Acknowledgment

This book would not be possible if the editors did not enjoy the entire support of the publisher, IGI Global. A chain of helpful consultants, whose last link was Ms. Julia Mosemann, walked with us the 18 month long bumpy way of forming the unstructured incoming material of interrelated articles to a reasonable thematic concatenation. For the history of the book, the first link was Dr. Mehdi Khosrow-Pour, whose enthusiasm and constructive suggestions formed the editing team and shaped the focus of the project.

Last, but not least, we would like to thank all the contributors of this book, who have contributed in our research focusing on privacy and information security.

In closing, we wish to express our deep appreciation to our families, to whom this book is devoted to, for providing us the needed inspirational resources to balance our careers and family trajectories.
