Practicing Software Engineering in the 21st Century

Table of Contents

Preface ........................................................................................................................................ vii
   Joan Peckham, University of Rhode Island, USA
   Scott J. Lloyd, University of Rhode Island, USA

Section I: System Design

Chapter I. Integrating Patterns into CASE Tools................................................ 1
   Joan Peckham, University of Rhode Island, USA
   Scott J. Lloyd, University of Rhode Island, USA

Chapter II. Petri Nets with Clocks for the Analytical Validation of Business Process .................................................. 11
   Gabriel Vilallonga, Universidad Nacional de San Luis, Argentina
   Daniel Riesco, Universidad Nacional de San Luis, Argentina
   Germán Montejano, Universidad Nacional de San Luis, Argentina
   Roberto Uzal, Universidad Nacional de San Luis, Argentina

Chapter III. Software and Systems Engineering:
   Conflict and Consensus .................................................................................. 26
   Rick Gibson, American University, USA

Chapter IV. Lean, Light, Adaptive, Agile and Appropriate Software Development: The Case for a Less Methodical Methodology .......... 42
   John Mendonca, Purdue University, USA
   Jeff Brewer, Purdue University, USA

Chapter V. How to Elaborate a Use Case ............................................... 53
   D. C. McDermid, Edith Cowan University, Australia

Chapter VI. A Rigorous Model for RAISE Specifications
   Reusability ........................................................................................................ 63
   Laura Felice, Universidad Nacional del Centro de la Provincia de Buenos Aires, Argentina
   Daniel Riesco, Universidad Nacional de San Luis, Argentina
Chapter VII. The Application of FOOM Methodology to IFIP Conference Case Study ................................................................. 82
  Judith Kabeli, Ben-Gurion University, Israel
  Peretz Shoval, Ben-Gurion University, Israel

Section II: Managing Software Projects

Chapter VIII. A Quantitative Risk Assessment Model for the Management of Software Projects ............................................. 97
  Dan Shoemaker, University of Detroit Mercy, USA

Chapter IX. Software Metrics, Information and Entropy .................. 116
  Jana Dospisil, Monash University, Australia

Chapter X. Temporal Interaction Diagrams for Multi-Process Environments ............................................................................. 143
  T. Y. Chen, Swinburne University of Technology, Australia
  Iyad Rahwan, University of Melbourne, Australia
  Yun Yang, Swinburne University of Technology, Australia

Section III: Applications and Implementations

Chapter XI. Toward an Integrative Model of Application-Software Security ................................................................. 157
  Vijay V. Raghavan, Northern Kentucky University, USA

Chapter XII. Learning Systems and their Engineering: A Project Proposal ............................................................................. 164
  Valentina Plekhanova, University of Sunderland, UK

Chapter XIII. Towards Construction of Business Components: An Approach to Development of Web-Based Application Systems .......... 178
  Dentcho N. Batanov, Asian Institute of Technology, Thailand
  Somjit Arch-int, Khon Kaen University, Thailand

Chapter XIV. An OO Methodology Based on the Unified Process for GIS Application Development ........................................... 195
  Jesús D. García-Consuegra, Universidad de Castilla-La Mancha, Spain

Chapter XV. A Framework for Intelligent Service Discovery .......... 210
  Robert Bram, Monash University, Australia
  Jana Dospisil, Monash University, Australia
Chapter XVI. A Service-Based Approach to Components for Effective Business-IT Alignment ................................................................. 230
  Zoran Stojanovic, Delft University of Technology, The Netherlands
  Ajantha Dahanayake, Delft University of Technology, The Netherlands

Chapter XVII. One Method for Design of Narrowband Lowpass Filters ........................................................................................................... 258
  Gordana Jovanovic-Dolecek, National Institute of Astrophysics Optics and Electronics (INAOE), Mexico
  Javier Diaz-Carmona, Technology Institute of Celaya, Mexico

Chapter XVIII. Design of Narrowband Highpass FIR Filters Using Sharpening RRS Filter and IFIR Structure ............................................. 272
  Gordana Jovanovic-Dolecek, National Institute of Astrophysics Optics and Electronics (INAOE), Mexico

About the Authors ...................................................................................... 295

Index ...................................................................................................... 304
