Preface ..................................................................................................................................................xvi

Chapter I
Open Formats, Open Information and Future Trends in Software Engineering......................... 1
    Teemu Saarelainen, Kymenlaakso University of Applied Sciences, Finland

Chapter II
Engineering Information into Open Documents.................................................................................. 9
    Chia-Chu Chiang, University of Arkansas at Little Rock, USA

Chapter III
Decision-Making as a Facilitator of High-Achievement in Non-Hierarchical Technical Environments................................................................................................................................. 20
    Dwayne Rosenburgh, The George Washington University, USA

Chapter IV
Hierarchical Organization as a Facilitator of Information Management in Human Collaboration...... 44
    Khaled Ahmed Nagaty, Ain Shams University, Faculty of Computers & Information Sciences,
    Cairo, Egypt

Chapter V
An Intelligent Information Management Tool for Complex Distributed Human Collaboration....... 110
    Christine B. Glaser, University of Surrey, CCSR, I-Lab, UK
    Amy Tan, University of Surrey, CCSR, I-Lab, UK
    Ahmet M. Kondoz, University of Surrey, CCSR, I-Lab, UK

Chapter VI
R²–IBN: Argumentation Based Negotiation Framework for MAIS–E² Model........................................ 144
    Lobna Hsairi, SOIE: Institut Supérieur de Gestion de Tunis, Tunisie
    Khaled Ghédira, SOIE: Institut Supérieur de Gestion de Tunis, Tunisie
    Adel M. Alimi, REGIM: Ecole Nationale d’Ingénieurs de Sfax, Tunisie
    Abdellatif BenAbdelhafid, CERENE-SILI: Université du Havre, France
Chapter VII
Natural Language Parsing: Perspectives from Contemporary Biolinguistics ................................. 158
  Pauli Brattico, University of Jyväskylä, Finland
  Mikko Määttä, University of Helsinki, Finland

Chapter VIII
Structures in Complex Bipartite Networks..................................................................................... 176
  Sune Lehmann, Northeastern University, USA & Harvard University, USA

Chapter IX
Measuring Information Propagation and Processing in Biological Systems ............................... 190
  Juha Kesseli, Tampere University of Technology, Finland
  Andre S. Ribeiro, Tampere University of Technology, Finland
  Matti Nykter, Tampere University of Technology, Finland

Chapter X
Natural Human-System Interaction Using Intelligent Conversational Agents............................ 227
  Yacine Benahmed, Université de Moncton, Canada
  Sid-Ahmed Selouani, Université de Moncton, Canada
  Habib Hamam, Université de Moncton, Canada

Chapter XI
Tools for Automatic Audio Management.......................................................................................... 244
  Marko Helén, Tampere University of Technology, Finland
  Tommi Lahtti, Nokia Research Center, Finland
  Anssi Klapuri, Tampere University of Technology, Finland

Chapter XII
PUM: Personalized Ubiquitous Multimedia.................................................................................... 266
  Susmit Bagchi, Samsung India Software Operations, India

Chapter XIII
Personalization in Highly Dynamic Grid Services Environment ...................................................... 284
  Edgar Jembere, University of Zululand, South Africa
  Matthew O. Adigun, University of Zululand, South Africa
  Sibusiso S. Xulu, University of Zululand, South Africa

Chapter XIV
DYONIPOS: Proactive Support of Knowledge Workers ................................................................. 314
  Josef Makolm, Federal Ministry of Finance, Austria
  Silke Weiß, Federal Ministry of Finance, Austria
  Doris Ipsmiller, m2n Consulting and Development GMBH, Austria
Chapter XV

Juhana Kokkonen, University of Art and Design Helsinki, Finland

Chapter XVI
P2P-Based Management of Collaboration Communication Infrastructures

Cristina Melchior, Federal University of Rio Grande do Sul, Brazil
Lisandro Zambenedetti Granville, Federal University of Rio Grande do Sul, Brazil
Liane Margarida Rockenbach Tarouco, Federal University of Rio Grande do Sul, Brazil

Chapter XVII
A Framework for Semi-Autonomous Servers in the Wireless Network Environment

John Tsiligaridis, Heritage University, USA

Chapter XVIII
Open Information Management in User-Driven Healthcare

Rakesh Biswas, People’s College of Medical Sciences, India
Kevin Smith, National Digital Research Centre, Ireland
Carmel M. Martin, Northern Ontario School of Medicine, Canada
Joachim P. Sturmberg, Monash University, Australia & The University of Newcastle, Australia
Ankur Joshi, People’s College of Medical Sciences, India
Vinod Narkhede, People’s College of Medical Sciences, India
Jitendra Jain, People’s College of Medical Sciences, India

Chapter XIX
Open Information Management: Jurisdictional, Legal and Ethical Factors

Michael Losavio, University of Louisville, USA
Adel Elmaghraby, University of Louisville, USA
Deborah Keeling, University of Louisville, USA
