter 13: Using Neural Networks to Discover Patterns in International Equity Markets: A Case Study
Mary E. Malliaris and Linda Salchenberger
Loyola University Chicago, USA

Chapter 14: Comparing Conventional and Artificial Neural Network Models for the Pricing of Options
Paul Lajbcygier, Monash University, Australia

Chapter 15: Combining Supervised and Unsupervised Neural Networks for Improved Cash Flow Forecasting
Kate A. Smith and Larisa Lokmic
Monash University, Australia
