Acknowledgment

My wife, Fatima, and my sons, Amine, Ouassim, and Tarik, are directly recognized for their input to this book through allowing me to pursue the tasks of research while providing me with the best conditions for my comfort. At the same time, I address my sincere recognition to my mother, brothers, and sisters for their unconditional support.

I want also to acknowledge the continuous support of the President of Al Akhawayn University, Professor Driss Ouaouicha, and the Vice-President for Academic Affairs, Professor Ahmed Legrouri.

My deep thanks go also to the Foundation of the Mediterranean Institutes of Economic Sciences (FEMISE) for their continuous support. Special thanks are addressed to Professor Jean Louis Reiffers, Dr. Frederic Blanc, and Dr. Maryse Louis.

My deep acknowledgments go also to IGI, who encouraged me to pursue this project under the continuous help and monitoring of Mr. Austin DeMarco.

This work could not be achieved without the inputs from my colleagues, Professors Cristina Boboc, Emilia Titan, and Daniel Pele, from the University of Bucharest. I also recognize the contributions of Ms. Nada Zouag, Ms. Molk Kadiri, Mrs. Amale Achehboune, Hajar El Alaouani, Alae Gamar, Fatima Zahra Filali Adib, and Ghita Bentouila, besides professors Abdelkader Djeflat and Antonio Rodrigues. The contributions of different reviewers of the full manuscript and those selected for individual chapters are highly appreciated. These include, besides the anonymous referees, the contributions of Ms. Lamiaa Bargache and Nisrine Ouariaghli. The input from the members of the Advisory Board for this book are also acknowledged.

I would like to thank each one of the above for their confidence and for their generous input. However, all the mistakes and inconsistencies introduced while working on this book and ensuring the final output remain under my full responsibility as book editor.
