Acknowledgment

I would like to thank Professor Paul Davis of Rand Corporation and Pardee RAND Graduate School, who read the manuscript and wrote the Foreword for this book. Appreciation and gratitude is also due to three anonymous reviewers of this book for the valuable comments and suggestions.

Special thanks go to the publishing team at IGI Global, whose contributions throughout the whole process from inception of the initial idea to final publication have been invaluable. In particular to Lindsay Johnston and Kristin Klinger, whose enthusiasm motivated me to initially accept their invitation for taking on this project and to Rebecca Beistline, who continuously supported and kept the project on schedule.

Last but not least, I also would like to thank my parents and my husband. Without their unconditional support, love and encouragement, this book would not be possible.
