Foreword.................................................................................................................................................. xv

Preface................................................................................................................................................... xviii

Acknowledgment................................................................................................................................... xxiii

Section 1
Assistive and Computer Technology for Children with Autism

Chapter 1
The Promise and Limitations of Assistive Technology Use among Children with Autism .......... 1
  Kari Andersen, Fordham University, USA
  Lauren Levenson, Fordham University, USA
  Fran C. Blumberg, Fordham University, USA

Chapter 2
Addressing Executive Function Using Assistive Technology to Increase Access to the 21st Century Skills ........................................................................................................................................... 20
  Brenda Smith Myles, Ohio Center for Autism and Low Incidence, USA
  Jan Rogers, Ohio Center for Autism and Low Incidence, USA

Chapter 3
Incorporating Mobile Technology into Evidence-Based Practices for Students with Autism .......... 35
  Iva Strnadová, University of New South Wales, Australia
  Therese M. Cumming, University of New South Wales, Australia
  Cathi Draper Rodriguez, California State University – Monterey Bay, USA

Chapter 4
The Use of Computer-Based Technologies to Increase the Academic, Behavioral, and Social Outcomes of Students with Autism Spectrum Disorders in Schools: Considerations for Best Approaches in Educational Practice ................................................................. 53
  Frank J. Sansosti, Kent State University, USA
  Mary Lynn Mizenko, Kent State University, USA
  Allison Krupko, Kent State University, USA
Chapter 5
Information and Computer Technology for Individuals with Autism .................................................. 71
Zandile P. Nkabinde, New Jersey City University, USA

Section 2
Single User Devices for Children with Autism

Chapter 6
Augmentative and Alternative Communication for Learners with Autism Spectrum Disorders ........ 87
Jody M. Pirtle, Northern Arizona University, USA
Elizabeth A. West, University of Washington, USA

Chapter 7
Using Handheld Applications to Improve the Transitions of Students with Autism Spectrum Disorders .......................................................... 105
Michael Ben-Avie, SCSU Center of Excellence on Autism Spectrum Disorders, USA
Deborah Newton, Southern Connecticut State University, USA
Brian Reichow, AJ Pappanikou Center for Excellence in Developmental Disabilities
University of Connecticut Health Center, USA

Chapter 8
Improving Socialization and Emotion Recognition for Children with Autism Using a Smartphone App ................................................................. 125
Cassidy Lamm, University of Alabama, USA
Lauren Lambert, University of Alabama, USA
Joshua Wolfe, University of Alabama, USA
Jeff Gray, University of Alabama, USA
Angela Barber, University of Alabama, USA
Gary Edwards, United Cerebral Palsy of Greater Birmingham, USA

Chapter 9
A Viable Option? Single-User Virtual Environments to Teach Social Skills to Children with ASD ................................................................. 143
Julie E. N. Irish, University of Minnesota, USA

Chapter 10
A Task Assistant for Individuals with Autism Spectrum Disorder ................................................. 163
Joo Tan, Kutztown University, USA
Section 3
Video and Virtual-Based Instruction for Children with Autism

Chapter 11
Robots and Autism Spectrum Disorder: Clinical and Educational Applications.......................... 178
Amie Senland, Fordham University, USA

Chapter 12
Video Games as a Form of Therapeutic Intervention for Children with Autism Spectrum Disorders .............................................................................................................. 197
Toby Mehl-Schneider, City University of New York, USA
Shimon Steinmetz, Brooklyn College, City University of New York, USA

Chapter 13
Video Modeling for Individuals with Autism Spectrum Disorders ............................................. 212
Christine R. Ogilvie, University of West Florida, USA
Peggy Whitby, University of Arkansas, USA

Chapter 14
The Development of Virtual Reality Technologies for People on the Autism Spectrum ............ 230
Nigel Newbutt, Bath Spa University, UK

Chapter 15
Realabilities: The Development of a Research-Based Children’s Television Program to Address Disability Awareness and a Stop-Bullying Platform in the Schools................................................. 253
Nava R. Silton, Marymount Manhattan College, USA
Senada Arucevic, Marymount Manhattan College, USA
Rebecca Ruchlin, Marymount Manhattan College, USA
Vanessa Norkus, Marymount Manhattan College, USA
