# Table of Contents

Preface .................................................................................................................................................. xviii

Acknowledgment ................................................................................................................................... xxiv

Chapter I
Two Approaches for Workflow Scheduling with Quality of Service in the Grid ......................... 1
   Fangpeng Dong, Queen’s University, Canada
   Selim G. Akl, Queen’s University, Canada

Chapter II
Dynamic Network Optimization for Effective QoS Support in Large Grid Infrastructures .......... 28
   Francesco Palmieri, Università degli Studi di Napoli Federico II, Italy
   Ugo Fiore, Università degli Studi di Napoli Federico II, Italy

Chapter III
From Enabling to Ensuring Grid Workflows .................................................................................. 46
   Junwei Cao, Tsinghua University, China & Tsinghua National Laboratory for Information
   Science and Technology, China
   Fan Zhang, Tsinghua University, China
   Ke Xu, Tsinghua University, China
   Lianchen Liu, Tsinghua University, China & Tsinghua National Laboratory for Information
   Science and Technology, China
   Cheng Wu, Tsinghua University, China & Tsinghua National Laboratory for Information
   Science and Technology, China

Chapter IV
The Cost-Based Resource Management in Combination with QoS for Grid Computing .......... 74
   Chuliang Weng, Shanghai Jiao Tong University, China
   Jian Cao, Shanghai Jiao Tong University, China
   Minglu Li, Shanghai Jiao Tong University, China
Chapter V
Providing Quantitative Scalability Improvement of Consistency Control for Large-Scale, Replication-Based Grid Systems

Yijun Lu, University of Nebraska-Lincoln, USA
Hong Jiang, University of Nebraska-Lincoln, USA
Ying Lu, University of Nebraska-Lincoln, USA

Chapter VI
QoS-Based Job Scheduling and Resource Management Strategies for Grid Computing

Kuo-Chan Huang, National Taichung University, Taiwan
Po-Chi Shih, National Tsing Hua University, Taiwan
Yeh-Ching Chung, National Tsing Hua University, Taiwan

Chapter VII
Grid Workflows with Encompassed Business Relationships: An Approach Establishing Quality of Service Guarantees

Dimosthenis Kyriazis, National Technical University of Athens, Greece
Andreas Menychtas, National Technical University of Athens, Greece
Theodora Varvarigou, National Technical University of Athens, Greece

Chapter VIII
Investigating Deadline-Driven Scheduling Policy via Simulation with East

Justin M. Wozniak, University of Notre Dame, USA & Argonne National Laboratory, USA
Aaron Striegel, University of Notre Dame, USA

Chapter IX
Achieving QoS in Highly Unreliable Grid Environments

Antonios Litke, National Technical University of Athens, Greece

Chapter X
Implementation and QoS for High-Performance GIServices in Spatial Information Grid

Fang Huang, Institute of Geo-Spatial Information Technology, University of Electronic Science and Technology of China, P.R. China

Chapter XI
The Interactive Computing of Web Knowledge Flow: From Web to Knowledge Web

Xiangfeng Luo, Shanghai University, P.R. China
Yu Jie, Shanghai University, P.R. China

Chapter XII
Reputation Evaluation Framework Based on QoS in Grid Economy Environments

Guanfeng Liu, Qingdao University, China
Yongsheng Hao, Nanjing University of Information Science & Technology, China
Chapter XIII
Distributed Scheduling Protocols for Energy Efficient Large-Scale Wireless Sensor Networks........ 233
  Cheng Fu, Nanyang Technological University, Singapore
  Bang Wang, Nanyang Technological University, Singapore

Chapter XIV
A QSQL-Based Service Collaboration Method for Automatic Service Composition, and
Optimized Execution .................................................................................................................... 249
  Kaijun Ren, National University of Defense Technology, China & Swinburne
  University of Technology, Australia
  Jinjun Chen, Swinburne University of Technology, Australia
  Nong Xiao, National University of Defense Technology, China
  Weimin Zhang, National University of Defense Technology, China
  Junqiang Song, National University of Defense Technology, China

Chapter XV
Hands-On Experience in Building Institutional Grid Infrastructure ........................................... 271
  Xiaoyu Yang, University of Cambridge, UK
  Gen-Tao Chiang, University of Cambridge, UK

Chapter XVI
A Grid Aware Large-Scale Agent-Based Simulation System .................................................... 299
  Dan Chen, Yanshan University, China

Chapter XVII
E-Portfolio to Promote the Virtual Learning Group Communities on the Grid......................... 320
  Guy Gouardères, Laboratoire LIUPPA – Université de Pau et des Pays de l’Adour, France
  Emilie Conté, Laboratoire LIUPPA – Université de Pau et des Pays de l’Adour, France

Chapter XVIII
QoS-Aware Web Services Discovery with Federated Support for UDDI ................................. 338
  Chen Zhou, Nanyang Technological University, Singapore
  Liang-Tien Chia, Nanyang Technological University, Singapore
  Bu-Sung Lee, Nanyang Technological University, Singapore

Chapter XIX
The Key Requirements for Deploying Knowledge Management Services in a Semantic Grid
Environment ............................................................................................................................... 363
  Mirghani Mohamed, The George Washington University, USA
  Michael Stankosky, The George Washington University, USA
  Vincent Ribiére, The George Washington University, USA
Chapter XX
Karma2: Provenance Management for Data-Driven Workflows

  Yogesh L. Simmhan, Microsoft Research, USA
  Beth Plale, Indiana University, USA
  Dennis Gannon, Indiana University, USA

Chapter XXI
Ontology-Based Construction of Grid Data Mining Workflows

  Peter Brezany, University of Vienna, Austria
  Ivan Janciak, University of Vienna, Austria
  A Min Tjoa, Vienna University of Technology, Austria

Chapter XXII
Optimization Algorithms for Data Transfer in the Grid Environment

  Muzhou Xiong, Huazhong University of Science and Technology, China
  Hai Jin, Huazhong University of Science and Technology, China
