We have many individuals to thank for their impressive effort, help, and encouragement on our book. First, we would like to praise the people at IGI Global. Jan Travers and Austin DeMarco, our editors, provided a constructive framework for the revision. Their invaluable suggestions are very important for us to give the final shape of our book. Not only did they help us make critical decisions about carefully structuring our book, but also provided useful and informative feedback to increase our commitment and effort to complete our book.

The final words of thanks belong to our families and parents separately: T. Volkan Yuzer would like to thank to his wife, Saliha Yuzer, and his son, Ozan Yuzer, as well as his parents, Bahriye Yuzer and Prof. Dr. Ali Fuat Yuzer, and his brother, M. Erkan Yuzer. Gulsun Eby would like to thank to her husband, Benjamin A. Eby, and her parents, Oznur Kurubacak and Cemalettin Kurubacak. Their pride in our accomplishment makes it even more rewarding to be the editors.
